Note for anons: Post all requested updates in /cfg/. Access requests are ignored.

Note for journalists: Use any content you like, this was all public information.

Context/Disclaimer: This is a backup of what we've been posting and documenting on 4chan. What has been posted there is what shows up here, with some extra links to the website, subreddit, and other communication outlets for convenience. It is by no means a professional report, but it's all of the information we've been gathering put into one location. Any offensive language is merely tongue in cheek - the online board develops its own slang. We are NOT affiliated with Neo-Nazi groups, Anonymous, or any other political/social organizations.

Backups of this backup are saved every few hours. No vital content ever deleted.

Check the ends of sections for updates - most are done 4chan-style unless it's clean up.

See section How You Can Help for what to get started on.

Shills/CTR are really mad about the dox. Hang in there.

Ctrl + F is your friend 250 pages and beyond!

ECONOMIC ANALYSIS

One thing missing from all this analysis that is indispensable in knowing is the finance and economics of all this. This will put a lot of the political side in place.

The world currently has more debt than any time in history. Since the great financial crisis the world has \$57 trillion MORE in debt (what the real number is, is a mystery, safe to say it's much more). Most of the developed world's governments (basically the OECD) are insolvent (bankrupt/ broke). Nation states collapse under this debt load. Got the picture? Good.

On to Soros.

Soros, through his political connections and his numerous philanthropic endeavors have supported the overthrow of governments. This is much easier to do with an over indebted populous and government. Debt up to a certain point strengthens if used properly, but beyond that point it's devastating to the business, the economy, and therefore societal structure. Once beyond the horizon, the more debt that exists the more devastating it will be when everything hits the fan. We, in the developed world are way way way beyond the horizon. All we are waiting for is the spark.

This is where Soros comes in. Soros has a history of destabilizing a country and is very effective at it. He is actively doing it now with BLM and other organizations. If you want more details see the original thread. His MO in a nutshell -> destroy a country -> companies and resources get really cheap -> buy up companies and resources for cheap and bail out governments for favors and even more money -> sell when things recover or use as assets for another takeover. Rinse and repeat.

What I don't understand is what he's doing in the US. It is a change in his pattern. His ability to profit on destruction requires the ability to move his winnings to a stable nation. The US is starting to unravel at a very fast pace (not to mention the EU). There aren't many safe havens left.

Let's put our tinfoil hats on even tighter. Soros broke the English pound in 1992. He made \$1 billion in a single day by selling it short. Right before the Brexit vote, Soros came out and stated britain should vote to stay. We know he has inside information, if he wasn't already involved in rigging the vote (see OP thr

eads for more). You can see where this is going. He publicly states they should stay, manipulates all the polls to show that staying is winning thereby dramatically increasing the payoff for Brexit. The pound is down 14%, just as he predicted. In 1992 he caused it to fall 15%. He made a billion in 1992 and probably many multiples that from Brexit.

The greatest irony in my opinion would be if England welcomed him with open arms, provided he invests in their economy. The way things are going over there, he's going to be able to buy London for dirt cheap.

While I despise him as a person for what he does and is involved in, as an intellectual and strategist, I don't think there is anyone better.

Back to global macroeconomics.

It has become common practice for central banks (CBs) to bail out and prop up failing companies and governments. Since CBs create money out of thin air, there is no limit to how much they create, except for the fact that the currency becomes worthless.

Think supply and demand. If you are hungry and you had 3 hotdogs to eat, you would value each hotdog a lot as long as you were hungry. If you only have 1 hotdog, that 1 is more valuable than if you have 50. After 3 hotdogs I'm full and couldn't eat another bite. The remaining 47 are worthless. This is what CBs have been doing, except instead of hotdogs it's money. They are devaluing money. The way to protect against this is to change your dirty money for quality money, ie money that isn't being messed with... or precious metals (gold, silver, platinum, palladium).

Back to Soros.

He just bought \$264 million worth of Barrick Gold mining company. If gold goes up \$1, the stock of Barrick goes up \$5. Needless to say, he is going to easily make billions on this deal alone. Gold will only go higher because all of the world's CBs are destroying their currency.

Things to Remember

Collapsing countries are weak countries. Anyone with money and big guns can take over easily. They can rewrite laws. This ties in with the globalist POV. Collapse the world, the power that's left will be the one to take over.

Research Anons Tasks

Light bulb just went off. Gold and other Precious metals will be the means with which to carry the elite through the collapse. The value of the gold will increase exponentially. They will literally be able to buy the world.

Need to look into the precious metals angle. The safest and cheapest place to store gold, is in the ground (ie unmined). We need to look for countries or areas where the CF or Soros have done work that are rich in gold reserves or mining.

We should also look into if there have been purchases of farm land. Control of food will become a source of power. It will be how they get the local population to work.

IRS INVESTIGATION - THIS IS IMPORTANT

<http://dailycaller.com/2016/07/26/exclusive-irs-launches-investigation-of-clinton-foundation/>

The IRS has launched an investigation into the Clinton Foundation due to a request by Congress.

-----Qoute Begins-----

Time to go /cfg/, let s see who the head of the IRS is currently.

Oh look, it s going to be another DEMOCRATS "LOSING" EMAILS AGAIN EPISODE.
https://en.wikipedia.org/wiki/John_Koskinen

>In June 2014, Koskinen informed Congress that 30,000 emails from the account of a central figure in the scandal, Lois Lerner, had been lost. It later came to light that Koskinen had known about the lost emails in April and had waited until the information was disclosed in a court case to notify Congress. Koskinen stated: "We confirmed that backup tapes from 2011 no longer existed because they have been recycled, pursuant to the IRS normal policy." In September 2014, the Treasury Department Inspector General reported that it had found 760 tapes from which it later recovered Lerner's emails.[9]

>Those sponsoring the impeachment resolution to remove Koskinen from office accused him of failing to prevent the destruction of evidence in allowing the erasure of back-up tapes containing thousands of e-mails written by Lois Lerner, and of making false statements under oath to Congress.[10][11] In a statement released by the Committee, Chaffetz said Koskinen "failed to comply with a congressionally issued subpoena, documents were destroyed on his watch, and the public was consistently misled. Impeachment is the appropriate tool to restore public confidence in the IRS and to protect the institutional interests of Congress."

EMAILS AND WIKILEAKS

I went onto Wikileaks (<https://wikileaks.org/>), and searched specific words/phrases (e.g. SAP, Clinton Foundation, Rajiv, etc.) that would provide me with e-mai

ls that might come off of Hillary's server. I'm hoping to come across conversations about the Clinton Foundation and SAP's (Secret Access Programs). I came across a resume (https://wikileaks.org/gifiles/docs/80/80059_resume-for-c-t-analyst-.html) of a someone that has experience with SAP's.

Why that is important is because it gives you clues as to what key words to search for when trying to find the Clinton Foundation e-mails that might link donors to SAP privileges. Basically, selling Top Secret Access to "Donors"; pay to play.

Here are terms I found from the resume that I thought might be useful:

- *Top Secret Security Clearance with SCI/ SAP/ Access.
 - *Space Force Enhancement and Space Control Operations
 - *National Collection Capabilities
 - *Experienced user of INTELLINK, SIPRNET, JWICS and other intelligence tools
 - *Tactical Intelligence including some Human Intelligence (CI/HUMINT)
 - *Intelligence Operations.
 - *Stabilization Force 10 producing daily
- Best of luck!

>But maybe more than anything, Mr. Trump showed in 2011 how he would deploy conspiracy theories, associating with conspiracy purveyors like Alex Jones, a syndicated radio host. Among many examples in the last year, The Times wrote in March,

Mr. Trump reposted information on Twitter from the website Infowars, hosted by Mr. Jones, to support his unsubstantiated claim that thousands of Muslims in New Jersey cheered the Sept. 11 attacks.

JAMES GRIMALDI of the Wall Street Journal investigated an Energy Department grant (<http://www.wsj.com/articles/clinton-charity-aided-clinton-friends-1463086383>) to a company owned by friends and political allies of Bill Clinton that was also the beneficiary of a "commitment" received through the Clinton Global Initiative. Clinton personally spoke to then-Energy Secretary Stephen Chu about it, Grimaldi reports.

Grimaldi raises the question of whether the foundation's advocacy on behalf of the company creates a "private benefit" substantial enough to threaten its tax-exempt status. BUT THE REAL REASON this story will remain a hot topic is the list of friends of Bill who had ownership stakes in the company:

- * Scott Kleeb, former Democratic congressional candidate
- * Jane Eckert, art gallery owner
- * Andrew Tobias, DNC treasurer
- * Mark Weiner, campaign paraphernalia seller
- * Julie Tauber McMahon of Chappaqua, NY

"Ms. McMahon, 56 years old, described Mr. Clinton as 'a family friend.'"

James Grimaldi / WSJ (<http://www.wsj.com/articles/clinton-charity-aided-clinton-friends-1463086383>)

The New York Post splashed pictures of Clinton and McMahon across its cover (<http://nypost.com/cover/covers-for-may-13-2016/>) this morning, referring to her as a "blond bombshell." If past is prologue, expect Donald Trump to talk about this story a lot.

MSM reports prison "reform" by releasing nonviolent prisoners. MSM paint it as reducing the burden for taxpayers, nonviolent offenders pose less threat to community upon reentry. TL;DR this is a good thing.

Step back from MSM narrative. See that the people being released are cocaine related prisoners. Clintons = cocaine. Obama being told to or deceived into freeing the Clinton drug network? Need to find connections

Officials say that while the time frame of the investigation does cover Gov. Terry McAuliffe's work as a board member with the Clinton Global Initiative, the foundation is not alleged to have done anything wrong.

CNN's Evan Perez, Shimon Prokupecz and Pamela Brown broke the story, which found that, "Among the McAuliffe donations that drew the interest of the investigators was \$120,000 from a Chinese businessman, Wang Wenliang, through his U.S. businesses. Wang was previously a delegate to China's National People's Congress, the country's ceremonial legislature." DEBBIE WASSERMAN SCHULTZ (DWS) - theory

>OK, so we all know Debbie Wasserman Schultz (DWS) was the co-chair of Hillary's 2008 presidential run, where she lost the nomination to Obama. So, in order to lock down the nomination for 2016, Hillary was able to get DWS in charge of the DNC and manipulate it from within. That's the theory anyway, except....

In order for this to work, they would first have to, not only get the DNC chair to step down, but also get them to recommend DWS for the position. The Clinton's would have to promise something to that person, something more prestigious than being head of the Democratic party. So who was that person and what did they ge t in return?

It would appear that Donna Brazile was in-line to get the position, but she was only the interim chair after the previous chair left, served only one month. Acc ording to this, <http://rulers.org/usgovt.html#parties>, the previous chair of the DNC prior to DWS was Tim Kaine.

Address for Lakefront is :
3112 Northampton St. NW
Washington DC 20015

Based on what we've seen so far, I have a gut feeling that this is probably another shell company address.

We should also assume that each shell company in an address are connected if leads dry up of where money is going.

Those offices could be used as a private area for cash and other transactions where a paper trail would be too risky.

It would also serve as cover to make the building seem populated enough. After all, an empty office building is suspicious, especially in a major city such as D.C.

CLINTON FOUNDATION LINK TO THE FEDERAL RESERVE

>Clinton Foundation, DNC Donor Appointed as Federal Reserve Official

>New appointee replaces a popular critic of the Fed weeks before pivotal meeting
<http://freebeacon.com/issues/clinton-foundation-dnc-donor-appointed-as-federal-reserve-official/>

A donor to the Clinton Foundation and Democratic National Committee (DNC) has been appointed as the chief executive officer of the Federal Reserve Bank of Dallas and member of the Federal Open Market Committee (FOMC).

Robert Steven Kaplan, a Harvard Business School professor and former executive at Goldman Sachs, has also donated more than \$100,000 to Democratic candidates and campaigns, according to a Washington Free Beacon analysis.

Kaplan has donated \$147,450 to Democratic candidates and campaigns, including \$45,600 to the DNC, as well as \$15,450 to Republican candidates and campaigns. Kaplan has also donated between \$25,000 and \$50,000 to the Bill, Hillary and Chelsea Clinton Foundation.

Kaplan was appointed to be the CEO of the Dallas Fed on Aug. 17. As part of his role, Kaplan will also serve as a member of the FOMC, the group that is scheduled to meet eight times a year to formulate monetary policy, which includes setting interest rates and open market operations such as quantitative easing (QE) policy.

Kaplan will begin the job on Sept. 8, 2015, one week before the highly anticipated September FOMC meeting, where 82 percent of economists are predicting that the Fed will raise interest rates.

Kaplan will replace Richard Fischer, a critic of the Fed and QE policy, the process of large-scale asset purchases of Treasury and mortgage-backed securities that has greatly expanded the Fed's balance sheet.

>Records Show Clinton Only Candidate to Receive Campaign Money from Federal Reserve Officials

<https://friendsofsyria.wordpress.com/2016/04/23/records-show-clinton-only-candidate-to-receive-campaign-money-from-federal-reserve-officials/>

>Thanks to the recently leaked Panama Papers, that public persona is getting peeled back layer by layer. Yesterday, the Free Thought Project reported on the recently leaked names from the papers that link the campaign-financed careers of Hillary and the former President Bill Clinton to those who use the offshore tax shelters. Not only do their financiers use unethical offshore tax havens, but as we showed, many of them are outright criminals.

>It seems that the only thing missing from Clinton's rap sheet are outright admissions of murder and conspiracy. And, judging from her recent success in the widely rigged polls, it is not so far-fetched to think that she could actually admit to conspiracy and still be President.

>According to federal records, Hillary not only runs multiple shadowy shell companies, and has virtually unlimited support from an international elite cabal, but she is also in the pocket of the Federal Reserve.

>According to the records at the Federal Election Commission, Hillary Clinton has received multiple donations from a top Federal Reserve official. Since 2007, when she was at the Brookings Institution, Lael Brainard has been funneling money to Hillary. In 2014, after serving as a senior official at the Treasury Department, Brainard was placed on the Washington-based Federal Reserve's board of governors and continued her support.

>Since her stint at the Fed, Brainard has made three such donations to Clinton's campaign, Hillary for America.

ANASTASIA SOMOZA

Did you see the disabled girl speaking at the DNC? That's not a normal cripple. Her family has a serious history. And I think we need to investigate. Her grandfather was the actual dictator of Nicaragua.

Source: http://articles.latimes.com/1994-05-01/news/mn-52591_1_alba-mary-somoza-nicaraguan-dictator-anastasio-somoza

He was overthrown by the Sandinistas Liberation Front in 1979, which led to the Contra War, in which the US government took the side of the Dictators Anti-revolutionaries (the side that supported the crippled girl's grandfather)

Here's some additional reading on the contra war, sources on the wiki page give direct links to the CIA attempting to stop the counter revolutionaries

https://en.wikipedia.org/wiki/Nicaraguan_Revolution#Contra_War

And check out the Coat of Arms for Nicaragua. It shares an odd resemblance to the "illuminati" symbol

She works with the Clinton Foundation, which is obviously predated by the activities that her grandfather was involved in, but it's odd that the CIA was involved, and now she's involved with the Clinton Foundation

CF links:

https://www.opwdd.ny.gov/news_and_publications/opwdd_news/alba_somoza_realizes_her_dreams

Just google "anastasia somoza clinton foundation"

And there are loads of links associated with her

I just found out about this connection, so I will continue to dig, but any additional help would be beneficial.

anyone care that the handicapped girl story in Hillary's acceptance speech was totally fabricated?

I took over as Mayor in January of 1973. We had a budget for vans with drivers and provided services to students with disabilities. It was Tremblay Bus. They would pick them up and drop them off at their homes. Now, they may not have been able to go to the local school, depending on whether or not the schools were accessible for wheelchairs but there were many schools then which could and did accommodate our handicapped students in wheelchairs.

In fact, we had a local guy who was a paraplegic, injured in a diving accident who came to my office many times to advocate for the disabled and I actually spent an entire day in 1973 in a wheelchair to better understand the challenges they face everyday. Soon after that we were cutting out sidewalks for wheelchairs and doing things in New Bedford before the laws ever compelled us to.

So despite the progressive and good works of the New Bedford leadership in 1973 to make the city schools and streets more handicap accessible, Hillary (no pun intended) rolled New Bedford local government under the bus last night in front of the world. And needed to lie to do it. It just didn't seem possible in those days Hillary, because it wasn't true in 1973 New Bedford.

Read the whole thing here.

Hillary Clinton made up the whole story to sound like a selfless humanitarian. In 1973 New Bedford was already giving handicapped kids rides to school.

KHIZR KHAN

This guy should be a reminder to people that:

- a) hillary was the one who created the war that his son died in
- b) the guy is a massive sharia law advocate trying to use his son as a political gambit to push for more muslim immigration, by trying to slam trumps immigration policies. People find that out..
- c) he also has ties to the clinton foundation which hillary does NOT want to talk about

PAPER ON ISLAMIC LAW: <https://sli.mg/a/OdCbmn>

Literally nothing is going hillarys way..

it's incredible the information and connections are there for you to find, but you refuse to acknowledge how much you've been lied to by hillary and the dems in general.

Records obtained by Breitbart News reveal that Hillary Clinton's own lawyer's firm represented the company and handled the patent for the program that Clinton used on her private email account.

New York tax attorney Howard Topaz became Bill and Hillary Clinton's personal tax lawyer in 2004 and started filling out the couple's tax returns. Topaz was a partner at Hogan & Hartson, which later merged to become known as Hogan Lovells, where Topaz continues to practice. The firm's lawyers were major donors to Hillary Clinton's first presidential campaign.

<http://www.breitbart.com/big-government/2015/08/25/exclusive-hillary-used-email-monitoring-company-linked-to-her-personal-lawyer/>

Khizr Khan is Pakistani, by way of the UAE. He has an MA from Harvard, or at least studied for one.

He works in the legal profession. He's not an attorney, but a litigation technology specialist. In other words, he knows the information technology that is involved in a modern law practice.

As a matter of fact, from 2000-2007 he was the manager of litigation technology for Hogan & Hartson.

<http://www.law.com/sites/almstaff/2016/07/29/dnc-speaker-khizr-khan-a-man-of-character-say-former-big-law-colleagues/>

Since leaving the direct employment of Hogan & Hartson, Khan has worked as a consultant, presumably in the litigation technology field, but it is not known who his clients have been.

So he's a former (and possibly current?) IT guy at a DC law firm which was involved with setting up Hillary's email system.

I think we deserve to know more about this fellow, and precisely how he is connected with Hillary Clinton, and why he has taken on this role as her unassailable moral authority figure de la semaine.

PS: Oh, did I mention that Loretta Lynch also worked at Hogan, from 2002-2010?

Why so many Saudi connections?

<http://www.breitbart.com/big-government/2016/08/01/just-joking-media-apoplectic-khizr-khan-attack-donald-trump-goes-flames/>

> But, as Breitbart News showed on Monday midday, that clearly was not the case.

Khizr Khan has all sorts of financial, legal, and political connections to the Clintons through his old law firm, the mega-D.C. firm Hogan Lovells LLP. That firm did Hillary Clinton's taxes for years, starting when Khan still worked there involved in, according to his own website, matters firm wide back in 2004. It also has represented, for years, the government of Saudi Arabia in the United States. Saudi Arabia, of course, is a Clinton Foundation donor which along with the mega-bundlers of thousands upon thousands in political donations to both of Hillary Clinton's presidential campaigns in 2008 and 2016 plays right into the Clinton Cash narrative.

They crop up a LOT with the Clintons. Is it just money?

To be fair, the Bushes were close to the Saudi's too, but I don't remember this much money being mentioned all the time.

TIM KAINÉ

Dem VP Pick close ties to Muslim Brotherhood Founder, Jamal Barzinji, October 24, 2011 Article from Front Page Magazine - Maybe close friend of Huma Abedin family????

<http://www.frontpagemag.com/fpm/109782/virginia-senate-candidate-honors-hamas-as-sociate-ryan-mauro>

See Wikipedia:

Also, Tim Kaine was a Jesuit missionary in Honduras.....https://en.wikipedia.org/wiki/Tim_Kaine.....Jesuit priests started "Liberation Theology" in South America. Same as Black Liberation Theology. "Bottom Up Revolution".

Involved with the DNC fundraising and Clintons for a very long time.

Here's a possible lead for you guys with the whole pedophile sex cult/Jeffrey Epstein angle of the Clintons. Perhaps this could involve Tim Kaine as well, since he would have to know about this and be OK with it.

I think you all have noticed that Tim Kaine seems like a homosexual. Just watch this if you haven't seen him yet: <http://www.youtube.com/watch?v=-4mVwT8qAQE>

Often people are "turned" gay after having been sexually abused as a child or teenager. I have some evidence that this may be the case with Kaine:

According to his bio, Kaine graduated from the Rockhurst Jesuit Highschool in 1976. So he would have presumably went there between 1973-1976. The thing about the Jesuit order is that it is infested with homosexuals and there are innumerable cases of Jesuits sexually preying on young teenaged boys.

Here is one Jesuit priest, Chester "Chet" E. Gaiter (1939-2010) who was accused of sexual abuse. He worked at the exact same school that Kaine went to from 1968-1973 as the school nurse (easy access to teenage boys to prey on): http://www.bishopaccountability.org/assign/Gaiter_Chester_E_sj.htm

So maybe Kaine was the victim of sexual abuse?

Oddly enough this was a black priest, and one of the nearest churches to the school is St. Elizabeth's in Kansas City, MO.

Kaine has attended a black church in Virginia for 30 years...St. Elizabeth's.

>MANAGING ASSOCIATIONS BETWEEN DEVICE IDENTIFIERS

>Device identifiers for devices, such as computing devices, software, and applications, etc., are analyzed to determine whether the device identifiers are associated with each other (e.g., are connected to each other) and how strongly the device identifiers are associated with each other. A stronger connection between two device identifiers may indicate that the device identifiers are connected to the same user, same computing device, or same household. Connections between device identifiers are identified and/or weighted if the device identifiers are associated with the same network or if the device identifiers use the same login information to access content. The identifiers and their connections may form a device graph. Content is targeted to the clients based on the device graph. The device graph may also be used to perform targeting and orchestration of advertising, attribution reporting, analytics, and content optimization across devices in the device graph.

Since I'm having trouble looking into Are Helge Traasdahl I'm going to give the information I have which is very little and hope someone is better at searching this than I.

So in February his company, Tapad was bought by a Norwegian company called Telenor for 360 million dollars.

.
<http://www.bangladesh-web.com/new/national/16440-telenors-rebuttal-says-it-never-donated-money-to-clinton-foundation>

So the only thing I can think of is that Norway's Government is one of the donors for CF so is it possible for Norway to donate money on behalf of Telenor? I'm not particularly smart on how this sort of thing works so I was hoping /cfg/ could help.

>"In July 2013, the board of the Bill, Hillary and Chelsea Clinton Foundation approved a salary of more than \$395,000, plus bonus, for its new Yale-educated CEO, Eric Braverman, who had worked with Chelsea Clinton at the prestigious McKinsey & Company consultancy. The former first daughter pulled strings so Braverman could help her impose McKinsey-like management rigor to a foundation that had grown into a \$2 billion charitable powerhouse.

Just a year and a half after Braverman arrived, he abruptly resigned, and Politico reported that his exit stemmed partly from a power struggle inside the foundation between and among the coterie of Clinton loyalists who have surrounded the former president for decades and who helped start and run the foundation. Some, including the president's old Arkansas lawyer Bruce Lindsey, who preceded Braverman as CEO, raised concerns directly to Bill Clinton about the reforms implemented by Braverman, and felt themselves marginalized by the growing influence of Chelsea Clinton and the new CEO she had helped recruit. What played out over the past two years at the foundation was the story of Chelsea Clinton's rise. Now 35 and with the official title of vice chair at the foundation, her power now cannot be overstated: no major decisions occur without her input."

Soros is invested heavily in gold and in that first part it is mentioned how the rich will need a way to store precious metals etc.
<http://seekingalpha.com/article/3502906-george-soros-leon-black-buy-arch-coal>
Soros bought Arch Coal back in October along with a man named Leon Black. Black is incredibly rich, owns "The Scream", and is the founder of Apollo Management. Maybe this is the next step, looking at artwork to see who has used it as a store of value or as a way to launder money to the organization. Hopefully the idea about the buying of the coal company helps.

CLINTON PRESIDENTIAL LIBRARY

The William J. Clinton Presidential Center and Park is the presidential library of Bill Clinton, the 42nd President of the United States (1993-2001). It is located in Little Rock, Arkansas and includes the Clinton Presidential Library, the offices of the Clinton Foundation, and the University of Arkansas Clinton School of Public Service.

The library has been criticized for not including much information about the pardons Clinton issued just before leaving office.

Clinton pardoned former financier Marc Rich, a fugitive who had been charged with

h multiple counts of racketeering, wire fraud, income tax evasion, and illegal oil trading

Rich's wife, Denise Eisenberg Rich, was reported to have made three donations totaling nearly \$1,000,000 to Clinton's presidential library fund, as well as multiple other contributions to the Democratic Party and Hillary Rodham Clinton's senate campaign. It was later found that she only made three payments totaling \$450,000 to the fundraiser.

Clinton has also been criticized for the library's lack of coverage regarding various scandals during his presidency, including the Whitewater scandal.

PRIVATE EQUITY FUND

>Clinton Foundation's Colombian Private Equity Fund Was Unregistered

>Company's website removed from internet after Thursday report

<http://freebeacon.com/politics/clinton-foundations-colombian-private-equity-fund-was-unregistered/>

>The Clinton Foundation's Colombia-based investment company was not registered as a private equity fund in the country, which may have allowed it to avoid certain industry regulations and oversight from the Colombian government.

>Although Fondo Acceso described itself as a Private Equity Fund in company promotional materials and business presentations, it is not listed in a database maintained by the Colombian government of current or previously registered private equity funds.

>Colombian legal experts consulted by the Free Beacon said that Fondo Acceso did not appear to have violated any laws by calling itself a private equity fund, as long as it was not doing so while trying to raise capital.

>According to its corporate records, Fondo Acceso is registered in Colombia as a simplified stock corporation, which legal experts said precludes it from doing business as a private equity fund.

CLINTONS AND GLOBAL BUSINESS - Miscellaneous

Hello quid pro quo

>Clinton and Thein Sein shared a warm greeting in a hotel courtyard, their national flags and tropical foliage behind them. Clinton asked about Thein Sein's family and told him "I brought a very prestigious business delegation to see you. I wanted them all to hear from you tonight about your plans for the future."

>She met the reformist president last year when she became the first U.S. Secretary of State in half-a-century to visit Myanmar.

>They were to go together Friday night to meet the largest-ever delegation of American businesses to Southeast Asia. Those represented include Coca Cola, Ford, General Electric, General Motors, Goldman Sachs and Google.

>The high-profile gathering and meeting reflected the sharp progress the country also known as Burma has made after years in the international wilderness.

>The methodology approved by VCS was prepared by Winrock International, under contract to Shell Canada Energy. Funding for preparing the methodology came from Shell Canada, Gazprom Marketing and Trading and the Clinton Foundation.

>Shell, Gazprom and the Clinton Foundation are funding the landmark REDD Rimba Raya project on 100,000 ha (250,000 acres) in the province of Central Kalimantan in Indonesia. According to Reuters, the Rimba Raya project marks a milestone in the development of a global market in forest carbon credits.

>Shell's REDD carbon offset project could be quite a money maker. Reuters calculates that at about \$10 a credit, that means about \$750 million over 30 years.

>Renowned Nigerian environmentalist Nnimmo Bassey, Director of Environmental Rights Action and Chair of Friends of the Earth International, has a long history of opposing destructive oil extraction activities. We have suffered Shell's destruction of communities and biodiversity as well as oil spills and illegal gas flaring for decades. Now we can add financing REDD for greenwash and profits to the long list of Shell's atrocities.

>Clinton urges cooperation in resource-rich Arctic

>Arguing for its ratification at a recent Senate hearing, Clinton said the treaty would offer the U.S. oil and gas rights some 600 miles into the Arctic. She said American companies were "equipped and ready to engage in deep seabed mining," but needed to join the treaty to take exploit oil, gas and mineral reserves.

CHERYL MILLS AND BLACKIVY

More on Cheryl Mills, the Clinton aide turned shady businessmen.

After her departure from the State Department, she was allowed to keep her clearance level to access classified information. Clinton requested that she be allowed to keep her clearance, despite her leaving to found the BlackIvy group. Presumably it was to gain information to help her business and delete emails that may tarnish the Clinton name. Most likely the ones retaining to the CF.

BlackIvy has been under fire for a multitude of reasons, this article will explain why, it has been said before.

<http://www.breitbart.com/tag/blackivy-group/>

BlackIvy is also under an extreme amount of fire for proposing for a 23 cent minimum wage in Ghana, despite all the founders and CEOs calling for a 15 dollar minimum wage in the U.S. Here is another article explaining that and the actual powerpoint used to attract businesses to Africa.

>UNITAID

UNITAID

UNITAID

This is a global health initiative that somehow sort of spun out of the World Health Organization (WHO). It doesn't carry out any programs or research of its own, instead providing grants to various other groups which already have labs and distribution networks. Its proximity to the WHO gives it the leverage to negotiate cheap drug contracts with large pharmaceutical companies for its grantees. [<https://en.wikipedia.org/wiki/Unitaid>]

Almost all UNITAID contributors are governments, but the BMGF did provide them \$10m. [http://www.unitaid.eu/images/budget/December_31_2015_Financial_Statements_with_auditors_report_FINAL.pdf]

UNITAID is listed alongside BMGF as a top-tier donor for the Clinton Health Access Initiative (CHAI) [http://www.clintonhealthaccess.org/content/uploads/2016/08/CHAI-Donor-List_June-2016.pdf].

There are also a ton of other grantees, such as Stop TB Partnership, TB Alliance, etc. [<http://www.unitaid.eu/en/how/grantees>]

The most interesting part about UNITAID though is their innovative financing mechanism. They have accumulated over \$2 billion in eight years via a small fee added to any international departing flight out of a small subset of countries. [<https://en.wikipedia.org/wiki/Unitaid#Financing>]

So basically this company doesn't need any of its own equipment, generates an infinite stream of funding for grants, and is nestled up close enough to the WHO that it can get pharmaceuticals for dirt cheap.

One of its largest grantees is The Global Fund.

> "A politician from India donated some \$5 million to the Clinton Foundation which would have amounted to nearly his entire net worth, a new book about the Clintons claims. The Clinton Foundation in 2008 reported that it had received a contribution of between \$1 million and \$5 million from Amar Singh, a member of India's Parliament and a pal of Bill Clinton. The size of the donation relative to Singh's net worth raised questions about whether Singh was the true source of the cash, according to Clinton Cash author Peter Schweizer. The 2008 contribution was made as Congress debated approval of a nuclear agreement between the United States and India, which then-Sen. Hillary Rodham Clinton eventually supported."

> "Clinton supporter Ira Leesfield was listed last year as a \$250,000 to \$500,000 donor. His Leesfield Foundation was listed as having given just \$1,000 to \$5,000. However, the latter's tax filings revealed it has given at least \$200,000 to the Clinton Foundation.

>The updated donor list merges the two, putting Ira H. Leesfield and Leesfield Family Charitable Foundation, Inc. in the \$250,000 to \$500,000 category.

>The website appears to have corrected a similar discrepancy with respect to Fred Eychaner, combining the Chicago media mogul's personal and foundation giving into one line item."

Hillary Clinton's campaign has received 2.5 mil from a hedge fund called "Renaissance Technologies." This is run by a man named James Harris Simons. He also runs Euclidean Capital which has donated 7 mil to her campaign. In 2014 a Senate committee found Renaissance Tech had effectively dodged over 6 billion dollars in taxes. I wonder why they're donating to her. Isn't she supposed to be breaking up hedge funds that do this, not get funded by them.

Hillary Clinton presidential primary race began fundraising program is \$ 100 million

2015-04-22 18:11:33

Hillary Clinton is trying to build a small-scale, low-key, localization campaign image: no meetings, no crowds, close to the people.

But she still needs to raise money at an alarming rate.

Clinton campaign 2015

To create a low-key image of Hillary still a large campaign contributions electioneering

Later this month, Hillary Clinton will attend a campaign fundraiser.

According to his campaign finance director Dennis Chan on Friday sent a message to donors and fundraisers, April 28 in New York, April 30 in Washington, DC, there were two fund-raising activities. But the message did not specify the ticket price per game activities.

Program insiders confirmed, Clinton will attend fund-raising activities, the most likely venue for a private residence. Just last Wednesday, Clinton fundraiser was held in Vernon Jordan couple at home, they had former President Bill Clinton's personal advisor. In accordance with the recommendations have been received, the Democratic Party announced that for the first time Clinton's fund-raising activities will not take large banquet style.

This name insiders, fundraising infancy, Hillary's plan is to come up with a small amount of "the Clinton campaign's start," the event in line with the plan style.

If you can raise to 10 donors, each contribution of \$ 2700, the fundraiser will be led by Dennis

Chen campaign finance team given name "Clinton campaign initiator." \$ 2,700 is the upper limit individual contributions to the early election regulations. They can also donate \$ 2,700 for the final election. But in the primaries, Hillary only accept the basic political cash. This is Obama's strategy in 2008 to take the same pre-selection phase, and that time, Hillary Clinton is raising money for the general election on her useless.

"Clinton campaign started by" program also predicts a more attractive way of raising money: Clinton last election its requirements "package" and improve fundraising limit (Note: refers to circumvent regulatory Federal Election Commission, a where many people raise from donors or political action committee money, then t

he money donated to the campaign at once. this is where the candidates from their friends and family to raise funds might be called "packaged" and usually the company the CEO, lobbyist or some rich people). Fund-raising more than \$ 100,000 "package" and automatically upgraded to "Clinton campaign ascending." Chen's message also said that the campaign team opened the weekly "behind the scenes" calls for "help Hillary Clinton's campaign" briefings. In addition, every call will introduce a different understanding fundraiser campaign team members. They sent Jennifer Palmieri, director of media and Christina Scheck, vice president at the head.

The Clinton Global Initiative, a FiveCurrents ANNUAL production, has once again topped BizBash Magazine's list of New York's Top Political, Legal & Diplomatic Events 2010. During the 2009 Annual Meeting, CGI celebrated its fifth anniversary with a keynote address by President Barack Obama and attendance by heads of state, government and business leaders, scholars, and NGO directors. The Annual Meeting encourages these divergent groups of individuals to work together to analyze, discuss, and debate possible solutions to urgent global issues.

FRANK GIUSTRA

<https://i.sli.mg/0Hzta3.jpg>

>From an Aussie:

Not really a big part of this, but I saw the FBIanon threads and thought I'd pitch in.

I looked at the board of directors for CF and saw one of them was a CEO for a finance company and thought I'd check it out (Frank Giustra).

The guy looks incredibly strategic. Being a finance manager, he can pass off as fairly innocuous, but his past makes him stand out.

According to an interview he did (linking below) he worked with Merriyl Lynch, and then with Yorkton Securities - launching financing for European resources.

He's also an advisor for a gold mining company as well as connections to other resources (mostly gold though. AND he created Lionsgate Entertainment. Hell, him and Bill Clinton launched an organisation together and has more ties in Vancouver.

For a man like that to succeed so well several times (he even owns an olive oil company on the side) he must be connected through the roof. He's connected to Europe, to resources like gold (it may be worth noting George Soros recently bought a lot of gold) and will have his fingers in the media. He seems like an extremely advantageous man for any money laundering organisation. Further research would have to be done though.

Potentially important >***CGEP - Clinton Giustra Enterprise Partnership - Canadian CF? ***

Source:<http://thompsonstimeline.com/tag/united-states-us/>

Canadian mining financier Frank Giustra and former president Bill Clinton launch the Clinton Giustra Enterprise Partnership (CGEP), a Canadian charity that is an offshoot of the Clinton Foundation. The CGEP will become known for many charitable works, including funding relief efforts after a 2010 earthquake in Haiti.

However, investigative journalist Ken Silverstein will allege in a 2015 Harper's Magazine article that the CGEP is actually a slush fund for the Clintons. He will write that CGEP has been moving significant sums of money into the Clinton Foundation's flagship in New York. There's no way for the public to know precisely how much total money the CGEP has taken in over the years or how much it has forwarded on to the Clinton Foundation because, unlike in the United States, under Canadian non-profit law charities don't need to report donors to tax authorities. Nearly all the donors to the CGEP are unknown. It is also unknown how much CGEP has given the Clinton Foundation, except that it ranks in the top donor class of \$25 million or more.

CGEP Website: <http://cgepartnership.com/>

<http://harpers.org/blog/2015/11/shaky-foundations/>

>A Canadian charity called the Clinton Giustra Enterprise Partnership which is run by one of Bill Clinton's close friends, Frank Giustra has been moving significant sums of money into the Clinton Foundation's flagship in New York.

<http://www.metronews.ca/news/canada/2016/07/10/canadian-charity-affiliated-with-clinton-foundation-defends-high-overhead-costs.html>

"A Canadian affiliate of the Clinton Foundation that has raised millions from mining executives has spent far more on salaries and administrative costs than charitable programming in the two most recent years for which numbers are available, according to financial statements from the Canada Revenue Agency."

"The Clinton Giustra Enterprise Partnership (Canada), a registered charity based in Vancouver, B.C., devoted \$737,441 amounting to 78 per cent of its expenditures to management and administration in 2014. The amount includes spending on office supplies and expenses, salaries and professional and consulting fees."

GOLD

Been lurking for a while, not sure if anyone's posted about this but I haven't seen anything, so I'll post what I've got.

<http://www.gata.org/node/7190>

February 2009, Hillary Clinton urges China to buy more US treasuries.

<https://maryeiben.blogspot.ro/2016/06/clintons-and-federal-reserve-stole-fort.html>

October 2009 China has a US shipment of gold tested and discovers they are fakes (gold plated tungsten), produced by the Federal Reserve during Bill's presidency. It's estimated that over a million were produced, possibly having an effect on up to \$600 billion worth of gold in the market place.

<http://www.zerohedge.com/news/2015-07-17/china-increases-gold-holdings-57-one-month-first-official-update-2009>

July 2015, China releases first official statement of gold holdings since April 2009. Why the six year silence? Also, their holdings increased by 57%, which is less than predicted.

<http://www.marketoracle.co.uk/Article14996.html>

Another article that goes more in-depth into the tungsten bars, along with relevant source material and quotes, although I'm unsure of the integrity of the site.

Someone mentioned to look into gold because of its properties as a store of value that would only be augmented in a SHTF scenario. That being the case the value of pure and genuine gold would be further expanded if the majority of gold in the market place was actually tungsten. Beyond that, consider then, that you and all your elite mates own pretty much all of it because you secretly siphoned it all off.

OIL

The Rockefeller family started liquidating its oil assets way back in 2014 to "fight global warming" which makes NO sense on several levels. Then in May 2016, they liquidated ALL of their oil assets.

<http://www.cbsnews.com/news/rockefeller-family-is-exiting-the-oil-business/>

<http://www.cbc.ca/news/business/rockefellers-to-sell-oil-assets-as-part-of-50b-g>

I'm not sure if this is important or not, but I study macroeconomics as a hobby. This strongly suggests to me that the rockefeller's new about the oncoming oil glut, and started selling early, 2 years or so before it hit in full force.

Oil and gold working both ways works similarly in the market. Oil prices going up, or being bought means a bet on economic growth, whereas gold means the opposite.

If fbi anon is right in his assessment that the US and the world is going into a "Lost Decade" of stagflation (the most reasonable outcome with the current financial environment), then gold is going to become a growth asset for a long period of time since it's "immune" (price will vary, but that's why it's a safe haven anyway) to the fluctuation of currency. This'll make gold over the coming financial craziness an amazing investment if you have the money.

What do you think /pol/. Not trying to link the rockefeller's the clinton foundation necessarily, but gold purchases, gold investments, and gold mines, dates of oil liquidation holdings, etc, might give us another avenue of investigation.

Worth it, or red herring?

MARC RICH (died of a stroke in 2013)

- >Marc Rich & Co AG renamed Glencore after a management buyout in 1993
- >Founder was on FBI s Ten Most Wanted List.
- >He enrolled at New York University but dropped out
- >Pulled off first Middle Eastern corporate coup in 1973.
- >Miraculously he predicted OPEC countries oil export embargo, and the threefold price increase that accompanied it
- >Future trading was the norm in the crude oil market, but realising a price hike was imminent, Rich started buying and selling on the spot market.
- >Allowed him to sell on demand as the embargo took effect and and price rose catastrophically.
- >In 1974 Rich resigned from his employers who didn't approve and founded Marc Rich & Co AG Switzerland.
- >From 1979 to 1993, his company imported 50,000 tons of oil to the heavily sanctioned South African apartheid government
- >Rich purchased crude through a maze of front and shell companies in the midst of the 1979 Iranian hostage crises and oil trading ban.

- >It was a crime that was only picked up in 1983 by Rudy Giuliani (God Emperor knows everything).

- >Amid more than 51 counts of tax fraud, \$48 m in tax evasion and a 300 year prison sentence, Rich fled the US.
- >After nearly bankrupting the company in 1993 through zinc trades, the company dropped the founder s name, along with his notoriety, to rename itself Glencore.
- >Bitter at being forced out of his company, Rich founded another trading company called MRI Trading AG.
- >In 2003, with a \$7.5 billion turnover and 240 employees, MRI was sold to Russian Crown Resources.
- >Pardoned by Clinton in 2001.
- >Rich s ex-wife, Denise, was a close friend of the Clintons.
- >They had made sizable donations to the Clinton Presidential Library and the Clinton Foundation.

>Through The Rich Foundation , he donated large amounts to Israeli causes received honorary doctorates from Bar-Ilan and Ben-Gurion Universities.

Marc Rich, whose foundations have donated some \$100 million over the past two decades, 80 percent of it to good causes in Israel."

We sent over 100 letters to the White House, some of which were addressed to me and contained appreciation of Marc Rich's philanthropy, and others addressed directly to [Bill] Clinton

Azoulay, who has headed the Tel Aviv arm of the foundation for six years, said it had given the hospital about \$1.2 million.

"We often get requests from donors to write a letter stating that they have given us money, so we didn't think it unusual. But we had no idea it would be used for getting a pardon."

The book of appreciation to Rich has not yet been published (is it now?)

TL;DR Rich and his foundation were friends with the Clintons since forever and Rich used a simplistic yet forethought dupe: he donated random millions to hospitals and such and when he needed a pardon he asked them all to write a letter telling good things about him.

He also gave massive amounts of cash to Israel and Jewish foundations.

READ THIS (also slight commentary/summary)

We have found Marc Rich in the Turkey Wikileaks emails, having ties to Clinton, Gülen, his institutes in America, and his followers. This short article gives us a lot of connected names and we also got a new institute to search for - but we a

ll know what it really is about, from its name: "The Marc Rich Foundation for Education, Culture and Welfare " in Luzern. If one of the Swiss could look into this, and Marc Rich (moved to Switzerland after Bill Clinton pardoned him), it would be a huge help. I am certain this Rich guy had a lot of dirt on him, and had very close ties with the foundation.
<http://www.jonathanpollard.org/2001/012501c.htm>

If you do not know by now, Gülen was the leader of the recent coup attempt. He is an Islamist (much more "extremist" than Erdogan himself) who fled to America, and the Clintons and all the other usual suspects are very friendly to him. He has several institutes and schools all across the USA and gets a lot of money injected into these straight from American officials connected to the government.

Out of all the institutes Gülen has recently sent money to as "charity", it was the Clinton Foundation who received the biggest amount.

GUESS WHO ALSO PARDONED THIS GUY? YERR RIGHT, IT WAS COMEY. AGAIN.

From the Comey And The Clintons section:

>Comey declined to elaborate on other cases, but among the most publicized pardons was the one Clinton gave to fugitive commodities trader Marc Rich. Rich's ex-wife, Denise, was a major donor to the Democratic National Committee, Hillary Clinton's campaign and the Clinton library foundation.

PDF text about Marc Rich's pardon by Bill Clinton on his last day has been copied into this pastebin:

<http://pastebin.com/kP0nWk7L>

Rich has close ties with the Clinton Foundation, Gülen and his movement (leader of the recent Turkey coup), MOSSAD, and has an institute in Luzern, Switzerland called "The Marc Rich Foundation for Education, Culture and Welfare".

This lead started as his name came up in the recent email leaks from Turkey, in connection to the coup.

>Then, on Jan. 20, 2001 Mr. Clinton's last day in office Mr. Rich's name appeared on the presidential pardon list. It immediately became the most debated White House pardon since President Gerald R. Ford gave one to Richard M. Nixon in 1974, and speculation about Mr. Clinton's motivation was rampant.

>It was soon learned that Mr. Rich's former wife, Denise Rich, had made large donations to the Democratic Party and the Clinton library, and that Israeli officials, including Prime Minister Ehud Barak, had lobbied Mr. Clinton for the pardon. Rabbi Irving Greenberg, chairman of the United States Holocaust Memorial Museum, also pressed Mr. Rich's case, on museum stationery.

SAUL ALINSKY

From the RNC: <https://i.sli.mg/XZZpZs.png>

Rules for Radicals basics: <https://i.sli.mg/G80kD9.png>

In her thesis Clinton compares Alinsky to Martin Luther King:

"In the first chapter it was pointed out that Alinsky is regarded by many as the proponent of a dangerous socio/political philosophy. As such, he has been feared just as Eugene Debs or Walt Whitman or Martin Luther King has been feared, because each embraced the most radical of political faiths - democracy."

Let's listen to Alinsky himself:

"The Have-Nots of the world, swept up in their present upheavals and desperately seeking revolutionary writings, can find such literature only from the communists, both red and yellow. Here they can read about tactics, maneuvers, strategy and principles of action in the making of revolutions. Since in this literature all ideas are imbedded in the language of communism, revolution appears synonymous with communism."

"We have permitted a suicidal situation to unfold wherein revolution and communism have become one. These pages are committed to splitting this political atom, separating this exclusive identification of communism with revolution."

>We need a communist revolution, but let's give it another name, because nobody likes communism.

Huma Abedin Timeline

1976 - Born in Michigan

1978 - Moved to Jeddah, Saudi Arabia

1994 - Returned to US @ George Washington University

1996 - Interned for Hillary Clinton @ White House

1997 to 1999 - Was an executive board member @ GWU's Muslim Student Association

2000 - Full time HRC personal aid

2009 - Became an employee of CF and Teneo

2012 - Started her own private consulting firm 11 days before leaving the state department; Zain Endeavors, LLC

2013 - Left state department

Noteworthy: Starting in 2001 Anwar al-Awlaki was the Muslim chaplain at GWU's Muslim Student Association. He was the spiritual leader for some of the 9/11 hijackers. He had personal contact with the Fort Hood shooter. He was killed in 2011 in a Yemen drone strike (the one that caused the controversy of targetting an American citizen)

Another chaplain at GWU's MSA (from at least October 1999 through April 2002) was Mohamed Omeish, who headed the International Islamic Relief Organization, which has been tied to the funding of al Qaeda. Omeish's brother, Esam, headed the Muslim American Society, the Muslim Brotherhood's quasi-official branch in the United States. Both Omeish brothers were closely associated with Abdurahman Alamoudi, who would later be convicted and incarcerated on terrorism charges."

(IMPORTANT) Pretty large paper on her:

-married to Anthony Weiner, NYC politician, critics have attacked Trump for describing Weiner as a perv, Weiner was caught up in the sexting scandal under Carlos Danger, Weiner resigned from Congress on June 23, 2011.

-Abedin has served as vice chairwoman for Hillary Clinton's 2016 campaign for president, & continues in her role as personal assistant to Clinton, currently #3 position. Republican presidential candidate Donald Trump proposed banning Muslims from entering the United States, Abedin wrote an open letter to Clinton supporters calling herself "a proud Muslim" & criticized Trump's plan as "literally (writing) racism into our law books." Worked at a journal that promotes Islamic-supremacist ideology, founded by one top al-Qaeda financier, Abdullah Omar Naseef. Naseef ran the Rabita Trust, foreign terrorist organization under American law. Ms. Abedin & Naseef overlapped at the Journal of Muslim Minority Affairs (JMMA) for at least 7yrs.

-Syed Zainul Abedin, her father (died 1993), Huma was two they moved to Saudi Arabia. According to Walid Shoebat, a former member of the Muslim Brotherhood, now a peace activist, writes, The Abedins for decades were actually serving a foreign entity, the government of Saudi Arabia's Ministry of Islamic Affairs, and not American Democracy as President Obama stated.

-Saleha Mahmood Abedin, her mother is a member of the Muslim Brotherhood's female division the Muslim Sisterhood. Hillary's aide's mom is law professor in Jeddah Saudi Arabia

Huma Abedin and connections to terrorist orgs

<https://www.hsgac.senate.gov/download/emerson-testimony>

State department issued a subpoena to CF in Fall of 2015, asked for records "related to Huma Abedin, longtime Clinton aide who for six months in 2012 was employed simultaneously by the State Department, the foundation, Clinton's personal office, and a private consulting firm with ties to the Clintons."

Huma was involved in simultaneous employment with the State Department, the CF, Clinton's personal office and a consulting firm close to the Clintons. Seems really strange that someone would hold 4 jobs at once, no? Could be wrong but I think Huma's involvement goes much deeper than we thought.

Source:

>https://en.wikipedia.org/wiki/Clinton_Foundation#Transparency

Abedin was granted "special employee" status at state dept. with Hillary so that she could simultaneously retain a position with, of all orgs, Teneo (See sections on Teneo).

>Huma had access to classified info and worked with Teneo and the foundation

>The whole company is just CEOs looking for influence

>Teneo works with FIFA which we all know how corrupt that is

Now she started her own company to shield her while she started working with these groups right after leaving Clinton's personal staff:

<http://www.cnn.com/2015/08/19/politics/hillary-clinton-huma-abedin-zain-endeavors-llc/index.html>

Huma's Teneo ties are widely documented, this from of all places Vanity Fair for example -

>The next step was to sign off on Abedin's 2012 request to become a special government employee, or S.G.E., at the State Department. This would allow her to continue to get paid while working from home, in New York City, as a consultant with expertise that no other person could supply on a myriad of policy, administrative and logistical issues, according to her application for S.G.E. status. At the same time she could care for her new baby son, Jordan, born on December 21, 2011. She became an S.G.E. in early June 2012 and was paid \$62.06 per hour.

>By then, Abedin was also acting as a consultant to Teneo Holdings, a global strategic-consulting and investment-banking firm co-founded by her old friend Douglas Band, who did the same thing for Bill Clinton that she did for Hillary. For the seven months she worked at Teneo, she was paid \$105,000.

>Courtesy of Internet Archives, we were able to learn that Huma Abedin served as an Assistant Editor with IMMA from at least December 2, 2002 September 24, 2008. Her name fails to appear on the

IMMA website some time before February 14, 2009. Presumably, Abedin left IMMA to accept her

current position as Deputy Chief of Staff to Hillary Clinton.

On Huma, have direct evidence that her and her immediate family are directly tied to the Muslim Brotherhood and the Saudi government and have been since the beginning.

Huma, her brother and her mother were directly employed and associated with Saudi government officials and organizations indicted in terrorism funding schemes.

"Huma's luck seemed to know no end when Hillary Clinton personally signed off on a controversial deal in 2012 that allowed Huma to simultaneously work for the State Department and a private New York firm with deep ties to the Clinton family foundation. Mrs. Clinton personally signed a title change form that approved of the transition from being her Deputy Chief of Staff, to an SGE (special government employee), the equivalent of a contractor with special privileges. This allowed Huma to work for both the State department and for the Teneo Group. Some of you might remember the Teneo Group as a top consulting firm run by Bill Clinton's

tekeeper Doug Band. Bill Clinton was also on the payroll of Teneo. From June 2012 to February 2013, she held four jobs. She was Hillary's State Department aide, a consultant at Teneo Group, she worked and was paid a salary at the Clinton Foundation, and she worked as Hillary's private personal assistant."

I think Huma is one of the key players in all of this. Huma also worked for Teneo Group, probably leveraging her Clinton connections.

As The Only Official Channel To Clinton Over The Past Year, Abedin Also Became The Go-To Phone Call For Longtime Donors Looking For Information And Access.
(Annie Karni, Hillary's Shadow, Politico, 7/2/15)

Abedin's Special Government Employee status allowed her to serve as Deputy Chief of Staff at the State Department while simultaneously accepting private sector clients, including the Clinton Foundation and Clinton-tied Teneo, both of which had a stake in projects directly impacted by State Department decisions presenting a clear conflict of interest for Abedin. The arrangement, which shielded Abedin from having to disclose her private earnings, reportedly earned Abedin more than \$350,000 from Teneo while she simultaneously earned \$130,000 in a taxpayer-funded salary from the State Department. Her deal shielded Abedin from having to report her private earnings.

As part of the elevated role, Abedin is scheduled to begin headlining fundraisers and speaking in front of donors in the coming weeks, and will likely do more after that, campaign operatives said.

In August 2015, Grassley Asked The FBI To Confirm A Tip The Senate Judiciary Committee Received That The State Department IG Opened An Investigation Into Abedin For Criminal Misconduct Having To Do With Her Special Arrangement.

Senate Judiciary Chairman Chuck Grassley is asking the FBI to confirm a tip the panel received that the State Department inspector general has probed Hillary Clinton candidate Huma Abedin for criminal misconduct. On Wednesday, the Iowa Republican sent a letter to FBI director James Comey, obtained by POLITICO, asking him to confirm any investigation of Abedin, who's currently helping run Clinton's 2016 campaign. The Judiciary Committee has learned that the Office of Inspector General for the Department of State (State OIG) opened an investigation involving potential criminal conduct by Ms. Huma Abedin while she worked for the Department of State under then-Secretary Clinton, the letter says. While working for Clinton as one of her closest staffers, Abedin was given a special government employee status that allowed her both to serve Clinton and to work for the philanthropic Clinton Foundation and an outside firm called Teneo. The matter became a big to-do when it was originally reported a couple years ago, particularly because she was Clinton's deputy chief of staff.

BARACK OBAMA AND MUSLIM BROTHERHOOD

>Like so many other things Bush did, this appointment made it easier for his successor to not only replicate the move but to replace Cumber with someone like Rashad Hussain, who has memorized the Qur'an and has been tied to the Muslim Brotherhood.

><http://shoebat.com/2013/10/12/malik-obama-oic-us-iwf/>

> Already serving as a high officer of the administration, Hussain is now Obama's chosen envoy to the Organization of the Islamic Conference. He is also a fan of Sami al-Arian, the convicted head of Palestinian Islamic Jihad in North America.

According to Hussain in 2004, al-Arian was the victim of politically motivated persecutions. Hussain also reportedly asserted that al-Arian was being used politically to squash dissent.

><http://www.powerlineblog.com/archives/2010/02/025613.php>

>In August 2008, Hussain published a paper (for the Brookings Institution) titled Reformulating the Battle of Ideas: Understanding the Role of Islam in Counterterrorism Policy. A number of the paper's recommendations were consistent with the agendas and worldviews of the U.S. Muslim Brotherhood. For example:

> Policymakers should reject the use of language that provides a religious legitimization of terrorism such as Islamic terrorism and Islamic extremist. They should replace such terminology with more specific and descriptive terms such as Al-Qaeda terrorism.

AND this shows that the Muslim Brotherhood was welcomed at Yale

>While attending Yale Law School, Hussain was a member of the organizing committee for an April 2004 conference held by Critical Islamic Reflections, a student group sponsored by the International Institute of Islamic Thought and the American Learning Institute for Muslims (ALIM). Among ALIM's instructors were such prominent Muslim Brotherhood figures as Tariq Ramadan, Jamal Badawi, and Taha Al-Alwani.

In February 2015, President Obama appointed Hussain to take over (in April) as director of the Center for Strategic Counterterrorism Communications, an office within the U.S. Department of State.

>an office within the U.S. Department of State

COUNTERTERRORISM AND ALSO TERRORISM

Oh, and look at what new department Hillary started on Sep 9, 2011

> As the threat from al-Qaida becomes more diffuse, it is in the interest of the United States to forge closer ties with the governments and communities on the front lines and to help them build up their counterterrorism capacity. We need to expand our efforts to build an international counterterrorism network that is as nimble and adaptive as our adversaries. So we have launched a diplomatic offensive to strengthen bilateral and multilateral cooperation on counterterrorism. We have a broad and ambitious agenda, and to carry out this work, I am upgrading our office devoted to counterterrorism to a full-fledged bureau within the State Department.

>--United States Secretary of State Hillary Rodham Clinton, speaking on a Smart Power Approach to Counterterrorism, September 9, 2011

><http://www.state.gov/r/pa/prs/ps/2012/01/180136.htm>

> At Hillary's urging, Andersen writes, the President granted clemency to 16 Puerto Rican terrorists who have been sentenced to prison following a wave of bombings from 1974 to 1983 that took the lives of six Americans and wounded scores of others. Incredibly, the terrorists had not even asked for clemency. The worst attack was the January 24, 1975 bombing of Fraunces Tavern in Manhattan. The Puerto Rican FALN exploded a bomb during the lunch hour, hurling body parts into the street and killing four people.

>The terrorists accepted President Clinton's offer of clemency but expressed no regret for their actions. Former U.S. Attorney Joseph Di Genova went on record that the Puerto Rican terrorists were pardoned because they were a political benefit to the president's wife. Make no mistake about it. As Anderson notes, FBI director Louis Freeh opposed the pardons, as did New York major Rudy Giuliani, senator C

Charles Schumer and former Puerto Rico governor Carlos Romero Barcelo who, says Andersson, pleaded with the president not to release the bombers.
Fun fact : none other than James Comey found nothing wrong in what she and Bill did releasing these people.

STATE DEPARTMENT DRAMA? SEAL TEAM SIX?

A few weeks ago the State Department got in trouble for deleting video and transcript mentioning a trip that Clinton took to Iran (at that time visit to Iran were not permitted due to sanctions - was before talks were "officially" opened).

During this time, Clinton's plane crashed at Iran's Ahwaz International Airport . I think this is what caused her concussion (not the stomach flu).
Source: <http://www.eutimes.net/2012/12/clinton-injured-us-navy-seal-killed-in-secret-us-mission-to-iran/>

What's also worth noting: this plane also had on board one of the Seal Team Six members, who died in that plane crash. Remember how all those "heroes" except the hagiographer that put out the book with the official story, just coincidentally happened to die months after Osama's death was announced?

So the trip made to Iran was illegal, one of the Seal Team Six dudes dies during this time, the story has obviously been scrubbed from the media and state dept. records. And Hillary was Secretary of State during this time.

SOME CHOICE EXCERPTS:

>A new Foreign Military Intelligence (GRU) [LINK IN ARTICLE] report circulating in the Kremlin today is saying that United States Secretary of State Hillary Clinton was injured, and a top US Navy Seal Commander killed when their C-12 Huron military passenger and transport aircraft crash landed nearly 3 weeks ago in the Iranian city of Ahvaz near the Iraqi border.

>GRU report confirms that the aircraft is still in their possession in Ahvaz, but will only admit that the plane was forced to land because of technical problems .

>The US Navy Seal member reported killed in this bizarre incident... was identified as Commander Job W. Price who as a leader of this highly specialized American Special Forces unit protects high-ranking diplomats traveling in Middle Eastern and Asian combat zones.

>Curiously, US media reports on Commander Price's death say it being investigated as a possible suicide as he died from what the American Defense Department describes as a non-combat related injury.

>Equally as curious, US media reports state that Secretary Clinton will return t

o work next week after her having suffered what they describe as a nasty bout with stomach flu and a concussion which have kept her missing from public view the past three weeks.

>Within minutes of leaving Bahrain airspace... the C-12 Huron carrying Secretary Clinton and her US Navy Seal protectors... deviated from their assigned flight path heading, instead, directly towards Iran's International Airport where, coincidentally, Iranian President Mahmoud Ahmadinejad had previously landed on an unscheduled visit.

>Within seconds of the C-12 Huron crashing, this report continues, Iranian emergency and security personnel responded freeing the victims, including Secretary Clinton who was reportedly unconscious and bleeding profusely.

<http://www.washingtontimes.com/news/2015/aug/5/obama-stonewalls-seal-team-6-extortion-17-helicopter/>

>On the fourth anniversary of the worst one-day loss of military life in the war on terror, families of the dead say they are aghast that the government will not honor basic requests under the Freedom of Information Act.

> It has now been four years since Extortion 17 was shot down, said Doug Hamburger, whose Army air crew son, Patrick, was one of the 30 Americans killed. I find it quite disturbing that the government is not willing to give us the answers we deserve. I find it very irritating that we will not question the Afghans about their knowledge of what took place that night.

<http://www.redstate.com/diary/checkmate2012/2015/04/11/hillary-lie-cause-concussion/>

>At the end of Dec. 2012, several sources from many countries, including the AP, Reuters, EU Times, and many others reported that Hillary was injured in a plane crash in Iran. That same crash killed US Navy Seal Commander Job W. Price yet the State Dept. claimed he died of a non-combat related injury in Afghanistan and were investigating a possible suicide. All of the sources speculated that she was on a secret mission to Iran to possibly stall a ME war or to talk about Iran's nuclear bomb program.

>The inevitable Hillary is vulnerable due to her lack of credibility. This is a common theme with her and her husband and won't end for good reason; she can't be trusted as a CEO that leads by example or "plays by the same rules"*. So if someone might be a serial liar, isn't it fair game to question her past actions? The fact is, she owes Americans the truth if she expects to be the next president. Some may ask, at this point, what difference does it make?

>Is Iran holding this secret over America's head as a hostage in the nuclear talks?

>Is this why Hillary deleted all her emails so we don't know the truth about her trip and her involvement in secret Iran talks?

>Why did the NYT report she was home alone during her accident, yet Hillary said the email server is guarded by her and Bill's Secret Service protection at all times?

>Is she healthy enough to be president?

Well, here is something sketchy. A couple of thread's ago I posted some info regarding the unauthorized (ILLEGAL) and secret trip that Hillary made to Iran as secretary of State. This trip involved a plane crash in Iran - a sudden emergency landing at the International Airport in Iran, where Hillary was injured and a former SEAL team 6 member died (whose death was reported a SUICIDE btw). This tri

p is likely where Hillary developed her blood clot, necessity for speech rehabilitation, and concussion (not a stomach flu as the reports said). Anyway, I digress from my original point...

Recently, two people have died from Tesla's self driving cars. One of them (you guessed it) was a former SEAL Team 6 member Joshua D. Brown.

<http://www.military.com/daily-news/2016/07/03/former-seal-death-tesla-autopilot-triggers-probe.html>

>He was killed May 7 in Williston, Florida, when his car's cameras failed to distinguish the white side of a turning tractor-trailer from a brightly lit sky and didn't automatically activate the brakes, according to statements by the government and the automaker. Brown didn't take control and brake, either.

>Brown's family said in a statement that it wanted to help the government and Tesla so that "information learned from this tragedy will trigger further innovation which enhances the safety of everyone on the roadways." Brown served more than 11 years in the Navy, including as a master explosive ordnance disposal technician with Naval Special Warfare Development Group, commonly known as SEAL Team 6, according to his biography on the website of the company he founded, Nexu Innovations.

>"While deployed numerous times overseas, in both warfighting and non-combatant roles with SOF (Special Operations Forces) units, it was my pleasure to work with the most intelligent, innovative, and independent patriots I have ever met," it states.

Where the \$6 Billion dollars she "lost" from the State Department went. All of these matter. Some of the organizations are old, but we might be able to find info they haven't sanitized.

Child soldiers approved by Obama and Clinton

>Rebel forces in southern Sudan began using child soldiers long before seceding from Sudan in 2011. The United States, on the other hand, passed a law in 2008 that banned providing military assistance to nations that use child soldiers. The law was called the Child Soldiers Prevention Act, or CSPA, but after South Sudan's independence, the White House issued annual waivers that kept aid flowing to the world's newest nation despite its use of child soldiers. President Obama stated in 2012 that the waiver that year was in the national interest of the United States.

>Hillary Clinton, who was secretary of state when the first waivers were issued, was apparently never asked to comment on them, and the State Department never provided any explanations about its role. Clinton had spent years vowing to defend the rights of children worldwide in 2012, she railed against modern-day slavery in the introduction to a State Department report on human trafficking that took aim at the unlawful recruitment or use of children by armed forces. Yet she does not appear to have publicly explained her role in allowing South Sudan and other countries to receive military support despite using children as combatants. In fact, the State Department played a central role in issuing the controversial waivers, according to two sources, including a former State Department official.

just reading an article about the quote:

>The World Assembly of Muslim Youth (WAMY) is specifically named as having connections to terror funding and support for a number of worldwide terror groups.

>As Breitbart News has reported exclusively, the Abedin family business is an academic group called the Institute for Muslim Minority Affairs that is based in the London offices of the World Assembly of Muslim Youth and its parent organization, the Muslim World League.

>Huma Abedin, born in the United States but raised in Saudi Arabia, has worked closely with Hillary Clinton since 1996 and is now Hillary Clinton's closest aide and the vice-chairwoman of her presidential campaign. Abedin, who is married to disgraced former Congressman Anthony Weiner, is also at the heart of the Clinton email scandal.

>On the national level, in 1996 Lawal was appointed by the Secretary of Commerce to a position on the United States Council on the Business Development Committee of the United States-South Africa Binational Commission. Lawal told Forbes he was surprised by the appointment. I asked [the secretary], what is a small businessman out of Texas doing on this big commission. The reply was, We know you're from Africa. You must have an inherent interest in the continent and its well-being. President Bill Clinton thought so too and appointed Lawal a member of the United States Trade Advisory Committee on Africa. In this role Lawal helped to develop trade policies in Africa a subject that he knows first hand.

It seems this Lawal had connections with the Clintons going back 20 years.

Saudi Arabia funding the Hillary presidentials :

>On Sunday a report appeared on the Petra News Agency website that included comments from Saudi Deputy Crown Prince Mohammed bin Salman. The comments included a

claim that Riyadh has provided 20 percent of the total funding to the prospective Democratic candidate's campaign.

>The report did not remain on the website for long, although the Washington-based Institute for Gulf Affairs later re-published an Arabic version of it, which quoted Prince Mohammed as having said Saudi Arabia had provided with full enthusiasm an undisclosed amount of money to Clinton.

DONMEH - root of the Saud

>With reformist governments in Turkey and Egypt much more willing to look into the background of those who have split the Islamic world, Ataturk in Turkey and Mubarak in Egypt, the Saudis are likely very much aware that it is only a matter of time before their links, both modern and historical, to Israel will be fully exposed. It makes sense that the Saudis have been successful in engineering a dubious plot involving Iranian government agents trying to assassinate the Saudi ambassador to Washington in an unnamed Washington, DC restaurant. The Iraqi intelligence report could have been referring to the Zionists and Donmeh when it stated, it strives to . . . [the] killing of Muslims, destructing, and promoting the turm oil. In fact, the Iraqi intelligence report was referring to the Wahhabis.

>With new freedom in Turkey and Egypt to examine their pasts, there is more reason for Israel and its supporters, as well as the Saudis, to suppress the true his

LIBYA

She funded and armed the rebels who were basically slaughtering the population and knew about it.

>In a March 27, 2011, email, Clinton's trusted advisor, Sidney Blumenthal, informed her that a Libyan rebel commander told him that, "his troops continue to summarily execute all foreign mercenaries captured in the fighting." Since no trials were reported conducted to determine who is a "foreign mercenary," it is alleged that people were labeled as mercenaries by the color of their skin.

>Emails reveal that Secretary Clinton was explicitly told that Libyan rebel forces were carrying out racially based massacres of black Africans. During one documented atrocity, the rebels forced 30,000 residents of Tawergha, who were descendants of black slaves, to flee the town. Those captured were subjected to abuse, including beatings, rape, and torture leading to death, according to a 2011 report from Human Rights Watch.

>The United States is moving to provide Libyan rebels with \$25 million in medical supplies, radios and other aid that would not include weapons, Secretary of State Hillary Clinton said on Wednesday.

>Hillary Clinton has paved the way for the United States to arm the Libyan rebels by declaring that the recent UN security council resolution relaxed an arms embargo on the country.

RELATED TO QATAR:

Hillary received large donations from Qatar which funded the Muslim Brotherhood take over of Egypt and Libya. Hillary appears to have blocked a peaceful solution to Qaddafi wanting him to die. She was sweet talked by a clear global economic operator who happened to take control of the Libyan rebellion Mahmoud Jibril. Her advice on this matter came from Huma and another diplomat who has been immersed in the Middle East for decades specifically Egypt. Qatar donations to the CF motivated her to support the coup

QATAR, LAGARDERE, BATACLAN - LONDON MISSING LINK? ALSO BERGDAHL
TL;DR:
Lagardere makes explosive munitions.
Qatar is the largest shareholder in it.
Lagardere has close ties with Teneo and the Tiger group of shell companies.

Qatar has given to the CF. Huma has ties with the Muslim Brotherhood which Qatar supports. But, other than that I'm not sure. Also this:
>The wife of the former British prime minister, Tony Blair, exchanged 19 emails with Clinton over four months in 2009 as she sought to arrange the meeting on behalf of Sheikha Mozah bint Nasser al-Missned, an informal but influential ambassador for Qatar on the world stage. After initially suggesting they shared a philanthropic interest in disability charities, Blair added: I am sure the conversation would not be confined to these issues but would be about the US/Qatar relationship generally.

CF/Hillary --> Qatar --> Lagardere --> Bataclan

This was the best hint he gave us:

> find everyone involved in the State Department who has recently made a donation or speech in relation to the CF. Public figures are not to meet with foreign

officials in secret - so who did?

FIFA and QATAR donated money to the CF around the time they were bidding to host the World Cup which will take place in 2022.

Bill wanted the US to host it, money ended up going to the CF, Qatar won the bid. I found this connection almost a week ago but because it wasn't anything corrupt in comparison to other leads, most of us deemed it either a dead end or only worth looking into when other leads dried up.

Qatar is the biggest shareholder in Lagardere, which bought the Bataclan weeks before Paris. Qatar officials met with the French government for the first time just days after the shootings to talk about security. Some other anons found that Lagardere is also in the munitions business.

<http://www.lagardere.com/group/worldwide-presence/companies--brands-293.html&soc=1445>

Confirmed that Lagardere, which Qatar has at least a 10% interest in making it the largest single holder, bought an Israeli intelligence front a mere two months before it was attacked.

Have we already tied Lagerdere to Airbus Group NV (formerly EADS) which produces amongst other things UAVs Drones and other military applications, for the US and others. Their financial performance spiked massively in the last few years after being part of big new contracts with the US Dept of Defense. This company has had its fair share of scandals, including bribery involving Saudi Arabia.

Lagerdere is a major shareholder and played a major role in preventing a merger. It seems EADS/Airbus value skyrocketed after Lagerderes intervention. And, in 2015 they became a Societas Europaea (public EU Company).

What is important is that A. Qatar is the largest single shareholder, B. they bought the Bataclan from its Jewish owners two months before it was attacked, and C. Tony Blair's wife set up meetings between Hillary who met with the Queen equivalent of Qatar according to Wikileaks emails.

- Under the Swiss investigation against FIFA, it turned out that the Clinton Foundation has received an amount between \$50,001 and \$100,000 from FIFA

MUSLIM BROTHERHOOD

Months of tension between Qatar and Saudi Arabia over Qatar's continued support for the Muslim Brotherhood came to a head last week. It has been reported that a Saudi official threatened to close Qatar's border with Saudi Arabia if the emirate does not cease supporting the Muslim Brotherhood.

<http://www.clarionproject.org/news/saudis-threatens-qatar-over-muslim-brotherhood-support>

<http://www.thenational.ae/world/qatar/inside-doha-at-the-heart-of-a-gcc-dispute>
With Qatar looking increasingly isolated and reports of possible sanctions from its GCC neighbours, many are wondering why Qatar continues to host key figures from the Muslim Brotherhood, which has an ideology fundamentally at odds with Gulf monarchies

Qatar's foreign policy has also been at odds with other GCC members. In the aftermath of the 2011 Arab Spring uprisings, Doha supported Islamist organisations and Muslim Brotherhood-led administrations, including that of Egypt's former president Mohammed Morsi.

If we can directly link Qatar to Clinton (which I think has already been done?) that ought to put a lot of dirt on the Foundation.

Direct links to the Muslim Brotherhood.

Muslim Brotherhood official, former Clinton Foundation employee arrested in Cairo

>A senior Muslim Brotherhood official who, until recently, had been employed by the William J. Clinton Foundation was arrested in Cairo on Tuesday and charged with inciting violence.

>Gehad el-Haddad served as one of the Muslim Brotherhood's top communications officials until Egyptian security forces seized him as part of a wider crackdown on officials loyal to ousted former President Mohamed Morsi.

>Before emerging as a top Brotherhood official and adviser to Morsi, el-Haddad served for five years as a top official at the Clinton Foundation, a nonprofit group founded by former President Bill Clinton.

>El-Haddad gained a reputation for pushing the Muslim Brotherhood's Islamist agenda in the foreign press, where he was often quoted defending the Brotherhood's crackdown on civil liberties in Egypt.

>He was raised in a family of prominent Brotherhood supporters and became the public face of the Islamist organization soon after leaving his post at the Clinton Foundation.

>As you know I have good links to the Qataris. Sheikha Mosah's son is the 31/32 year old Crown Prince and she is keen that he starts to build a wider international profile. He has been appointed head of the Qatar National Food Security Programme which is designed to deal with Qatar's food security issues its a \$30 billion programme. He is aware that food security is an issue you are majoring on and would love to meet with you in person to discuss this and to explore potential partnership areas between US and Qatar including possible participation in the US/World Bank Food Security Fund. He is also keen to talk more generally about US/Qatari cooperation and even suggested they could help out with the Oil spill problem. There is apparently a Arab Food Security Summit in October 2010 and he would like to discuss US participation in that too. IS a meeting possible Or maybe we could set up an initial phone call. Can you let me know if this appeals to you at all? Cherie Blair

BOWE BERGDAHL - See also QATAR, information overlaps (aka, sorry for the reposts)

Relevant pastebin: <http://pastebin.com/YFHxAS7w>

So apparently there's really important information that needs to be dug up regarding BOWE BERGDAHL and bad stuff that happened in India and Pakistan which is so mehow related to him.

>Look at the timeline for Bergdahl, and for everything that happened in Afghanistan, Pakistan, and India during that timeline.

>Look up just bad things in India and Pakistan that would likely cause them to retaliate if things got bad.

Isn't he the guy that got kidnapped? Also, ever since creating one of the first threads, life has bombarded me with so much, I haven't had time to look at much of anything.

For more information on Benghazi, please read this:

<http://www.lrb.co.uk/v38/n01/seymour-m-hersh/military-to-military>

>In July 2013, the Joint Chiefs found a more direct way of demonstrating to Assad how serious they were about helping him. By then the CIA-sponsored secret flow of arms from Libya to the Syrian opposition, via Turkey, had been underway for more than a year (it started sometime after Gaddafi's death on 20 October 2011).[*] The operation was largely run out of a covert CIA annex in Benghazi, with State Department acquiescence. On 11 September 2012 the US ambassador to Libya, Christopher Stevens, was killed during an anti-American demonstration that led to the burning down of the US consulate in Benghazi; reporters for the Washington Post found copies of the ambassador's schedule in the building's ruins. It showed that on 10 September Stevens had met with the chief of the CIA's annex operation. The next day, shortly before he died, he met a representative from Al-Marfa Shipping and Maritime Services, a Tripoli-based company which, the JCS adviser said, was known by the Joint Staff to be handling the weapons shipments.

Clinton Connections

>When Republican members of Congress learned in November 2011 that the Obama administration was contemplating a swap of Taliban terrorists for captured Army Sgt. Bo

we Bergdahl they wrote to then-Secretary of State Hillary Clinton of their fears

>Mrs. Clinton wrote back that they had nothing to worry about. The White House would follow the law requiring a 30-day heads-up.

> I want to make clear that any transfer from Guantanamo will be undertaken after consultation with Congress and pursuant to all legal requirements for transfers, including those spelled out in the FY2012 [National] Defense Authorization Act, she said of the law signed by President Obama that December requiring that he notify Congress ahead of time.

>Fewer than three years later, Mr. Obama freed five hard-line Taliban commanders from the prison at Guantanamo Bay. As the five left Cuba, U.S. special forces troops rendezvoused with the Taliban on May 31, 2014, at a remote location in Afghanistan to pick up Sgt. Bergdahl. The Army would later charge him with desertion.

>The White House neither consulted with Congress nor gave proper notification for the illegal transfer.

>The Clinton letter remains secret to this day. The committee could only disclose the sentence that ended up in a nonclassified letter from then-Sen. Saxby Chambliss, who led the intelligence committee and is one of those who sounded the alarm on any swap back in 2011.

<http://archive.is/I6auY>

>Noori and four other prisoners who were known as the Taliban five were released from Guantanamo Bay and flown by U.S. military C-17 aircraft into Qatar on June 1, 2014 where they were set free. Their release was in exchange for that of U.S. soldier Bowe Bergdahl who had been captured in Afghanistan five years earlier. The exchange was brokered by the Emir of Qatar. Noori, and the others, were required to stay in Qatar for 12 months as a condition of their release

>http://www.digplanet.com/wiki/Norullah_Noori

>Six soldiers died on missions seeking intelligence on the whereabouts of or actively intending to rescue Bergdahl: Private First Class Morris Walker, Staff Sergeant Clayton Bowen, Staff Sergeant Kurt Curtiss, Second Lieutenant Darryn Andrews, Private First Class Matthew Martinek, and Staff Sergeant Michael Murphrey.

>Due to resources being diverted to find Bergdahl, the closing of Combat Outpost Keating was delayed, which may have led to eight American soldiers being killed on October 3, 2009, after 300 Taliban insurgents overran the base.

Vet who served with Bergdahl :

>Specialist Cody Full had another reason, saying that her treatment of the Benghazi victims families demonstrated her duplicity.

> The reason why I'm voting for Donald Trump is because Hillary Clinton came out and told the mothers and widows of the Benghazi victims that their sons were killed over a video.

>Well, when those same mothers and widows came out and said that's what Hillary told them, she proceeded to call them a liar.

>If a person is willing to call a Gold Star mother or a widow a liar, there is no lie she will not tell the American public.

>Full also said that electing Clinton would bring more of the same kind of bad deals, as opposed to the Trump Administration, who I think values veterans and the VA more than Hillary would.

> Abdul Haq Wasiq was deputy chief of the Taliban regime's intelligence service.

> Norullah Noori served as the governor of Balkh and Laghman provinces in the Taliban regime. He was a senior Taliban military commander in Mazar-e-Sharif.

>Mohammad Fazl served as Chief of Staff of the Taliban Army.

> Khairullah Khairkhwa was the interior minister under the Taliban. He helped found the Taliban in 1994. He was directly associated with Osama Bin Laden and Taliban Supreme Commander Mullah Muhammad Omar. Likely involved with militant training, he was also "a narcotics trafficker and probably used his position and influences to become one of the major opium drug lords in Western Afghanistan", and probably used profits from drugs to promote Taliban interests.

>Mohammad Nabi Omari was the Taliban's chief of communications. Nabi had "operational ties to Anti-Coalition Militia (ACM) groups including al-Qaida, the Taliban, the Haqqani Network, and the Hezb-e-Islami Gulbuddin". He also "maintained weapons caches and facilitated the smuggling of fighters and weapons".

Bergdahl was a big deal

>At the time Rolling Stone reporter Michael Hastings was killed under suspicious circumstances, he had recently written a huge exposé on Bowe Bergdahl, revealing that he had deserted his unit and actively sought out the Taliban. Hastings had also revealed Bergdahl's anti-American sentiments, publishing the emails to his father that so shocked America: I am ashamed to be an American The horror that is America is disgusting.

>After this (the expose), the Obama administration actively sought to keep the lid on Robert Bergdahl and Michael Hastings' reporting of Bowe Bergdahl, as secret FBI documents now reveal.

>A 22-page secret FBI report dated June 11, 2012, obtained by investigative reporter Jason Leopold, shows that both Hastings and former Afghanistan war veteran and co-writer Matt Farwell were under an intense FBI investigation in early 2012. The document is highly redacted; but it appears Hastings and Farwell were under direct FBI surveillance, including when they met with Bowe Bergdahl's parents in 2012.

>Keep in mind, at the time of Hastings' death, the FBI had denied they had ever investigated Hastings, despite Hastings sending out a frantic email hours before his death with the subject line: FBI Investigation, stating that he was being investigated. Also included in the body of the email was a reference to a big story he was working on. This big story turned out not to be about Bergdahl, but an investigation of then-terrorism czar now CIA head John Brennan, per Hastings' widow. After Hastings' death, all of his notes and documents on Brennan were suppressed and this big story never appeared in Rolling Stone.

Qatar's role in the Obama administration's negotiations to swap Sgt. Bowe Bergdahl in May 2014 for five senior Taliban commanders is well known, and President Obama spoke with both Qatar's Emir and Father Emir in the week before Bergdahl's release.

58 What is not so well known is that a private \$10 million cash ransom deal was in the works through other channels before that swap was implemented, according to BuzzFeed News. Aram Roston, although it may not have involved the Qatari or American governments. Roston also reported that the Taliban previously demanded \$25 million and \$15 million ransoms earlier in the process, along with the request for a much larger prisoner release involving fifty individuals.⁵⁹ Rep. Duncan Hunter (R, CA) wrote a letter to the Pentagon later that year raising concerns that some money in Bergdahl's case may still have been disbursed: I recognize the reluctance to describe a payment as ransom, but regardless of how the transaction is described, it has been brought to my attention that a payment was made by an Afghan intermediary who disappeared with the money and failed to facilitate Bergdahl's release, adding that the payment was made in January-February 2014, according to sources, through Joint Special Operations Command. 60

>Just days after U.S. Army Private First Class Bowe Bergdahl went missing from his base in Afghanistan in 2009, the men in his platoon were ordered to sign papers vowing to never discuss what he did or their efforts to track him down. Many of those men were already exhausted, searching endlessly in the hot dust and misery of the Afghan desert for a guy they knew had chosen to walk away. More than six months later, long after Army officials learned Bergdahl's captors had smuggled him into Pakistan, commanders still had a sweeping gag order on thousands of troops in the battlefield. Some were told they could not fly home until they signed the nondisclosure agreements.

>And even now, six years later, as America's most notorious prisoner of war faces an August court-martial that could put him in prison for the rest of his life, the Army is still hiding the truth, refusing to let the public see critical documents in the case.

>The Pentagon finished its formal investigation, known as an Army Regulation 15-6, more than a year ago. That report, led by a two-star general and a team of 22 investigators, includes interviews with roughly 57 people, including Bergdahl. In 371 pages of sworn testimony, he told General Kenneth Dahl what he did, why he did it and what he endured during his five years as a hostage of the militant Haqqani network. The 15-6 is not classified, and at a September preliminary hearing on the case, Dahl testified that he does not oppose its release. But the Army won't budge.

>Featured prominently in the talks was the whereabouts and eventual release of U.S. Army Sgt. Bowe Bergdahl of Hailey, Idaho, who was captured more than two years ago in eastern Afghanistan, according to a senior Western diplomat in the region and a childhood friend of the Taliban negotiator, Tayyab Aga.

>The U.S. negotiators asked Aga what could be done to gain Bergdahl's release. The discussion did not get into specifics but Aga discussed the release of Afghan prisoners at Guantanamo Bay, Cuba and in Afghanistan at Bagram Air Field.

>Published reports about the clandestine meetings ended the talks abruptly, and sent Aga into hiding.

>At the time of the leak, Washington had already offered small concessions as "confidence-building measures," a former senior U.S. official said. They were aimed at developing a rapport and moving talks forward, said a current U.S. official on condition he not be identified because of the sensitivity of the topic.

>A member of that High Peace Council, who asked not to be identified by name so he could talk candidly, told the AP that the leaking of the talks reveals the le

vel of mistrust and the lack of coordination among the key players in any eventual peace deal.

>The United States, for example, has also held secret talks [who?] with Ibrahim Haqqani, the brother of Jalaluddin Haqqani, who heads the notorious Haqqani network considered by U.S. and NATO troops in Afghanistan to be their biggest threat

>A month ago, U.S. Senate Foreign Relations Committee Chairman Sen. John Kerry and Pakistan's Army chief of staff Gen. Ashfaq Pervez Kayani met for a marathon eight hours in a Gulf country. Peace negotiations with Afghanistan's insurgents featured prominently, said both Pakistani and U.S. officials who would not be identified by name because of the secret nature of the meeting.

EGYPT (from Reddit)

You guys need to correlate the political relations of the US and Egypt in regards to the Muslim Brotherhood banishment and break down in political relations between the two countries.

Egypt expelled the Muslim Brotherhood. The US condemned them and left them on their own to deal with an insurgency.

To this day the US continues a propaganda campaign against Egypt calling it an illegitimate government.

Back track a few years and you find
https://en.wikipedia.org/wiki/Safwat_Hegazi

In 2012, Safwat launched MB candidate Mohamed Morsi's campaign. In his speech to a crowd of hundreds of thousands of Egyptians, Safwat emphasized that Morsi will lead Egypt's campaign to restore the "United States of the Arabs" or "Caliphate" with Jerusalem as its capital, and urged listeners to "awake Jews from their slumber" and chanted that they would march as martyrs toward Jerusalem.[7] During the June 2013 protests against Morsi, Hegazy threatened opposition protesters saying whoever sprays Morsi with water will be sprayed with blood. [8]

This guy is the guy who facilitated US NGO's operating in Egypt in order to create the unrest that toppled Mubarak

He's also the guy who facilitated Morsi's rise to power.

After Khairat El-Shater was disqualified from the 2012 presidential election, Morsi, who was initially nominated as a backup candidate, emerged as the new Muslim Brotherhood candidate.[35] His campaign was supported by well-known Egyptian cleric Safwat Hegazi at a rally in El-Mahalla El-Kubra,[36] the epicentre of Egyptian worker protests.[37]

So, what we have here is a guy who facilitated NGO's, created a coup, then installed a MB leader.

Then Egypt went into Caliphate mode and started creating law based upon Sharia. They brought out religious police that were above the law.

As president, Morsi issued a temporary constitutional declaration in late November

er that in effect granted him unlimited powers and the power to legislate without judicial oversight or review of his acts. The temporary constitutional declaration was called for a referendum, an act that his opponents called an "Islamist coup"

Sorry, I apparently repeated myself in there. I'm leaving it for now.

Edit

Before you say that this has nothing to do with the Clinton Foundation remember her links to Soros and his affiliation with NGO's in countries like Ukraine.

directing most of these connections Thoughts?

Elaborate please

Ah, heck. I'll just assume you want to know what her job title is?

<https://en.wikipedia.org/wiki/Consigliere>

a consigliere is an advisor or counselor to the boss, with the additional responsibility of representing the boss in important meetings both within the boss's crime family and with other crime families. The consigliere is a close, trusted friend and confidant, the mob's version of an elder statesman. In some depictions, he is devoid of ambition and dispenses disinterested advice. This passive image of the consigliere does not correspond with what little is known of real-life consiglieri, however. By the very nature of the job, a consigliere is one of the few in the family who can argue with the boss, and is often tasked with challenging the boss when needed, to ensure subsequent plans are foolproof.[1]

A real-life Mafia consigliere is generally the number three person in a crime family, after the boss and underboss in most cases.[2] The boss, underboss, and consigliere constitute a three-man ruling panel, or "Administration."

This is completely unrelated to what she got paid for, hilariously.

She was never physically there to say anything excluding a later visit, the ~\$450k were probably campaign contributions or insidious cover-ups.

>As President, she would aim to sign into law a program to provide subsidies from U.S. taxpayers to Monsanto and other biotech firms, to assist their PR and lobbying organizations to eliminate what she says is a big gap between the facts and what the perceptions are concerning genetically modified seeds and other GMOs. In other words: she ignores the evidence that started to be published in scientific journals in 2012 showing that Monsanto and other GMO firms were selectively publishing studies that alleged to show their products to be safe, while selectively blocking publication of studies that on the basis of better methodology showed them to be unsafe. She wants U.S. taxpayers to assist GMO firms in their propaganda that is based on their own flawed published studies, financed by the GMO industry, and that ignores the studies that they refuse to have published.

This is related to CHAI. Their relationship supposedly ended in 2014, their financial reports kinda stopped.

>The ELMA Foundation funded the Clinton Health Access Initiative (CHAI) from 2011 through 2013 to provide technical support to the Government of Rwanda to create and fundraise for a seven year plan to develop a sustainable national health education system that graduates the volume of well-trained health workers needed to support a high performing health system.

Logothetis, Libragroup website being difficult suddenly, but from the cache they have these programs going on.

Social Responsibility initiatives comprise:

Libra Internship Programme: Internships for more than 100 students each year enabling bright young people to experience the world through the eyes of an international business.

Entrepreneurship Awards: Currently focussed on Greece and the United States, these awards seek to stimulate entrepreneurial spirit through the provision of practical support and start-up funding.

Concordia: The Libra Group is the founding sponsor of this non-profit organization that seeks to promote public-private partnerships.

The Seleni Institute: A New York-based organisation that addresses women's reproductive and maternal mental health.

Libra Mentorship Programme: A series of year-long mentorships provided principally to young people of colour, first generation college students, and students who face socio-economic challenges.

The Grace Foundation: A charity support programme representing our hotel businesses, including match-funding between the Libra Group and hotel guests.

Libra Fellowships: Selective funding of students in further and higher education with the broad objective of creating opportunity for tomorrow's leaders.

My Brother's Keeper Alliance (MBKA): Libra Group is a founding sponsor of this non-profit organization launched by President Barack Obama and aimed at eliminating opportunity and achievement gaps for boys and young men of colour.

Youth Empowerment Conference: An annual conference targeting young people subject to achievement and opportunity gaps. Comprising a series of workshops designed to prepare young people for the workplace.

Corporate Giving: At its discretion the Libra Group chooses to support a variety of causes that fall outside the scope of the above primary initiatives.

I took over our family shipping business at 19. We went from a fleet of two to 70. Then we sold the ships, took all the great people from our shipping business, and sent them around the world to start companies. We ended up with a ship's captain running a \$200 million real estate company and a Russian fruit seller who runs six biogas plants in Latvia. It was asking inappropriate people to do appropriate tasks. I came to it through my grandfather, who used to say, "You can do the impossible. It is miracles that take a little longer."

COPRESIDA - from Spainbro

Apparently Copresida didn't exactly donate 10-25 million to the CF, but instead had a collaborative partnership of some kind in which Copresida bought anti-HIV pharmaceuticals from the CF. So the CF apparently acted as an intermediate providing the anti-HIV drugs for the Dominican Republic, buying them internationally and then re-selling them to Copresida.

<https://i.sli.mg/Eef0vs.png>

Also cited along the CF is Unitaid, which I already saw mentioned around (also CHAI, the Clinton Health Access Initiative). I don't know if there could be anything shady in there, but it looks like a good business plan for the CF: buy drugs from organizations/partners you own/half own and then sell them to foreign governments to help fight AIDS in their poor countries (like Dominican Republic or Haiti), while at the same time making a profit for you and your friends. Not that I found anything illegal, but it's profitable.

TEVA PHARMACEUTICAL

<http://www.fool.com/investing/general/2015/08/24/george-soros-fund-bought-teva-pharmaceutical-indus.aspx>

So it wasn't entirely surprising when the fund began to dump its former largest position, Teva Pharmaceutical Industries Ltd. (NYSE:TEVA), last year as the generic and specialty drugmaker was staring down an imminent threat from the entry of generic Copaxone, the multiple sclerosis drug that tends to make up around 20% of the company's quarterly sales.

Living up to its reputation, however, Soros Fund rebought about \$25 million or 423,308 shares of Teva in the second quarter

>Copaxone contains amino acids and is used to prevent the relapse of multiple sclerosis (MS)

>George Soros was funding Teva Ph. --> Hillary has MS confirmed? If my memory is good, didn't an FBI agent / insider predict it?

> Why did he sell every share then rebought a portion later? Change of plan? (((acceleration of plan?)))

Also : Teva was reportedly pursuing a \$40 billion buyout of generic drug rival Mylan earlier this year to help offset any revenue losses from Copaxone

And then Teva surprised most of us with its somewhat out-of-the-blue deal for Allergan's generic drug unit that was resoundingly cheered by the market. (Pic related)

>Conclusion : this is fishy

<http://fortune.com/2016/03/16/teva-allergan-deal-delayed/>

>Still no deal with the \$40 billion buyout. It is expected for June 2016

>[alarm?] looks like the \$40 has never happened because every link I find is a 'Teva planning to buy/Teva buys in June.. So what made Teva's value go so high in this graph?

GMOs

For the GMO link check out Ann Veneman, she pushed big deals while working for UNICEF.

https://en.m.wikipedia.org/wiki/Ann_Veneman

She was a Bush pet but I think it is linked, current UNICEF exec is outspoken Clinton shill.

What would really be interesting is if I could outright link UN parties to traffic from refugee camps. Anyway, it is all intertwined. Republicans esp under Bush are as involved as Democrats.

Ann Veneman:

http://www.unicef.org/about/who/index_53479.html

>As Executive Director, Veneman travelled to more than 60 countries to review the plight of children and UNICEF's work to assist them. She gained first-hand knowledge of how children's lives were being saved and improved as a result of programmes and assistance provided by UNICEF and its partners. Veneman witnessed the devastation caused by natural disasters, conflict, disease and exploitation. These experiences redoubled her sense of hope, passion and urgency in advocating for children when administering programmes, meeting with government leaders, international agencies and strategic partners, or speaking at conferences such as the World Economic Forum and Clinton Global Initiative. Veneman co-chaired Mothers Day Every Day, a campaign launched by CARE and the White Ribbon Alliance supporting access to basic health care and maternal services for women around the world.

ENERGY PIONEER SOLUTIONS

><http://www.zerohedge.com/news/2016-05-13/did-clinton-foundation-give-2-million-bills-energizer-mistress>

>At Bill Clinton's behest, a \$2 mil. commitment for Energy Pioneer Solutions was placed on the agenda during a Sept. 2010 conference of the Clinton Global Initiative...

>At the heart of the issue is the foundation sent funding to a company that had significant ties to the Clinton family according to the WSJ. The IRS website states that any 501(c)(3) should not be operated for the benefit of private interests.

>From WSJ: "Energy Pioneer Solutions was founded in 2009 by Scott Kleeb, a Democrat who twice ran for Congress from Nebraska. An internal document from that year showed it as owned 29% by Mr. Kleeb; 29% by Jane Eckert, the owner of an art g

allery in Pine Plains, N.Y.; and 29% by Julie Tauber McMahon of Chappaqua, N.Y., a close friend of Mr. Clinton, who also lives in Chappaqua.

>Owning 5% each were Democratic National Committee treasurer Andrew Tobias and Mark Weiner, a supplier to political campaigns and former Rhode Island Democratic chairman, both longtime friends of the Clintons.

>The CGI holds an annual conference at which it announces monetary commitments from corporations, individuals or nonprofit organizations to address global challenges commitments on which it has acted in a matchmaking role. Typically, the commitments go to charities and nongovernmental organizations. The commitment to Energy Pioneer Solutions was atypical because it originated from a private individual who was making a personal financial investment in a for-profit company."

>Not only did the Clinton's oversee \$2 mil being sent to friends at Energy Pioneer Solutions via the foundation, according to the WSJ, Bill also personally endorsed the company to then-Energy Secretary Steven Chu for a federal grant, ultimately leading to a grant in the amount of \$812,000. Of course, Chu now says he doesn't remember the conversation.

Long rapport with the Clintons.

<http://www.childrenshealthfund.org/category/tags/hillary-rodham-clinton>

He's cofounder of the children's health fund. And has ties to the Clinton Global Initiative

In May 2009, Redlener was appointed to the National Commission on Children and Disasters. In 2010, in part due to his research on the health effects of the Deepwater Horizon Oil, the National Commission on the BP Deepwater Horizon Oil Spill and Offshore Oil Drilling appointed Redlener to serve as the Commission's Special Consultant on Public Health.

On November 15, 2012, New York State Governor Andrew Cuomo announced that he had appointed Redlener co-chair of the NYS Ready Commission, which was tasked with finding ways to ensure critical systems and services are prepared for future natural disasters and other emergencies.

PERSON OF INTEREST - CHARLES ORTEL

Here is a probe by a Wall Street Financial Advisor into the Clinton Foundation. He has found much illegal activity: <http://charlesortel.com/>

He could be very valuable <https://twitter.com/CharlesOrtel>

<http://wallstreetonparade.com/2016/05/did-the-clinton-foundation-have-a-storefront-accountant-like-madoff/>

There are massive discrepancies between what some of the major donors say they gave to the Clinton Foundation to do, and what the Clinton Foundation said what they got from the donors and what they did with it.

Last year, the Clinton Foundation was forced to issue corrected tax filings for several years to correct donation errors. But Ortel said many of the discrepancies remain.

Ortel said his reports in the coming months would also provide evidence that the foundation is not complying with state laws on fundraising, financial disclosure, and audits.

I'm against charity fraud. I think people in both parties are against charity fraud, and this is a charity fraud, he said.

Ortel said he hoped the reports would encourage investigative journalists to follow up on his findings.

> The Clinton Foundation finds itself under new scrutiny, this time pertaining to its financial disclosures. Wall Street analyst Charles Ortel is uploading a series of reports showing what he alleges is fraudulent activities by the Foundation.

Someone please investigate this lead.

I'm working on <http://charlesortel.com/>.

He's already been tracking Hillary down, and he's pretty far down the rabbit hole.

>State, federal, and foreign laws bar public charities from being run for private gain in interstate commerce which means, by using the mail, telephones or the internet. The Clinton Foundation's complex operations (it is not just one entity but a web of them) do not comply with this requirement. Nor does the Clinton Foundation ever seem to have submitted its financial records to an independent, properly certified audit by a qualified accounting firm.

The Clinton Foundation, directed by certain individuals and together with numerous affiliates, has been part of an international charity fraud network whose entire cumulative scale (counting inflows and outflows) approaches and may even exceed \$100 billion, measured from 1997 forward.

As many are starting to appreciate, Clinton Foundation documents omit crucial facts, include false and materially misleading statements, and exclude legally required audits of financial statements for each year of operation, that must be prepared on a consistent basis

In short, close review of the Clinton Foundation record shows clearly that it and related entities have operated illegally since inception to serve private interests under the cloak of charitable intention.

The Clinton Foundation steadfastly resists making proper accounting for its inflows, so it is difficult to discern who actually provides support without studying reams of material issued by donors that is available in the public domain. Meanwhile there is little, verifiable evidence that all the initiatives and projects discussed in

Clinton Foundation reports actually have served validly authorized and truly charitable purposes, as these are strictly defined in state, federal, and foreign laws.

I can't find any evidence of what he's currently working, but I imagine that's because he's gearing up for his book release and writing articles regarding current events. My guess is that over the last few years his research has been focused solely on the shady dealings of the Clintons. On the WND store website there's a nice promo video for the book:

What stuck out the most to me were things mentioned in the description:

>"Jerome Corsi presents the detailed research and expert testimony proving beyond a shadow of a doubt that the Clinton Foundation is "a vast, criminal conspiracy," "

>"several "shell corporations" and "pass-through" bank accounts Bill Clinton has established in secret to hide what amount to kickbacks from Clinton Foundation donors and sponsors."

>"In Partners in Crime, Corsi provides readers the names and addresses of state

attorney generals throughout the country, explaining that any one state in the Union can get a temporary restraining order from a state judge to place the Clinton Foundation in receivership and launch law enforcement examinations of Clinton Family philanthropic fraud accomplished on a global scale."

ANOTHER PASTEBIN: <http://pastebin.com/F6pUwUPT>

Raymond "Shrimp Boy" Chow (who kidnapped Clinton fundraiser Norman Hsu) was one of the 19 men arrested in the FBI dragnet which caught Leland Yee. So there is certainly a loose association between these Chinese underworld figures and Clinton fundraising activities.

Major player in china has been Ng Lap, billionaire real estate developer and owner of Fortuna Hotel through which he has sourced girls for high end Rub and Tug from:

China, Korea, Singapore, Malaysia, Vietnam, Indonesia, Burma, Europe and Russia. [this is apparently available in Fortuna Literature]

A FBI investigation/complaint implicates him and his assistant Jeff Yin in traveling with 4.5 million dollars worth of bribe money [not sure of intended money target]

FBI complaint filed Jun '15.

Here's where it gets interesting: A second FBI complaint was filed "Conspiracy to Bribe a UN Official,"

This official happens to be the late John Ash
President: UN General Assembly: Antigua Batuda Representative who was funneling money into "Lucrative Antigua Investments"...

He lobbied for the need for a multibillion Dollar UN Sponsored Conference center in Macau, China [Same city as Fortuna Hotel from above connection to Ng Lap]

This conference center was to be instrumental in developing a "global Business Incubator" funded through a "Foundation" headed by ash and Ng Lap.

Also connected and caught in the dragnet that flagges Ashe and Lap were codefendants:

Shiwe Yan, Heidi Hong Piao, and Francis Lorenzo [permanent UN representative or Dominican Republic?] more to come

A strange article about large Chinatown donations to Clinton, from people who cannot be found, or do not exist:

>The Times examined the cases of more than 150 donors who provided checks to Clinton after fundraising events geared to the Chinese community. One-third of those donors could not be found using property, telephone or business records. Most have not registered to vote, according to public records.

>The tenement at 44 Henry St. was listed in Clinton's campaign reports as the home of Shu Fang Li, who reportedly gave \$1,000.

>In a recent visit, a man, apparently drunk, was asleep near the entrance to the neighboring beauty parlor, the Nice Hair Salon.

>A tenant living in the apartment listed as Li's address said through a translator that she had not heard of him, although she had lived there for the last 10 years.

>A man named Liang Zheng was listed as having contributed \$1,000. The address given was a large apartment building on East 194th Street in the Bronx, but no one by that name could be located there.

>Census figures for 2000 show the median family income for the area was less than \$21,000. About 45% of the population was living below the poverty line, more than double the city average.

<http://www.latimes.com/la-na-donors19oct19-story.html>

Something I did find interesting however is that the Chinese may be doing more than they seem to be. Xi Jinping stated in November 2015 that the FDI to Africa was 60 Billion USD. However, there is a lot of investment by Chinese companies as well. How much money they are investing, nobody but the Government knows.

Additionally, the Chinese are also sending Multi-Billion dollar loans to African Nations on top of the FDI. This is important because it will make them in debt and therefore economically dependent on China in the coming years, and with a potential resurgence of American investment in the region along with China's economic slowdown, it could cause economic competition between the two and dictate Clinton's approach to African Foreign Policy if she was to become president.

SHELDON SILVER

Sheldon Silver: Who i believe the pastebin is referring to as one of the corrupt commiefornia politicians aiding the China Connection:

https://en.wikipedia.org/wiki/Sheldon_Silver

A former top aide to Silver, chief counsel J. Michael Boxley, was accused of raping two legislative aides while he was working for the Speaker, and Boxley eventually pleaded guilty to sexual misconduct. Silver was sued for failing to investigate the accusations properly and for tolerating a culture of sexual harassment in the Assembly. In 2006, Silver and the Assembly leadership agreed to pay \$500,000 to settle the lawsuit.[25] Similar settlements in 2012 and 2015 resulted from multiple harassment charges against former Assemblyman Vito Lopez, and Silver was accused of not acting forcefully to prevent Lopez's behavior. Silver apologized for not reporting cases to the Assembly's Ethics Committee as required, and s

aid that since then he "put in place new policies to ensure these incidents are dealt with swiftly and transparently." [26][27]

Clinton Gave PRC 'False Certification' By Scott L. Wheeler

>Senior defense-intelligence analysts tell Insight that the Clinton administration falsely certified the People's Republic of China (PRC) as a nuclear nonproliferator despite overwhelming evidence to the contrary. Clinton officials went so far, sources say, as threatening to fire a senior defense analyst unless he changed his analysis, which was based on the overwhelming preponderance of all available intelligence sources that Beijing was proliferating nuclear technology and materials to rogue nations.

>This magazine has obtained a copy of an analysis written by Jonathan Fox, arms-control specialist for the Defense Special Weapons Agency, dated Oct. 23, 1997, which states: "This assessment concludes that the proposed arrangement presents real and substantial risk to the common defense and security of both the United States and allied countries." According to Pentagon sources, the analysis was ordered to determine whether President Bill Clinton could certify to the U.S. Congress that China was a nonproliferating nation, thus qualifying it for an exchange of nuclear technology with the United States - an agreement that the analysis refers to as "a technology-transfer agreement swaddled in the comforting yet misleading terminology of a confidence-building measure."

>...

>A Pentagon insider tells Insight that "the certification was the key to obtaining U.S. nuclear technology for which the People's Liberation Army would have done literally anything, including passing very substantial sums to the president, his political friends and anyone else who might have influenced the deal." Another senior official says, "Getting off the list of nuclear proliferators was an enormous concession" that allowed China to have the type of technology that contributes to global instability - "technology worth a pretty penny to countries, nations and organizations seeking nuclear weapons"

On April 22, Earth Day, the UN's most recent climate agreement known as the Paris Agreement will be formally signed in New York, ushering in a new era of country-led action to reduce carbon emissions. For the first time, individual countries have specific and (politically, if not legally) binding commitments to reduce greenhouse gas emissions, which they will feed into an international process to measure progress every five years.

>These solutions can take a variety of forms: first, countries should commit to closing down the dirtiest and most inefficient industrial plants. China could lead the way: its commitment to reduce overcapacity in its steel sector should start with action to close down its worst-performing plants, including some state-owned enterprises, and include a well-thought-out worker transition program to soften the blow for the millions who will lose their jobs.

>China

>well-thought-out worker transition program to soften the blow for the millions who will lose their jobs.

>millions who will lose their jobs.

>millions

>lose their jobs

>China

Why are we outsourcing to these people again if there are groups trying to put people out of business who they disagree with?

JESSE WILLIAMS

As you remember, Jesse Williams was one of the people FBIAnon suggesting looking into, and I have found multiple distinct connections between Jesse Williams to the Clintons/Soros.

Rough timeline:

- 1)October 2011 - August 2011: Founded FarWord Inc (Can't find any info on this pls help, might be related, only mentioned because Question Bridge was produced under this company).
- 2)June 7, 2012 - "Honorary Ambassador" at Clinton Foundation event - The Millennium Network [1][2]
- 3)June ?, 2012 - Works as executive producer on Question Bridge:Black Males - documentary which released sometime June 2012. First listed donor on website - Open Society Foundations. [3]
- 4)October 11, 2014 - Participates in ferguson BLM protest - funded by Soros [4]
- 5)Unknown date/year - Jesse Williams joins advancement project. Unclear when this affiliation started. [5]
also - Gerald Torres - Senior Attorney in the Justice Department during the Clinton Administration - is a member of the board of directors for the advancement project. [6]
- 6)June 27, 2016 - Jesse Williams BET Award/Speech - generated massive media coverage

Soros also heavily funding the advancement project. Jesse Williams is newest board member for advancement project.

Jesse Williams + Laurens Grant produce documentary called "Stay Woke" - focusing on BLM protestors (pro BLM propaganda).

Funded by BET - owned by Viacom - Soros may have stakes in Viacom.

Lauren Grants - produced/directed the black panthers: vanguard of the revolution . Movie funded by PBS, CPB, ITVS, Justfilms (Ford).

Produced by Firelight - which has funding from ford foundation, clients of OSF.

Basically all BLM propaganda/docs are being sponsored by the same organizations.

If you check the OSF, the amount of different projects and funding for programs for black men in America is staggering.

<http://questionbridge.com/> (Jesse Williams executive producer - funded by ford foundation & OSF) describes their goal is: In essence, we want to represent and redefine Black male identity in America.

If any other anons want to look into the Advancement Project there is probably more. Basically it seems as though many pro-black organizations and BLM propaganda is heavily sponsored by Soros.

>Locally, we provide direct, hands-on support for organized communities in their struggles for racial and social justice, providing legal and communications resources for on-the-ground efforts, while assisting in building their own capacity and power in their communities.

Look at the entry for Bill Lann Lee, Board Chair --- he's from the Clinton Administration:

>Shareholder, Lewis, Feinberg, Lee, Renaker & Jackson, PC

Mr. Lee is a 40-year veteran civil rights lawyer. He served as Assistant Attorney General for Civil Rights in the Clinton Administration from December 1997-January 2001. He was Assistant Counsel in the New York office of the NAACP Legal Defense and Educational Fund, the law firm founded by the late Justice Thurgood Mar

shall from 1974-83. He was co- head of the NAACP LDF s Los Angeles office from 1989-97. He prosecutes civil rights and disability rights actions with the Oakland, California firm Lewis, Feinberg, Lee, Renaker & Jackson, PC. Bill graduated from Columbia University Law School in 1974 and Yale College in 1971.

JUNE 7 2012 - JESSE WILLIAMS

The official event page is gone from the Clinton Foundation website, however:
<https://www.clintonfoundation.org/get-involved/attend-an-event/night-out-millennium-network>
Still remains.

In the eventbrite page you can see ticket pricing. According to the facebook event, the event capacity was 500 and they almost sold out. There have been multiple Clinton Foundation's Millennium Network events. No idea what the Millennium Network is supposed to do. Looks like they raise lots of money though.

I know there's some controversy with Rahm Emanuel as well, and he's mentioned in Clinton's emails. Why are him and Jesse Williams doing a public fundraising event for the Clintons?

DERAY

DERAY IS DEBUNKED, USED HIM ANYWAY

>McKesson himself has been accused of playing fast-and-loose with the facts in the past. In many of the cases he's protested - from the Michael Brown case to Freddie Gray's death to Sandra Bland's - McKesson has made claims to his large Twitter following that turned out to be false.

>Hey team, can we please vet DeRay McKesson (100683684) to act as a surrogate for us at a young professional event possibly featuring the Chair? Thank you.

> DeRay McKesson Tweets - Then Deletes - Claim That Virginia Shooter Was White: "Black Lives Matter activist DeRay McKesson continued his pattern of jumping to conclusions and getting his facts wrong on Wednesday when he tweeted out to his 200,000 followers that the man who fatally shot a TV reporter and cameraman in Virginia was white. McKesson quibbled with initial reports that the shooter - who had not been identified at the time - was a disgruntled ex-employee. The activist, who began touring the country as an organized protester after the Michael Brown shooting last year, appeared to believe that the shooter was white. He compared the initial reports to how Muslims are characterized as "terrorists" following similar incidents.

<https://wikileaks.org/dnc-emails/emailid/782>

> Finance asked us to vet DeRay to act as a surrogate, possibly with the Chair, at an upcoming event. He has been an issue since 9/2015 with no updates for his involvement in Black Lives Matter protests. I believe he is currently running for Mayor of Baltimore.

http://www.americanthinker.com/blog/2014/03/california_state_sen_yees_arrest_partner.html

I heard an anon say that Leland Yee donated to the Clinton foundation, if we can prove this, we have direct ties to Hillary and somebody that laundered campaign money and attempted to smuggle Rocket launchers and rifles into the US from a terrorist group in the Philippines. Right now there is a connection between a Clinton donor (Hsu) and Leland Yee's crime partner "Shrimp boy" (I wish I was kidding, but that's his actual nickname.)

So if we can find any campaign donations or donations to, Leland Yee, it could be huge.

I ve posted this before, but here's an email where Anthony Weiner is petitioning the Israeli government to allow 2 containers that were being held in Haifa to be put through customs duty-free, with 7 more in the US (illinois, a hotbed of corruption in the US) that are waiting to be shipped.

COMEY AND THE CLINTONS

This is not the first time Comey has come to the aid of the Clintons
Comey, Clintons and Clemency
<http://archive.is/09AoP>

>During the final days of his presidency, Bill Clinton opted to reduce the prison terms of the New Square offenders, and after 9/11 that sparked an investigation. As Anderson notes, Hillary received an unexpected gift in late June when, without explanation, U.S. Attorney James B. Comey closed the New Square clemency case.

Who were the new square four?

>New Square, a Hasidic enclave 30 miles northwest of Manhattan, had voted as a bloc in previous elections and campaign workers urged Hillary urged to stop there. In New Square, four members of the Skver (Jesus Christ, that name) sect had been convicted in 1999 of bilking government aid programs for some \$30 million. During her visit, Hillary denied that any pardon was discussed.

More fun I was unaware of from the article I posted

> At Hillary's urging, Andersen writes, the President granted clemency to 16 Puerto Rican terrorists who have been sentenced to prison following a wave of bombings from 1974 to 1983 that took the lives of six Americans and wounded scores of others. Incredibly, the terrorists had not even asked for clemency. The worst attack was the January 24, 1975 bombing of Fraunces Tavern in Manhattan. The Puerto Rican FALN exploded a bomb during the lunch hour, hurling body parts into the street and killing four people.

>The terrorists accepted President Clinton's offer of clemency but expressed no regret for their actions. Former U.S. Attorney Joseph Di Genova went on record that the Puerto Rican terrorists were pardoned because they were a political benefit to the president's wife. Make no mistake about it. As Anderson notes, FBI director Louis Freeh opposed the pardons, as did New York major Rudy Giuliani, senator Charles Schumer and former Puerto Rico governor Carlos Romero Barcelo who, says Andersen, pleaded with the president not to release the bombers.

<http://archive.is/09AoP>
<http://archive.is/bB7Fr>

>Time reports that 20 years ago, Comey was a deputy special counsel on the Senate Whitewater Committee, looking into the conduct of then President Bill Clinton

and the first lady.

>Several people involved with the Whitewater corporation (including Clinton's successor as governor) ultimately went to jail, but the Clintons never faced criminal prosecution.

Guess who else was involved in the Clintons getting away with pardoning Marc Rich??

>Comey parlayed the Whitewater job into top posts in Virginia and New York, returning to Manhattan in 2002 to be the top federal prosecutor there. One of his first cases as a line attorney in the same office 15 years earlier had been the successful prosecution of Marc Rich, a wealthy international financier, for tax evasion. But on his last day as President in 2001, Bill Clinton pardoned Rich. I was stunned, Comey later told Congress. As top U.S. prosecutor in New York in 2002, appointed by George W. Bush, Comey inherited the criminal probe into the Rich pardon and 175 others Clinton had made at the 11th hour.

Comey seems to be the go to guy for all Clinton related scandals, yet never quite seems to pin anything substantial on them
Remember former senior Clinton advisor Sandy Berger?

>On July 19, 2004, it was revealed that the U.S. Department of Justice was investigating Berger for unauthorized removal of classified documents in October 2003 from a National Archives reading room prior to testifying before the 9/11 Commission. The documents were five classified copies of a single report commissioned from Richard Clarke covering internal assessments of the Clinton Administration's handling of the unsuccessful 2000 millennium attack plots. An associate of Berger said Berger took one copy in September 2003 and four copies in October 2003, allegedly by stuffing the documents into his socks and pants. Berger subsequently lied to investigators when questioned about the removal of the documents.

Well turns out Comey had a big hand in that investigation too :

>Deputy Attorney General James Comey told reporters Tuesday he could not comment on the Berger investigation but did address the general issue of mishandling classified documents.

>According to The Hill, this is not the first time Comey has dealt with the mishandling of classified information. In 2004, Comey played a large role in investigating Sandy Berger, former President Bill Clinton's national security adviser.

>"As a general matter, we take issues of classified information very seriously," Comey said in response to a reporter's question about the Berger bind, adding that the department has prosecuted and sought administrative sanctions against people for mishandling classified information.

>"It's our lifeblood, those secrets," Comey continued.

"It's our lifeblood, those secrets"
Boy, is it ever!

In more fun Comey news :

The Martin Armstrong case

>James Comey was the chief prosecutor in the Southern District of New York between 2003 and 2005. He had no problem keeping me in Federal Prison on contempt of court without any charges, indictment, or a civil complaint describing any crime whatsoever that they even admitted openly in court. There were never any charge

s or complaint filed, and they publicly stated, [T]here is no description of criminal liability. Yet, Comey allowed me to be held in prison, entirely arbitrarily, with absolutely nothing whatsoever; Comey completely violated my civil rights, those of my family, and all 240 employees. So he is not someone who upholds the Constitution when it goes against government or the banks. As they say, the Department of Justice is really Just Us in reality. He has proven that once again.

>Comey also allowed a LIFETIME GAG ORDER on me to prevent me from providing any assistance to my clients in Japan to sue the bankers. Now the State Department has asked for a two-year stay in turning over any of Hillary's emails. Why would they do that if there is nothing criminal? This only proves that this is a cover-up, as always, because the Democratic Party cannot allow Hillary to go down for they would lose everything. Sorry, but Comey has a track record of defending the banks even when they stole billions and pleaded criminally guilty before having to pay them back. He kept me in prison on contempt to turn over assets for a possible restitution, but when I got into the Supreme Court, I was released and no such charges were ever filed nor did I ever have any restitution. They then tried to prevent The Forecaster from being shown in the USA.

<http://archive.is/RubLQ>

Seems like this the Comey character is very selective when it comes to handing out justice.

Another interesting strand in the Clinton-Comey connections was that James Comey, fresh off a 2 year stint as the deputy attorney general, worked for Lockheed Martin as "general counsel and senior VP" from 2005-2010.

Lockheed Martin was heavily involved in funding the Clinton Foundation as well as one of the 3 main beneficiaries of the much lauded foreign government CF donations to arms deals that have been brought up before. Many around the same time Comey was working there.

>Boeing was one of three companies that helped deliver money personally to Bill Clinton while benefiting from weapons authorizations issued by Hillary Clinton's State Department. The others were Lockheed and the financial giant Goldman Sachs.

>Lockheed is a member of the American Chamber of Commerce in Egypt, which paid Bill Clinton \$250,000 to speak at an event in 2010. Three days before the speech, Hillary Clinton's State Department approved two weapons export deals in which Lockheed was listed as the prime contractor. Over the course of 2010, Lockheed was a contractor on 17 Pentagon-brokered deals that won approval from the State Department. Lockheed told IBTimes that its support for the Clinton Foundation started in 2010, while Hillary Clinton was secretary of state.

> Lockheed Martin has periodically supported one individual membership in the Clinton Global Initiative since 2010, said company spokesperson Katherine Trinidad. Membership benefits included attendance at CGI annual meetings, where we participated in working groups focused on STEM, workforce development and advanced manufacturing.

>Federal records show that ethics staffers at the State Department approved the payments to Bill Clinton from Goldman Sachs, and the Lockheed- and Boeing-sponsored groups without objection, even though the firms had major stakes in the agency's weapons export decisions.

>Stephen Walt, a Harvard University professor of international affairs, told IBTimes that the intertwining financial relationships between the Clintons, defense contractors and foreign governments seeking weapons approvals is a vivid example of a very big problem the degree to which conflicts of interest have become end

emic.

DEMOCRACY ALLIANCE, GEORGE SOROS, AMALGAMATED BANK, ETC

<http://www.nationalbcc.org/news/beyond-the-rhetoric/2601-filthy-rich-and-dangerous-part-2>

> There is no single group that dominates the Democrats informal network, but the one that has the greatest reach, due to the power of its purse, is the Democracy Alliance. It was founded in 2005 by Rob Stein, a venture capitalist who had worked for master political operative Ron Brown at the Democratic National Committee and Commerce Department.

>Stein went on a mission to grow the Democracy Alliance into a powerful infrastructure to promote their ideas of Income Redistribution, Climate Change, Federal Government Saturation, and Organized Labor Power. He won the confidence of billionaires such as financier George Soros, insurance tycoon Peter Lewis and labor leader Andy Stern among others. He assembled more than 75 individual donors. This group, Democracy Alliance, would pick about 25 groups for its donors to fund.

>Over the next decade, they would put over \$500 million into these progressive organizations. You can accurately refer to these donors as the Billion Dollar Club who want to change our nation upside down. Many have their money through inheritance with a good portion coming from the 1960 s style of street activism. The few Republicans have left and the extremist continue to join in.

AMALGAMATED BANK is actually my focus of attention as they appear to be the bank of choice for anything revolving around Clinton and the Clinton Foundation. So if you guys got anything on them drop it here.

Eg. from their "clients website:

>Ready for Hillary

>With more than 2.5 million supporters and over 100,000 grassroots donors, Ready for Hillary is a political action committee that encouraged former Secretary of State Clinton to run for president in 2016. Ready for Hillary assembled a national grassroots network of supporters that is ready to help Hillary win in the 2016 presidential election.

Yet the FEC records from the Ready PAC show only about 3000 contributions in total, once you filter it down to actual grass root contributions (\$1-\$100) you end up with a list of less than 1000 transactions.

There's nothing grassroots about it.

FACEBOOK AND THE DEMOCRACY ALLIANCE

>In late April, roughly 100 donors gathered at a resort in Laguna Beach, California. They were all members of the Democracy Alliance, a private group of wealthy liberals that includes George Soros and Facebook co-founder Chris Hughes.

>Over five days, they swapped ideas on how best to promote a progressive agenda and took in pitches from leaders of the most powerful liberal and left-leaning groups in America, including Organizing for Action, the rebooted version of Obama's 2012 presidential campaign.

>Since the Democracy Alliance's founding in 2005, its members have given \$500 million to various causes and organizations. At the Laguna Beach event alone, its members pledged a reported \$50 million.

BILL AND MELINDA GATES FOUNDATION - SEE MANY OTHER SECTIONS FOR MORE INFO

BILL AND MELINDA GATES FOUNDATION (BMGF)

Decided to start with the Gates family since their connections seem relatively unexplored and the BMGF appears central to the world of non-profit foreign aid. It is the largest non-profit in the world, owned of course by Bill and Melinda Gates. They also serve as the foundation's trustees, alongside Warren Buffet, who famously donated the majority of his large fortune (about \$60 billion) to the foundation's coffers in the form of Berkshire-Hathaway stock. [https://en.wikipedia.org/wiki/Bill_%26_Melinda_Gates_Foundation]

The BMGF also pursues other stock opportunities, investing primarily in oil companies and other large corporations like Wal-Mart and McDonalds. Their investments can be tracked via the foundation's financial documents: [<http://www.gatesfoundation.org/Who-We-Are/General-Information/Financials>]

In 2013, they partnered with the Clinton Foundation to build a program for researching the treatment of women globally called No Ceilings. [<http://noceilings.org/about/>]

The foundation is also listed as one of the top donors for the Clinton Health Access Initiative (\$25m+). [http://www.clintonhealthaccess.org/content/uploads/2016/08/CHAI-Donor-List_June-2016.pdf]

They made a one-time \$550k contribution to the Center for American Progress. For those who aren't familiar, this is a hugely influential center of liberal power founded by John Podesta. George Soros is also on record as a CAP donor. [<http://www.gatesfoundation.org/how-we-work/quick-links/grants-database/grants/2013/10/op1098803>]

THE GLOBAL FUND TO FIGHT AIDS, TUBERCULOSIS AND MALARIA

An international financing organization that okay, lets be real. This thing is just a fucking piggy bank. Its only purpose is to attract and disburse additional resources (\$\$\$\$) to prevent and treat HIV and AIDS, tuberculosis and malaria. Turns out that it's really good at the attracting part, having raised \$30 billion since 2002; sadly it's not so good at the disbursing part. There have been numerous complaints of fund mismanagement and corruption, even beyond the many examples found on the Wikipedia page. The entire Global Fund Wikipedia page is an honest-to-god-clusterfuck and I highly recommend reading it if you're trying to get more involved with research on this stuff. [https://en.wikipedia.org/wiki/The_Global_Fund_to_Fight_AIDS,_Tuberculosis_and_Malaria]

As a highlight of the article, the UN Development Program (UNDP) which is responsible for managing and supervising a large chunk of their funds successfully claimed diplomatic immunity to prevent internal audits of programs carried out in more than two-dozen nations. This was after the Global Fund had already been caught misusing funds on multiple occasions, of course.

There are multiple Wikileaks documents that confirm the amount of fraudulent activity going on with this institution. Here is a cable describing a meeting set up by Global Fund members to intervene in a Mauritanian aid program that had somehow misplaced or misused millions of dollars (74% of its grant value). The Global Fund then blames the local committee and suspends all aid until the missing money is reimbursed. Note that the Mauritians don't accept responsibility, instead blaming the various members of the NGO community that The Global Fund was working with. [https://wikileaks.org/plusd/cables/09NOUAKCHOTT577_a.html]

This seems to be a common pattern. Lend money to a local government; money disappears; cut off aid unless money is reimbursed; dispatch a corruption report to anybody involved in the Global Fund; have grounds to claim that the Fund is hard on corruption and transparent about its dealings.

It should come as no surprise that Hillary finds a way to get involved with this. Here is an email chain where she is being looped in on an aggressive effort to

choose some new leadership for the GF s reform : [https://wikileaks.org/clinton-emails/emailid/29292]

Additionally, this email shows that Huma Abedin is also associated the Global Fund. Haven t been following the Huma investigation as closely as I d like, but hope t his helps! [https://wikileaks.org/clinton-emails/emailid/25133]

Oh, and last but not least - who gives money to The Global Fund?

Bono! And The Gates Foundation. And the United States, France, Germany, Japan, Sweden, Chevron, and many many more.

KEN STARR

http://radaronline.com/exclusives/2015/02/jeffrey-epstein-secret-clinton-donation/

After the FBI joined his sex trade investigation, Epstein donated 3.5 million to the Clinton Foundation. Due to a deal struck with Ken Starr afterwards (note another Prosecutor who was in charge of other Clinton investigations that died suddenly) the FBI probe was stopped and video evidence of Epstein and his "friends" were sealed.

Virginia Roberts saw Bill after the donation was made and asked what he was doing there. Epstein replied "Well, he owes me a favor".

The guy that died just before testifying was one John Ashe, who was about to testify as to her involvement with Ng Lap.. this is where the coverup for girls being bought and "sold" might lie.

https://en.wikipedia.org/wiki/Suicide_of_Vince_Foster#Conspiracy_theories

The comments of Patrick Knowlton, a grand jury witness who had been at the park where Foster's body was found, were included as part of Starr's Report over Starr's objection. Judge John D. Butzner wrote to Judges Peter Fay and David Sentelle after Knowlton submitted a motion that his comments be included as part of an appendix to the final report, "I suspect that if we deny this motion we will be charged as conspirators in the cover-up," and concluded "I suggest we let the motion and attachments speak for themselves." [18] Judge Peter Fay wrote that Knowlton contradicted "specific factual matters and takes issue with the very basics of the report" filed by Kenneth Starr. [19] Knowlton's comments were ordered [20] included as part of the official report on September 26, 1997. Two days later, Kenneth Starr filed a 9-page motion [21] to appeal that the comments by Knowlton not be included in the report. The next day, Starr's motion was denied [22] and Knowlton's comments were included as part of the final official Report on the Death of Vincent W. Foster. [23]

> According to this report, SVR electronic specialists performing counterintelligence missions/operations noted on 7 July an enormous/gigantic increase of computer and telephonic traffic between the Democratic National Committee (DNC) headquarters in Washington D.C. and the Clinton Foundation (CF) offices in New York City.

>Upon a deeper/broader investigation into this odd/strange increase in communications between these believed to be separate organizations, this report continues, SVR analysts determined that the original initiating person responsible was a 27-year-old DNC official named SETH RICH.

>What had drawn the concern of DNC official Seth Rich causing him to contact the Clinton Foundation, this report explains, was his discovery of a pay-to-play scheme that involved people seeking jobs with a new Hillary Clinton presidential administration to funnel money to the Clintons through their foundation with various US federal government positions being designated by the dollar amount it would cost to buy them.

TL;DR.: Seth Rich discovered a "Pay to play" scheme where people basically pay for government positions.

> SVR analysts, while preparing to document the results of their 7 July probe into the Clinton Foundation concerns of DNC official Seth Rich, became alarmed when they discovered that his micro computer system (cell phone?) had become infected/virused by killers/assassins working for the Clintons and who the SVR had previously documented as being involved in the assassination of the husband of the State of Georgia prosecutor investigating Bill Clinton for child sex crimes and the murder of American pop singer Christina Grimmie and massacre of nearly 50 gay pride celebrants. Fearing that the life of DNC official Seth Rich was in danger due to his being tracked/targeted by this known Clinton hit team, this report says, SVR Director Mikhail Fradkov authorized an emergency contact between his agency and the US State Department but, and shockingly, when Russian diplomats presented the SVR

findings to US authorities, on 7 July, they were immediately expelled from the United States.

> the US State Department thanked Russia for the information stating that it would be taken care of, and then formally requested that the matter remain secret. Seth Rich died 24 hours later at 4:19 am

> SVR intelligence analysts contributing to this report speculate that this latest assassination ordered by the Clintons has enraged FBI Director JAMES COMEY who barely a week ago allowed Hillary Clinton to walk free from her many crimes committed against her own government and people and that he had no choice to do because of his own involvement with the Clinton Foundation while he was the director of the notorious HSBC money laundering bank that funneled hundreds-of-millions of dollars to the Clintons.

TL;DR.: Seth Rich knew too much.

Karl Rove previous involvement in illegal activities and election Fraud

https://en.m.wikipedia.org/wiki/Michael_Connell This guy was killed too

>In July 2008, the lead attorney in the King Lincoln Bronzeville Neighborhood Association v. Blackwell case, Cliff Arnebeck, sent a letter [3] to U.S. Attorney General Michael Mukasey seeking protection for Connell as a witness in the case, saying he had been threatened. Arnebeck wrote, We have been confidentially informed by a source we believe to be credible that Karl Rove has threatened Michael

Connell, a principal witness we have identified in our King Lincoln case in federal court in Columbus, Ohio, that if he does not agree to 'take the fall' for election fraud in Ohio, his wife Heather will be prosecuted for supposed lobby law violations." [4] Arnebeck claims that months later, his source called back and warned that Connell's life was in danger.[5]

>He was served with a subpoena in Ohio on September 22, 2008,[6] in a case alleging that vote-tampering during the 2004 presidential election resulted in civil rights violations. Connell, president of GovTech Solutions and New Media Communications, was a website designer and IT professional and created a website for Ohio Secretary of State Ken Blackwell that presented the results of the 2004 election in real time as they were tabulated. At the time, Blackwell was also chairman of the Bush-Cheney 2004 reelection effort in Ohio. Connell refused to testify or to produce documents relating to the system used in the 2004 and 2006 elections, lawyers said.[7]

>Connell was killed when the plane he was flying crashed on December 19, 2008.

More on SETH RICH - ALSO SEE ENERGY PIONEER SOLUTIONS

My opinion was that he was murdered by a hit-team after he discovered the DNC would sell important positions to high payers.

He realized this because he had direct access to that info as he was an analyst for the democratic party.

He wasn't robbed, just shot at 4:20.

The Media is saying he was on the phone with his girlfriend but (and I have researched far and wide, even getting Rich's dad phone number and address) Rich's girlfriend's name is never mentioned anywhere.

So I'm asking :

Who was Seth Conrad Rich's girlfriend at the moment of his murder and what were her connections?

<http://www.snopes.com/seth-conrad-rich/>

I'll add this <http://freerepublic.com/focus/news/3452614/replies?c=34>

Mentions girlfriend of 2 years, but there are no pics on fb or any other info on her. It was a hit

Seth Rich was the key witness in a case filed against Edison Media Research and the alarming discrepancies between the results and exit polls, and their chummy relationship with John Husted. He was executed.

This is the story:

>Sunday Morning July 10 at 4:19, Seth Rich, a key DNC staffer in charge of voter databases was murdered right outside his home in Washington DC. As Fitrakis, Johnson, other election integrity activists and their paralegals were exchanging final emails prior to filing Seth Rich was murdered. There are no witnesses, no suspects, his wallet and cellphone were recovered at the scene and the DC Metro police are pursuing all possible motives.

>The official police report states CIC reports the sound of gunshots at 2134 Flagler Pl. NW. Upon arriving to the scene, the decedent was laying in the Southwest corner of the intersection of W St. and Flagler Pl. NW. The decedent was conscious and breathing with apparent gunshot wound(s) to the back. The decedent was transported to local area hospital and was pronounced by attending physician at 0557 hours.

>A key potential witness in derivative litigation was shot multiple times in the back 31 hours before this suit was filed. Only a very bad reporter would not be curious. Fitrakis was not aware of Rich's death until after the filing, as this reporter discovered the suit had been filed while calling him for comment on Rich's murder. Fitrakis responded with Wait what? Who? When?

Re, NGP VAN:

>D.C.-based NGP VAN, a software-as-a-service (SaaS) tech company that specializes in providing campaign software to progressive campaign organizations, has been working to add a new and important feature to its platform: a sidebar navigation bar feature. The update, however, is more significant than perhaps understood at face value because it represents a larger development trend for NGP VAN ahead of a complex general election. The move effectively comes at a time when NGP VAN's internal design team, led by Justin Lewis, is following through on multiple projects that aim to make the platform which is used by volunteers, canvassers and campaign staff to run on-ground operations more user-friendly.

AFRICOM

We should start looking into connections between Hillary, AFRICOM, and terrorism /instability in the region:

>Secretary of State Hillary Clinton emphasized that her seven-country tour of Africa was intended to promote unity and democracy, fight corruption, and boost US investments in African trade and agriculture...

>Wars over blood diamonds and colonial genocidal tribal wars have left a devastated, mal-nourished population in its wake. Was Ebola simply a panic-maker? Further investigation uncovered the Pentagon was developing an Ebola vaccine with Monsanto and suspicion was that the 3,000 US troops were sent to force the population to become human guinea pigs for the untested substances. Before that Obama, or more precisely then-Secretary of State Hillary Clinton, in 2011 ordered Libya to be bombed back to the stone-age as what she called responsibility to protect. Today, four years after, the country is anarchy pure with roving lawless bands killing and looting. T

"Administration officials argue that AFRICOM will not only allow the U.S. military to better

coordinate these operations and programs, but that it will also allow DOD to better coordinate with other U.S. agencies, like the State Department, USAID, the Department of Justice, the Central Intelligence Agency, the Federal Bureau of Investigations and others, as well as with other governments, like those of Britain and France, which are also providing training and assistance for African security forces. DOD suggests that Africa Command will build on the experiences of the U.S. military's only forward presence in the region, Combined Joint Task Force Horn of Africa (CJTF-HOA) in Djibouti."

>Tony Rodham, sat on the board of a self-described mining company that in 2012 received one of only two gold exploitation permits from the Haitian government the first issued in over 50 years.

>VCS's coveted gold mining exploitation permit was apparently such a sweetheart deal that it outraged the Haitian senate, since royalties to be paid to the Haitian government were only 2.5%, a sum mining experts say is at least half the standard rate. Moreover, the mining project in Morne Bossa came with a generous ability to renew the project for up to 25 years. Nevertheless, the fledgling company proudly touted its luck in landing the deal.

This same melanin enriched male was accused of pocketed relief money.

>"Jean's efforts at earthquake relief, highly publicized in 2010 throughout Haiti and the United States, were channeled through his charitable organization, Yéle Haiti. The charity, which performed a variety of charitable works in Haiti between 2005 and 2010, effectively closed in 2012 after much controversy over mismanagement of funds, with many believing that a large portion of the profits weren't used for charitable purposes. Thus it has been claimed that much of the money raised by the organization in the Hope for Haiti Now telethon went to Jean's own benefit.[7]"

Guess what? This Hope for Haiti now telethon was directly connected to the Clinton Bush Haiti Fund. Did they let him pocket the money hoping they could buy control of Haiti?

more:

>Under Haitian mining law, a Mining Exploitation Permit is valid for five (5) years and is renewable until the start of commercial mining at which time the permit shall be automatically converted to a Mining Concession (valid for 25 years; renewable). Under the terms of the Mining Convention, the granting of the Mining Exploitation Permits will allow Majescor and SOMINE SA to carry out all advanced mineral development work, including but not limited to geological, geotechnical, metallurgical, engineering and environmental studies and new drilling to define additional mineral reserves (non NI 43-101), required to bring the Douvray and Faille B projects to commercial production.

>"[...] This is a big step forward for the mining industry in Haiti," declared Mr. Daniel Hachey, concerning the awarding of these permits, although the company has yet to submit a preliminary environmental assessment. The Company will continue exploration in order to better determine where the minerals are located, said Mr. Daniel Hachey "we want to see how far these deposits are, how broad, how wide, how deep, how long," stating that the company plans to invest about 75 million U.S. dollars to reach the stage of production of gold. As for the production of copper, the leader indicated that it will take several million dollars before reaching th

e stage of copper production, an operation considered more difficult. The President of SOMINE SA expects that the exploitation can begin within 36 to 42 months.

>After its victory, the RPF established a coalition government similar to that agreed upon at Arusha, with Pasteur Bizimungu, a Hutu, as president and Paul Kagame, a Tutsi, as vice president and defense minister. Habyarimana's NRMD party, which had played a key role in organizing the genocide, was outlawed, and a new constitution adopted in 2003 eliminated reference to ethnicity. The new constitution was followed by Kagame's election to a 10-year term as Rwanda's president and the country's first-ever legislative elections.

In 2015, tension arose between Magaziner and the Clinton machine:

>Its chief executive, Ira C. Magaziner, who is admired as a brilliant, farsighted leader, has long alienated co-workers at the Clinton Foundation. But a harsh new set of complaints about Mr. Magaziner were captured this year in a performance review, with most of the grievances coming from the board of the Clinton Health Access Initiative, or CHAI, of which Chelsea Clinton is a member.

J-1 VISAS

The J-1 Visa exploitation:

Eight Russian students, recruited to work in the U.S. for the Frosty Treats Ice Cream Truck Company, drove the trucks 13 hours a day, seven days a week averaging 87 cents per hour income. If the students did not meet their quota for the amount of ice cream sold each day, Frosty Treats would not reimburse gas money, the truck rental fee, and the truck deposit, so that at the end of the day a driver often owed money to Frosty Treats. The apartments the students were forced to stay in were cramped with little furniture except mattresses on the floor and six people to an apartment.

<http://www.stopenslavement.org/archives/stoptraff906.pdf>

U.S. federal charges allege that Cecilia Chang, the former dean of the Institute of Asian Studies at St. John's University, Queens, NY, threatened her scholarship students with revoking their funds if they didn't do such menial tasks, such as taking out her garbage and shoveling the snow from her driveway. Chang had already been arrested in September on NY state charges that she embezzled about \$1 million, including a \$250,000 donation from a Saudi prince's foundation.

"If you wish to dance in USA as a J-1 exchange visitor, contact us," ZM Studios, a broker for topless dancers, advertised on its website this year. The ad said ZM Studios is "affiliated with designated visa sponsors" and can get women J-1 visas and jobs at topless clubs in cities like Las Vegas and Los Angeles.

100 RESILIENT CITIES, NUKES, THE ROCKEFELLERS AND CLINTON GLOBAL INITIATIVE

It has already invested more than \$100 million in programs that has resulted in significant knowledge development, the production of practical solutions, and stronger resilience in these communities and regions.

Topic: Rockefellers on the Pharmaceutical Front. John Rockefeller Jr, looking for new opportunities, opened up The Rockefeller Institute for medical research. (serious science, 20 nobel peace prizes coming from their research) The institute was attempting to find a cure for yellow fever, but screwed up and found a cure for a different virus strain.

Later a Dr Jordi Casals, a Spaniard who fled the Spanish civil war, came into the employ of the institute. He discovered a ton of different virus strains including the ZIKA virus. The institute handed over the ZIKA samples to a non profit lab in the 50's called ATCC, and now they are selling it to researchers. Basically the Zika virus could be acquired by bio terrorists quite easily right now.

FYI the Rockefellers have been accused of funding the Nazi Eugenics programs in the 20's

ROTHSCHILD AND ROCKEFELLERS

Godspeed and tight hug,

Prameela Bartholomeusz

DNC Platform Committee Member

The Rothschild and Rockefeller families come back again and again in the major scandals we are trying to uncover. It is no longer a myth that they have been involved in a lot of wars, where they funded both sides.

There have been many people who tried to openly tell the world about this conspiracy, but nobody listened.

Today, we are going down the rabbit hole together.

What we will find at the very bottom of this rabbit hole is explained pretty seriously in the 3 following 'documentaries' :

[1] <https://www.youtube.com/watch?v=JUdgiehz9dU&feature=youtu.be>

[2] <https://vimeo.com/20355767>

[3] <https://www.youtube.com/watch?v=HL6v8nzFiUk>

I would recommend watching them in that order, and the vimeo 'could' be cut out altogether, but it contains precious information on this affair. So do the two others.

What you think cannot possibly be connected will often be by means of secrecy and non-transparent fundings. Hence the existence of very powerful secret societies.

The two wars over opium involving Britain and China was their doings. It's one of the ways they got mighty rich in the first place, this and by creating false flags and using the following panic as a way to invest in something, then they'd provide the solution.

It's been around for centuries.

Here's a movie on one of the subject of our investigation for your entertainment and knowledge :

TONY BLAIR

With all this Tony Blair stuff going on in the UK, it's probably not surprising that the CF and Blair had quite close ties as well.

<http://www.washingtonexaminer.com/hillarys-surprising-ties-to-tony-blair/article/2573416>

"Clinton evidently asked Blair to "go to Israel as part of our full court press on keeping the Middle East negotiations going," according to an email between the former secretary of state and Lynn Forester de Rothschild, a top Democratic donor."

Also the Blair Faith Foundation which says to be countering religious extremism in all six major faiths (Buddhism, Christianity, Islam, Hinduism, Judaism, and Sikhism), has also been endorsed by Bill Clinton.

In light of this there's probably a link between the two foundations. There's some e-mails that the Clintons and Blairs have been sending each other so I'll try to find them.

Alright, here's a list of donors on the "Cherie Blair foundation for women"
<http://www.cherieblairfoundation.org/>
U.S. Department of State, Accenture, Anheuser-Busch Inbev, Bank of America, Bill & Melinda Gates foundation, European Bank for Reconstruction and Development, ExxonMobil, J.P. Morgan, Oak Foundation, Pratt Foundation, Qualcomm, TEB, Trafigura, VISA Inc, The Angelica Fuentes Foundation, Dell

It's all making sense. Cherie Blair Foundation For Women is all about for promoting world wide businesswomen. That explains how she would be in a position to give Sheika access to Clinton to lobby for her son, that's what her initiatives are designed to do.

5 companies, including the day care in the OP, are all named on a bill of lading for a shipping container from China with 1,100KG of 'plastic jewelry' and 6,825 KG of 'football & soccerballs'. Shipment of container was facilitated by a company with a password protected merchandise catalog who employs as an executive an ex-defense contractor formerly responsible for sales of 'operational merchandise'. Scroll down a little and you'll see the blurb was posted on reddit about the company he worked for. This guy facilitated the transfer of the container from china to the US

The address for Fun Time Bait shop, is the same address for a registered sex offender. Not the owner of the business mind you, but we now have a legit tie-in to

pedo and these chinese shipments. So, that's, something?
The Fundamental Financial Group shipment: There is no website of record for this business, however a search for the name on the BL brings up a gentleman in the chicagoland area, currently working at two places; Fundamental and North South Capital, LLC. The address on the BL is actually the address for North South even though the company listed is Fundamental, Fundamental is registered at a totally different location about 40-50 min away. Smells like some shell-corp antics afoot all over this thing.
So it seems one of the executives, based on his linked-in profile, at Fun Stuff Inc (facilitator of the chinese shipment) used to work for a short time with another company
Regional Account Manager servicing the Defense Industry with Tactical Equipment, Operational Gear, MRO, Fire and Emergency Services, Expeditionary, Medical, and simplified logistic solutions.

Nope, nothing curious about that. Oh, and the company he works for now is the one who has their current merchandise behind password protection. Look at their site again, and ask why that is necessary.
Can't seem to find much about the Fun With Phonics company, other than a lawsuit with Leapfrog. What I do find curious though, is this is a company with almost 1 mil in annual revenue. What are they doing in bed with these other 4 companies and shell corps?

URANIUM DEALS, RUSSIA, AND GIUSTRA

The CF bagged \$145 million selling 20% of all uranium the US had to the russians
<http://www.breitbart.com/big-government/2015/05/13/devastating-timeline-reveals-the-transfer-of-half-of-u-s-uranium-output-to-russia-as-hillary-clintons-foundation-bags-145-million/>
seems to be quite widely reported though.

Also, about the actual charity done by the Clinton Foundation, it might be that only 6% goes to actual charity, so even the Center of effective philanthropy does not consider it as a charity organization.

"Charity Navigator put the Clinton Foundation on its watch list, but not because of concerns about insufficient funds going toward charity. Mainly, it was put on the watch list due to questions raised in the media about foreign donations to the foundation and the potential for quid pro quo when Hillary Clinton was secretary of state."

About where the money actually goes:

<http://www.factcheck.org/2015/06/where-does-clinton-foundation-money-go/>

So, there are two main parts to the Russian Uranium deal:

The first part happened in 2005 with Bill Clinton and Frank Giustra going to Kazakhstan, Bill Clinton the supporting then president of Kazakhstan's appointment to the Secretariat of the OSCE in spite of Kazakhstan's awful human rights and lack of US support. Giustra's no name mining company UrAsia gets Uranium mining rights from Kazatomprom. Few Months later Giustra donates about \$30 million to the Clinton Foundation.

Second part happens while Hillary is Secretary of State, but before the Ukrainian happenings so US-Russian relations are okay. In the intervening years Giustra's

UrAsia is bought out by Uranium One, a South African mining company. Uranium One along with its Kazakhstan uranium mining rights also acquires US uranium mining rights. Russian mining company Rosatom wants to (supposedly only) acquire Uranium One's Kazakh uranium mining rights, so they go about trying to acquire control of the company. This sets off alarm bells here in the US because--while nuclear weapons is not a concern--uranium for nuclear power plants are, apparently most reactors here only have 18-36 months reserves. So, a special committee which Hillary is a part of is overseeing the proposed merger. Russian investment banks with ties to Rosatom give Bill Clinton \$500,000 for speeches, and the acquisition of Rosatom gets OK'd.

<http://www.nytimes.com/2015/04/24/us/cash-flowed-to-clinton-foundation-as-russians-pressed-for-control-of-uranium-company.html>

There's also Soros Foundation-Kazakhstan.

One important name on this list is Robert Disbrow. He is a vice president of Haywood Securities. Haywood was reported to be giving \$58 million dollars to float a Canadian company called URasia. (this company was originally funded by Frank Giustra a Canadian mining investor) It was reported in the NYT that Giustra gave \$31.3 million dollars to the Clinton Foundation. http://www.nytimes.com/2015/04/24/us/cash-flowed-to-clinton-foundation-as-russians-pressed-for-control-of-uranium-company.html?_r=0

Eventually the Canadian company merged to become Uranium One, which help the Russians acquire uranium mines in the USA.

Anyways Disbrow's name was all over the Panama Paper leaks. Haywood was holding shares in a trust for him in the British Virgin Islands, for a company called Gem Diamond Mining Company of Africa. The Panama papers also showed \$332,000 dollars of donations to the local British Columbia Liberal party.

<http://www.nytimes.com/2015/04/24/us/cash-flowed-to-clinton-foundation-as-russians-pressed-for-control-of-uranium-company.html>

>But the untold story behind that story is one that involves not just the Russian president, but also a former American president and a woman who would like to be the next one.

>At the heart of the tale are several men, leaders of the Canadian mining industry, who have been major donors to the charitable endeavors of former President Bill Clinton and his family. Members of that group built, financed and eventually sold off to the Russians a company that would become known as Uranium One.

>Beyond mines in Kazakhstan that are among the most lucrative in the world, the sale gave the Russians control of one-fifth of all uranium production capacity in the United States. Since uranium is considered a strategic asset, with implications for national security, the deal had to be approved by a committee composed of representatives from a number of United States government agencies. Among the agencies that eventually signed off was the State Department, then headed by Mr. Clinton's wife, Hillary Rodham Clinton.

>As the Russians gradually assumed control of Uranium One in three separate transactions from 2009 to 2013, Canadian records show, a flow of cash made its way to the Clinton Foundation. Uranium One's chairman used his family foundation to make four donations totaling \$2.35 million. Those contributions were not publicly disclosed by the Clintons, despite an agreement Mrs. Clinton had struck with the Obama White House to publicly identify all donors. Other people with ties to the company made donations as well.

>And shortly after the Russians announced their intention to acquire a majority stake in Uranium One, Mr. Clinton received \$500,000 for a Moscow speech from a Russian investment bank with links to the Kremlin that was promoting Uranium One

stock.

>At the time, both Rosatom and the United States government made promises intended to ease concerns about ceding control of the company's assets to the Russians. Those promises have been repeatedly broken, records show.

SKOLKOVO - Russia's Silicon Valley

More HRC and CF corruption with Russia. Can we get some meme Anons to put something together on this and uranium one? Would help counter all the trump/ Russia deflection.

<http://www.zerohedge.com/news/2016-08-01/hillary%E2%80%99s-latest-headache-skolkovo>

>One such project was Skolkovo, an innovation city of 30,000 people on the outskirts of Moscow, billed as Russia's version of Silicon Valley. As chief diplomat, Hillary was in charge of courting US companies to invest in this new Russian city. Russia, on the other hand, had committed to spend \$5 billion over the next three years (2009-12).

>As Schweizer continues, soon, dozens of U.S. tech firms, including top Clinton Foundation donors like Google, Intel and Cisco, made major financial contributions to Skolkovo, with Cisco committing a cool \$1 billion. In May 2010, the State Department facilitated a Moscow visit by 22 of the biggest names in U.S. venture capital and weeks later the first memorandums of understanding were signed by Skolkovo and American companies.

By 2012 the vice president of the Skolkovo Foundation, Conor Lenihan who had previously partnered with the Clinton Foundation recorded that Skolkovo had assembled 28 Russian, American and European Key Partners.

Of the 28 partners, 17, or 60%, have made financial commitments to the Clinton Foundation, totaling tens of millions of dollars, or sponsored speeches by Bill Clinton

Russians tied to Skolkovo also flowed funds to the Clinton Foundation. Andrey Vavilov, the chairman of SuperOx, which is part of Skolkovo's nuclear-research cluster, donated between \$10,000 and \$25,000 (donations are reported in ranges, not exact amounts) to the Clinton's family charity

More from the WSJ op-ed: The state-of-the-art technological research coming out of Skolkovo raised alarms among U.S. military experts and federal law-enforcement officials. Research conducted in 2012 on Skolkovo by the U.S. Army Foreign Military Studies Program at Fort Leavenworth declared that the purpose of Skolkovo was to serve as a vehicle for world-wide technology transfer to Russia in the areas of information technology, biomedicine, energy, satellite and space technology, and nuclear technology. Moreover, the report said: the Skolkovo Foundation has, in fact, been involved in defense-related activities since December 2011, when it approved the first weapons-related project the development of a hypersonic cruise missile engine. . . . Not all of the center's efforts are civilian in nature

The FBI believes the true motives of the Russian partners, who are often funded by their government, is to gain access to classified, sensitive, and emerging technology from the companies. The [Skolkovo] foundation may be a means for the Russian government to access our nation's sensitive or classified research development facilities and dual-use technologies with military and commercial application.

The Canadian mob is Jewish and headquartered in Montreal. Keep in mind Montreal is where MKUltra doctor Ewan Cameron developed the basis of mind control to be used by the CIA. CIA is a known Zionist/Bush/Clinton Crime family/British Royalty extension of MI6, so this is relevant. Montreal was ruled by an anglo minority after the British routed the French from North America. Was more overtly apartheid-like until the 1960s but even then you would have a Quebecois frontman (called a 'vendu' as slang-sellout) ruled by the anglos behind the scenes.

New book on the Clintons (seems to be quite favourable to them) written by: "Gil Troy is a professor of history at McGill University. Originally from Queens, New York, he is the author of ten previous books."

Here's the concluding paragraph of the summary of the report, it basically admits none of the gold was returned and they have no gosh darn idea where it went but gee we should be proud of our efforts:

"With the lifting of all conditions restraining foreign gold on earmark in Ottawa after the war, there was no rush by neutral central banks to clear out their accounts in Ottawa. In fact, all parties to the wartime swaps maintained their Ottawa earmarks well into the peace, often increasing their balances.

Throughout all these transactions, officials at the Bank of Canada, usually in consultation with officials at the Department of Finance and the Bank of England, exhibited due diligence in handling these transfer requests from Europe. The co

next of the times must be borne in mind. These transactions took place at the height of the war, when the pressures of wartime decision-making bore heavily on Ottawa's mandarins. These gold swaps between friendly and neutral central banks constituted fleeting decisions in a myriad of wartime challenges and must be seen in this light. By and large, the decisions taken around Canada's custodianship of foreign gold earmarked in the Bank of Canada conform to the stereotype of the cautious, deliberate and well-balanced demeanour of the senior bureaucrats who have come to be known by history as the "Ottawa men." They never possessed the absolute knowledge or the power to eliminate any possibility that Ottawa might facilitate the movement of looted gold, but their instincts led them to policies that made that possibility remote. In this sense, Canadians can take justifiable pride in the efficient manner in which the rather prosaic service of earmarking of gold was turned to commendable Allied and, at times, humanitarian ends during the war."

Straight from the horses' mouth, they don't know what they could have done with 2600 tons of gold.

More Canadian connections: It seems like former NB premier, Ambassador to US, Carlyle group member and current TD bank deputy chairman Frank McKenna knows both the Bushes and Clintons really well.

From wikipedia:

"Frank McKenna is referred to in the book "Clinton Cash" by Peter Schweizer. The majority of the reference is regards to the Keystone Pipeline decision making process. Hillary Clinton serving as secretary of State in the United States, and the monetary involvement with TD Bank in Canada is described in depth. The book describes TD Bank, with Frank McKenna as vice chairman, as having "paid Bill more than any other financial institution for Lectures. More than Goldman Sachs, UBS, JPMorgan, or anyone on Wall Street". Quoting from the book, "TD Bank paid Bill \$1.8 million for ten speeches over a roughly two-and-half-year period from late 2008 to mid-2011."

"At several of the speeches, (Bill) Clinton was introduced, or interviewed by TD Bank vice chairman Frank McKenna. Frank McKenna is described as a "good friend of both Bill and Hillary Clinton".[9]"

and finally, the weirdest one I've seen so far: why are they so worried? Is this a smoking gun? We can learn the truth from what people most vehemently deny:

"Canadian officials are vexed that 3 1/2 years later, they have not dispelled the groundless claim that Canada was a route for the Sept. 11 hijackers. Frank McKenna, the new ambassador to the United States, calls it an "urban myth" and has been trying to beat it down in television interviews and letters to the editor. "It took on a life of its own, like a viral infection," McKenna said in a teleph

one interview from Washington.

Here a few tidbits on Trudeau, Gerald Butts, and their close relationship with Obama czar Larry Summers.

Cross-pollination can only do so much for a leader The Globe and Mail Metro (Ontario Edition) 10 Mar 2016

"Long before Justin Trudeau travelled to Washington, his circle had travelled with Barack Obama's Obama people and Trudeau people started working together years ago, and the lessons learned from those connections were key to Mr. Trudeau's success. Now there's an Obama-Trudeau club. It counts right now.

When he's outside the White House in Washington this week, Mr. Trudeau will mostly be at two events co-hosted by the Center for American Progress (CAP), a big think tank that's a leading force in Obama-Democrat politics. The first reception for Mr. Trudeau on Wednesday night, where Obama Democrats and Trudeau Liberals mingled, was one of those. That's no accident.

The centre, founded by former Clinton and Obama adviser John Podesta, doesn't confine its cause to the United States. It started something called the Global Progress Initiative to link up with similar left-leaning organizations around the world. Canada 2020, an outfit with lots of Liberal links that's now headed by close Trudeau friend Tom Pitfield, became the Canadian hub. Now it is cohosting Mr. Trudeau's events in Washington with CAP."

^What and who are Canada 2020? What is John Podesta doing with Global Progress initiative? Who is Tom Pitfield?

"The North American Union (NAU) is here. The same people who ran Senator Barack Obama's campaign for president are running Canadian Liberal Leader Justin Trudeau's campaign for Canadian Prime Minister."

"While our political stability and huge resource base are major advantages, we have lost ground by failing to manage social and environmental issues effectively. UKRAINE, PINCHUK, AND THE MIDDLE EAST (thank you Finland anon)

Ukraine was an "inside job" orchestrated by the US department of state.

Many of the top officials in the state department have financial ties to a Ukrainian uranium (recall that HRC sold US Uranium rights already to Russia and then conveniently received donations to her foundation) and oil company.

Had the former Ukrainian President (Viktor Yanukovych) made closer ties with Russia then it would have destroyed the money-funneling system ran through the oil company. Thus, Ukraine had to revolt.

- 4) and lastly Hillary Clinton/Clinton Foundation

>Here is what we know:

Burisma is a Ukrainian oil and uranium company. It is owned by the former Ukrainian minister, Nikolai Zlochevski (basically was 2nd in command to the Ukrainian pro-Russian before he was ousted).

The former Ukrainian president wanted closer ties to Russia. This would have ruined the Burisma company and thus Nikolai wanted to stop closer ties with Russia. Nikola funneled money from his company to Clinton in exchange for helping overthrow the Ukrainian president.

>*MIC DROP*

Addendum: Exxon Mobil also donated \$1 million to \$5 million to the Clinton Found

ation.

>The Clinton foundation is also linked directly to ukrainian oligarchs:
Between 2009 and 2013, including when Mrs. Clinton was secretary of state, the Clinton Foundation received at least \$8.6 million from the Victor Pinchuk Foundation, according to that foundation, which is based in Kiev, Ukraine. It was created by Mr. Pinchuk, whose fortune stems from a pipe-making company. He served two terms as an elected member of the Ukrainian Parliament and is a proponent of closer ties between Ukraine and the European Union.

In 2008, Mr. Pinchuk made a five-year, \$29 million commitment to the Clinton Global Initiative, a wing of the foundation that coordinates charitable projects and funding for them but doesn't handle the money. The pledge was to fund a program to train future Ukrainian leaders and professionals to modernize Ukraine, according to the Clinton Foundation. Several alumni are current members of the Ukrainian Parliament. Actual donations so far amount to only \$1.8 million, a Pinchuk foundation spokesman said, citing the impact of the 2008 financial crisis.

The Pinchuk foundation said its donations were intended to help to make Ukraine a successful, free, modern country based on European values. It said that if Mr. Pinchuk was lobbying the State Department about Ukraine, this cannot be seen as anything but a good thing.

More about the Pinchuk-Clinton connection, also bringing the Tony Blair foundation onboard:

Ukrainian oligarch Victor Pinchuk, 54, has courted the Clintons for at least nine years in the United States, the Alps and Ukraine.

Earlier this year, he was confirmed as the largest individual contributor to the Clinton Foundation, whose aims include the creation of economic opportunity and growth. He also has links to the Tony Blair Foundation and represented its biggest single donor in 2013.

About Pinchuk's business to Iran:

"Among a number of high-value invoices for products related to rail or oil and gas, one shipment for \$1.8m (1.7m) in May 2012 was for seamless hot-worked steel pipes for pipelines and destined for a city near the Caspian Sea. Both the rail and oil and gas sectors are sanctioned by the US, which specifically prohibits any single invoice to the Iranian petrochemical industry worth more than \$1m."

Also:

"Pinchuk became particularly friendly with Bill Clinton. In 2010, he invited the former president to his 50th birthday party in the French ski resort of Courchevel. In return, Pinchuk attended Clinton's 65th in 2011, and was a guest at the inauguration of Clinton's Presidential Library. The Clintons spoke at Pinchuk's Yalta European Strategy conference, which seeks integration between Ukraine and Europe."

More contributors to Hillarys cause:

"Soros, a top contributor to the Clinton Foundation, was one of several major donors whose messages were disclosed by the State Department last week as part of the ongoing release of the former secretary's e-mails. Other exchanges included references to entertainment mogul Haim Saban, who has said he would pay whatever it takes to propel Clinton to the White House in 2016, as well as other major Clinton Foundation donors such as Microsoft's Bill Gates, fashion industry executive Susie Tompkins Buell and Ukrainian steel magnate Viktor Pinchuk."

MONEY LAUNDERING AND SLUSH FUND (thanks Texasbro)

More evidence of The Clinton Foundation Being used for Money Laundering and a Slush Fund:

<http://www.dailymail.co.uk/news/article-3659123/Slush-funds-pay-personal-consultant-Huma-Abedin-luxe-Caribbean-holiday-daughter-Chelsea-payoffs-silence-Bill-s-ex-accusers-Hillary-used-donations-Clinton-Foundation-personal-piggy-bank.html>

tl;dr on The Clinton Foundation Money Laundering:

1. You create a separate foreign charity. In this case one in Canada.
2. Foreign oligarchs and governments, then donate to this Canadian charity. In this case, over 1,000 did - contributing mega millions. I'm sure they did this out of the goodness of their hearts, and expected nothing in return. (Imagine Putin's buddies waking up one morning and just deciding to send untold millions to a Canadian charity).
3. The Canadian charity then bundles these separate donations and makes a massive donation to the Clinton Foundation.
4. The Clinton Foundation and the cooperating Canadian charity claim Canadian law prohibits the identification of individual donors.
5. The Clinton Foundation then "spends" some of this money for legitimate good works programs. Unfortunately, experts believe this is on the order of 10%. Much of the balance goes to enrich the Clinton's, pay salaries to untold numbers of hangers on, and fund lavish travel, etc. Again, virtually all tax free, which means you and I are subsidizing it.
6. The Clinton Foundation, with access to the world's best accountants, somehow fails to report much of this on their tax filings. They discover these "clerical errors" and begin the process of re-filing 5 years of tax returns.
7. Net result -- foreign money, much of it from other countries, goes into the Clinton's pockets tax free and untraceable back to the original donor

EPSTEIN

Lads, I think I've stumbled upon something huge. It s about The Clinton Foundation 's link to Jeffrey Epstein.
Apparently, the Clinton Foundation received 25,000 Dollars from Epstein:
<http://www.weeklystandard.com/clinton-foundation-accepted-25000-from-known-pedophile/article/823330>

>Clinton Foundation Accepted \$25,000 from Known Pedophile

>On July 18, 2006, the Clinton Foundation received a \$25,000 check from the C.O.

U.Q. Foundation, whose president was known pedophile Jeffrey Epstein, a friend of Bill Clinton. >The donation is revealed in the C.O.U.Q. Foundation's 990 tax form, filed with the IRS.

>Others have previously reported that Epstein and Clinton parted ways in 2005, as the New York Post did, due to Epstein's legal problems:

>Clinton apparently turned his back on Epstein in 2005 the year the financier was first arrested for receiving an erotic massage from a minor, according to the 2011 court records, related to a suit brought by women who claimed the businessman abused them.

>Before that, Clinton was a frequent flier on the moneyman's private jet.

> The documents clearly show that Clinton flew with Epstein and then suddenly stopped, raising the suspicion that the friendship abruptly ended, perhaps because of events related to Epstein's sexual abuse of children, the documents state.

>In July, a source close to Trump told Politico that there was no formal relationship between the Trump and Epstein. And in January, a Trump spokesman told Gawker that the candidate only knew Epstein because he would occasionally go to the Trump-owned Mar-a-Lago, "the hottest and most luxurious club in Palm Beach. And Epstein's former houseman, Juan Alessi, testified that while Epstein's lawyer Alan Dershowitz received massages at the Palm Beach mansion, Trump never did because he's got his own spa. (Dershowitz has in court papers categorically denied any untoward behavior, calling allegations against him salacious and false.)

>Alessi testified that Trump would come over to Epstein's home for dinner though he added that Trump never sat at the table but instead ate with me in the kitchen. Trump flew on Epstein's private jet once to go to New York, but it was while Epstein's brother was present.

>In 2009, Trump was subpoenaed in a case against Epstein concerning victim Virginia Roberts. Trump's attorney Alan Garten said that the subpoena "never happened."

>Donald Trump once barred child molester Jeffrey Epstein from his famed Mar-a-Lago club after the presidential candidate caught him hitting on young girl, Radar Online.com has learned.

>A lawyer of Epstein victim Virginia Edwards had a conversation with Trump.

During the conversation, Mr. Trump was open and forthright, Edwards said. I cannot discuss the substance of the conversation. But I will say that it was obvious to me that he was in no way involved in any untoward activity.

> It was obvious that Trump himself was not involved in any of Epstein's illicit activity, an associate of the inevitable GOP nominee told Radar. Case. Closed.

So reading more and more on Jeffrey Epstein, all accounts seem to point to the fact that he is extremely confident in himself, pretty much cocky. Despite the fact that he has been fooling around with underage girls and knowingly.

<http://nymag.com/news/features/41826/index3.html>

<http://radaronline.com/exclusives/2015/02/jeffrey-epstein-secret-clinton-donation/>

This has me worried. Wouldn't he be a lot more secretive and careful about his actions? Like, making threats to the girls he fools around with so they won't talk to police?

Wouldn't he be exclusively be working in sex trafficking with slaves, who can't even talk to police? Or is he just that stupid and thirsty that he needs new girls all the time?

Perhaps nowadays that's all he works in is slave trading.

BILL CLINTON

Bill gave a speech in Miami Florida on February 7, 2002 to a group called WIZO, some women's Zionist organization. Afterward, he was picked up by Epstein and flown back to New York, but on January 31, 2002, Bill gave a speech to a group called The Educational Institute of the AHLA - the American Hotel and Lodging Association. The Clinton's financials list the address of the AHLA as being in Santa Barbara, CA.

But there's just one problem with that: the AHLA's HQ is in Orlando, FL.

According to the AHLA's website, they started in Lansing, MI, then moved HQ to Orlando, and the office of educational sales, publication, and fulfillment stayed in Lansing. (<https://www.ahlei.org/About/>)

So why would Bill be giving them a speech in Santa Barbara? He had to have been in Orlando for the speech, but why didn't he say so on his financials?

According to the National Center for Missing and Exploited children, a 13 year old girl named Uma Sewpersaud went missing on January 28, 2002, from ORLANDO, FLORIDA. She (<http://www.missingkids.com/poster/NCMC/1163894/1>)

That is 3 days before Bill's speech to the AHLA. About a week later, Bill shows up on Jeffrey Epstein's flightlogs headed to an airport in Westchester County New York, near Bill and Hillary's home. Also appearing on the flight log are 4 secret service agents, Jeff, the initials GM, SK, and AP, as well as "2 males and 1 female." (<https://www.documentcloud.org/documents/1507315-epstein-flight-manifests.html>)

All 3 of them disappear from the flightlog, as do Bill Clinton and the secret service agents, when they land in Westchester. Haven't found anything on 2 males, yet.

Here's another one. Bill flew with Epstein on May 22, 2002, this time with no secret service agents.

He was picked up at Atsugi Naval Air Facility, along with Doug Bands - Clinton's former personal assistant - Pete Rathgeb - at the time Head of Risk Controlling & Credit Rating at Siemens Financial Services, currently CFO of Siemens Bank (<http://finance.siemens.com/financialservices/global/en/siemens-bank/managing-board/content/pages/dr-peter-rathgeb.aspx>)

- Ghislaine Maxwell, and Sarah Kellen - both madames - and two girls - Janice and Jessica.

They traveled all over the place.

On May 22, they left Atsugi Naval Air Facility and arrived at Hong Kong on the 23rd. From Hong Kong they went to Shenzhen, China and then to Singapore, all on the 23rd. They stayed in Singapore for two days before leaving for Bangkok, Thailand and on the 25th (I wonder what there is to do there). That same day they left Bangkok and went to Brunei where Bill, Doug, Jessica, Janice, et al, were dropped off. Jeff stayed until May 27th, and then he and the madames.

According to Page Six, before the end of 2002, the Sultan of Brunei donated between \$1 and \$5 million to the Clinton Foundation.

(<http://pagesix.com/2015/02/04/bill-clintons-shady-friendships-outed-by-tabloids/>)

Bill Clinton was really big on handicapping the US intelligence agencies during his presidency as well. A lot of this is what allowed AQ/OBL to get as big as they did, and possibly part of what led 9/11 to be easier for them to pull off. And a lot of stuff recently as indicated Saudi government directly funded the operation.

The twitter account that posted it is a Donald Trump supporter who made his account during the Amon Bundy ranch mess, to support him and troll SJW people.

What we know, the leaders of BLM were hacked, and they have met with white house officials at the end of this last year. We can assume "Mrs Lynch" is Loretta Lynch the Attorney General of the WH. What we also know is that Obama signed something into executive order this last year that lets him bring in Foreign UN/NATO armies onto US soil, if martial law is declared, we also know that the UN/NATO is now TOTALLY leftist. I am sure I don't have to explain what Martial Law is, or how it sets off the elections and postpones them.

We also know that Cleveland RNC just purchased 2000 full riot suits and 340 semi riot armor sets for bicycle cops. (in Cleveland newspaper)

What we also know is the Philadelphia DNC and the city just changed a bunch of laws, allowing people to block streets, smoke weed in the streets, gather in large numbers to protests and several other things that make rioting much easier, including not being arrested but given fines for anything not a felony. (in Philadelphia newspaper.)

What we also know, change.org and opensociety.org are offering 15\$ an hour on the Craigslist for both cities to protest these conventions, we also know Soros is following a plan for colored revolutions and BLM can use social media to call for more of this on a nation wide level.

The scariest thing the number of people who have agreed to protest both of these conventions ranges from 20,000 - 30,000.

FUCKH8 FALSE FLAG

This is from last year's research when that FUCKH8 false flag was happening
<http://i.imgur.com/IRsjnHW.png> (large images)

HOW TO RIG ELECTIONS

This needs to make it out into the general awareness:
>Fractionalized vote:
>Instead of 1 the vote is allowed to be 1/2, or 1+7/8, or any other value that is not a whole number.
>What fractionalized votes can do:
>They allow weighting of races. Weighting a race removes the principle of one person-one vote to allow some votes to be counted as less than one or more than one. Regardless of what the real votes are, candidates can receive a set percentage of votes. Results can be controlled. For example, Candidate A can be assigned 44% of the votes, Candidate B 51%, and Candidate C the rest.
><http://blackboxvoting.org/fraction-magic-1/>

This is how electronic voting gets rigged. Instead of a 1:1 ratio of vote:person

n, each person's vote can be reduced or increased by a percentage built into the software.

In other words, 25 people can be counted as 2500 votes or 2500 people can be counted as 25 votes depending upon how the software is configured. These machines are already known to be compromised.

>Source code: Instructions to treat votes as decimal values instead of whole numbers are inserted multiple times in the GEMS source code itself; thus, this feature cannot have been created by accident.
The code was made to be able to manipulate voter totals.

>The GEMS central tabulator program is incorrectly designed and highly vulnerable to fraud. Election results can be changed in a matter of seconds. Part of the program we examined appears to be designed with election tampering in mind. We have also learned that election officials maintain inadequate controls over access to the central tabulator. We need to beef up procedures to mitigate risks.
><http://www.ejfi.org/Voting/Voting-37.htm>

>In order to engage in voter suppression, it is important to be very accurate in knowing which voters to suppress. The best possible way to compile such a list is to vet two or more separate databases against each other. Sanders had one, Clinton had two and the DNC had a third. We may never know the truth about the third because of a recent removal of a key potential witness from this mortal coil.

>Sunday Morning July 10 at 4:19, Seth Rich, a key DNC staffer in charge of voter databases was murdered right outside his home in Washington DC. As Fitrakis, Johnson, other election integrity activists and their paralegals were exchanging final emails prior to filing Seth Rich was murdered. There are no witnesses, no suspects, his wallet and cellphone were recovered at the scene and the DC Metro police are pursuing all possible motives.
><http://www.mockingbirdpaper.com/content/local-activist-files-suit-access-exit-polling-data-dead-witness-blocks-path-truth>

Seth Rich had two ties directly to the Clinton Machine other than working as the Data Director for Voter Expansion.

The voting software uses floating point numbers to count votes, it's not a 1:1 vote:person, it can be any decimal value they determine.

>Source code: Instructions to treat votes as decimal values instead of whole numbers are inserted multiple times in the GEMS source code itself; thus, this feature cannot have been created by accident.
><http://blackboxvoting.org/fraction-magic-1/>
>https://www.usenix.org/legacy/event/evt07/tech/full_papers/ryan/ryan_html/index.html

>But it appears float values are being used, which is either an extreme waste of memory/processor time that indicates a thorough lack of expertise on the part of the programmers, or an attempt to allow fractional or weighted voting.

><http://blackboxvoting.org/fraction-magic-part-6/>
<http://blackboxvoting.org/fraction-magic-4/>

>Although we could have simply changed the few numbers on this Summary Results Report, we chose a more elaborate plan. We used a spreadsheet to create vote percentages for each polling place, resulting in changing Kerry's overall percentage from 34.73% to 55.24%, and Bush from 61.88% to 43.66%; we chose to give all remaining votes to Badnarik. Even though we changed over 200,000 votes in hundreds of different locations, we were able to achieve this in just a few seconds. Because it can be done so quickly, Fraction Magic can be performed as often as necessary on Election Night.

Jesus Christ, this is spooky.

BRIAN RAVEN, TAVISTOCK AND TALOS PROPERTIES

I've been researching Brian Raven and his board memberships with various companies. In the process I discovered BlackSquare Capital LLP. In trying to investigate this company I stumbled across a magic address.

9 Clifford Street London, -- W1S 2FT
<https://www.google.com/maps/@51.5107761,-0.14212,3a,75y,343.02h,89.15t/data=!3m6!1e1!3m4!1sN168eAdMt1eCzcjHfMRMPg!2e0!7i13312!8i6656!6m1!1e1>

There are 128 companies registered between 7 and 9 Clifford Street with a combined net worth of over £3,000,000,000. Most of them have no employees. Some of them are the shareholders of the others. Many of them have received massive cash injections within the last year.

Let me give you an example:

<http://www.endole.co.uk/company/08606402/talos-properties-limited>

Talos Properties limited received 7.28m in the last year and increased its value by (276.39%). With a staff comprised of the world's busiest man:

<http://www.endole.co.uk/profile/8476548/simon-trevor-lloyd>

Mr Simon Trevor Lloyd aged 55, is a director in 43 companies. Simon has resigned from 36 of these appointments.

This is a massive money laundering network with the bulk of the money being controlled by an American named Jamie Cooper, former wife of Sir Chris Hohn the billionaire under the guise of a non-profit called The Children's Investment Fund Foundation.

<http://philanthropies.org/christopher-hohn-jamie-cooper-hohn/>

The Clinton Foundation has listed CIFF among seven organizations from which it received more than \$25 million.

This would have been totally invisible until Endole started making a geographic map.

I want to be clear, Brian Raven is listed as the Chairman of Black Square LLP by Bloomberg.

<http://www.bloomberg.com/profiles/people/18737707-brian-raven>

BlackSquare Capital LLP, the company that Brian Raven (Group CEO of Tavistock) was as chairman of starting in 2010. He oversaw £140,000,000 in assets in 2009 shed value down to £49,000,000 which was revealed by an audit of what the LLP actually controlled. Meanwhile they'd been posting an operating profit on the LLP in 2009 of £257,000 for the LLP since it was only managing the funds of its three clients: BlackSquare Capital Access Fund, BlackSquare Capital Fund LP and IFSL BlackSquare

e Capital Fund in the Cayman Islands.

Keep your eyes open on these names they all have something oddly matching

Mr Simon Trevor Lloyd

Could this all be related to the club of 300?

https://en.wikipedia.org/wiki/Committee_of_300

SOME CONTEXT

It's all there in the public tax and incorporation filings. Bloomberg sourced Raven as chairman of BlackSquare LLP and the fact that there are 128 companies worth over £3 billion incorporated at the addresses of two townhouses sharing that same address isn't just some fantasy. There's tax filings proving all of it and forcing it to be a matter of public record.

People often setup shell company networks at a single address and declare the same few people to be the necessary key staff for the incorporation over and over.

Something that is also readily present among the 128 companies list at the two addresses.

The fact that the Clinton Foundation received \$25 million from this maze of money laundering is also public record. The connections between the Clinton Foundation and CIFF begin with a \$10,000,000 donation in April of 2005. They have a long, established relationship.

The fact that CIFF Trading Limited has both Simon Trevor Lloyd and Jamie Cooper as directors means that Jamie is clearly involved. Trevor's the one who has racked up the director title for 43 companies and counting since CIFF was founded.

If Brian Raven wasn't the chairman of yet another company at the same address it might just look like Cooper was laundering money. But the fact he implicates Tavistock's group CEO in being involved with the scheme.

This isn't some tinfoil hat conspiracy. It's fact backed with credible sources on every point.

ABOUT SHELL COMPANIES

<http://www.endole.co.uk/explorer/company/postcode/wls-2ft>

They're shell companies that exist to receive assets controlled by the LLPs as cash injections. Sometimes they inherit assets like real estate or various forms of tangible goods. The asset controller is in the Cayman Islands, the asset manager is an LLP there at Clifford.

There are people who specialize in spinning up bogus incorporations that they sell off or hire in buyers as directors then resign from. Adrian Joseph Morris Levy and his associates are among them.

<http://www.endole.co.uk/profile/8317388/adrian-joseph-morris-levy>

We have records of people joining these shell companies for as little as a day, entering in director to make a controlling action with a shareholder position over another shell company under the group structure. It's absolute labyrinth of accounting designed to launder money under the guise of a children's charity.

TAVISTOCK AND CENTRAL BANKS:

>SECRETS OF THE FEDERAL RESERVE

>The interest rate set by the Bank of England is known as "the Bank rate", and it is a controlling factor in interest rates throughout the world, although rates in other countries may be higher or lower than this "Bank rate". The Bank of England manages the government debt, and is called upon to arbitrate in political affairs. It served as the intermediary with the Iran revolutionaries in negotiating for the return of the American hostages--a recent example.

>The present directors of the Bank of England (1982) include Leopold de Rothschild of N.M. Rothschild & Sons, Sir Robert Clark, chairman of Hill Samuel Bank, the most influential bank after Rothschilds, John Clay, of Hambros Bank, and David Scholey, of Warburg Bank, and joint chairman of S.C. Warburg Co.

Well, you may ask, wtf does this have to do with Tavistock?

>Few Americans know that almost every development in psychology in the United States in the past sixty-five years has been directed by the Bureau of Psychological Warfare of the British Army. A short time ago, the present writer learned a new name, The Tavistock Institute of London, also known as the Tavistock Institute of Human Relations. "Human relations" covers every aspect of human behavior, and it is the modest goal of the Tavistock Institute to obtain and exercise control over every aspect of human behavior of American citizens.

>The Tavistock Institute was taken over by Sir John Rawlings Reese, head of the British Army Psychological Warfare Bureau....

>James Paul Warburg (son of Paul Warburg who had written the Federal Reserve Act in 1910), financed a subsidiary of the Tavistock Institute in the United States called the Institute for Policy Studies, whose director, Marcus Raskin, was appointed to the National Security Council. James Paul Warburg set up a CIA program

to experiment with LSD on CIA agents, some of whom later committed suicide. This program, MK-Ultra, supervised by Dr. Gottlieb, resulted in huge lawsuits against the United States Government by the families of the victims.

>The Institute for Policy Studies set up a campus subsidiary, Students for Democratic Society (SDS), devoted to drugs and revolution. Rather than finance SDS himself, Warburg used CIA funds, some twenty million dollars, to promote the campus riots of the 1960s.

>The English Tavistock Institute has not restricted its activities to left-wing groups, but has also directed the programs of such supposedly "conservative" American think tanks as the Herbert Hoover Institute at Stanford University, Heritage Foundation, Wharton, Hudson, Massachusetts Institute of Technology, and Rand. The "sensitivity training" and "sexual encounter" programs of the most radical California groups such as Esalen Institute and its many imitators were all developed and implemented by Tavistock Institute psychologists.

>Did you just connect Tavistock to MK-Ultra, of all things?
Yep, that's something that's been known about in the tinfoil circles for quite some time.

This is where more attention needs to be paid:
>the Tavistock Institute in the United States called the Institute for Policy Studies

>As Washington's first progressive multi-issue think tank, the Institute for Policy Studies (IPS) has served as a policy and research resource for visionary social justice movements for over four decades from the anti-war and civil rights movements in the 1960s to the peace and global justice movements of the last decade. Some of the greatest progressive minds of the 20th and 21st centuries have found a home at IPS, starting with the organization's founders, Richard Barnett and Marcus Raskin. IPS scholars have included such luminaries as Arthur Waskow, Gar Alperovitz, Saul Landau, Bob Moses, Rita Mae Brown, Barbara Ehrenreich, Roger Wilkins and Orlando Letelier.

BLACKSQUARE, CIFF (CHILDREN S INVESTMENT FUND FOUNDATION), TAVISTOCK INSTITUTE, AND SHELL COMPANIES

The Children's Investment Fund is a charity founded by Jamie Cooper with the investment of her husband at the time Chris Hohn. It has many tendrils of sub-divisions, some of which are legitimate and some of which are not. The co-directed companies of Jamie Cooper and Simon Trevor Lloyd include shell companies manufactured by Adrian Joseph Morris Levy.

<http://www.endole.co.uk/profile/8317388/adrian-joseph-morris-levy>

In the past 11 years, has created over 1,200 companies and resigned from them. He manufactures shell organizations like Talos Properties Limited, which can then go on to receive massive cash injections from assets in the Cayman Islands. The CIFF has been doing business with the Clinton Foundation since 2005 when it acted to provide a \$10,000,000 donation to support a charity. What you're not seeing in the wake of donation there's asset growth for CIFF. Billions. How?

Because of shell organizations like BlackSquare Capital LLP, the company that Brian Raven (Group CEO of Tavistock) was chairman of starting in 2010. He oversaw £140,000,000 in assets in 2009 shed value down to £49,000,000, revealed by an audit of the LLP's client assets. They'd posted an operating profit on the LLP in 2009 of £257,000 for the LLP since it was only 'managing' the funds of its three clients: BlackSquare Capital Access Fund, BlackSquare Capital Fund LP and IFSL BlackSquare Capital Fund in the Cayman Islands. As a note, Brian Raven brought Ben Raven into the 'failing' LLP in 2011.

<https://beta.companieshouse.gov.uk/company/OC313413/filing-history>

BlackSquare put a massive amount of asset wealth into the control of the LLP which used the operational loss to launder funds through to the different organizations within the Clifton Collective. That is where the surprise cash injections into these shell companies keep coming from. Once the process is complete the LLP is dissolved, another one adopted and the cycle repeats.

As this process goes on CIFF is involving itself charitably with the Clinton Foundation. The more they give, the more they seem to get in return. Their most recent donation was \$25,000,000.

CIFF has been funneling in funds from the Cayman islands through managing LLPs that CIFF has director positions in. These high value funds lose their managed value gradually and dissolve while shell corporations like Talos receive huge cash injections. Assets are being passed around within the shareholder organization.

BlackSquare Capital LLP, the company that Brian Raven (Group CEO of Tavistock) was chairman of starting in 2010. He oversaw £140,000,000 in assets in 2009 shed value down to £49,000,000 which was revealed by an audit of what the LLP actually controlled. Meanwhile they'd been posting an operating profit on the LLP in 2009 of £257,000 for the LLP since it was only 'managing' the funds of its three clients: BlackSquare Capital Access Fund, BlackSquare Capital Fund LP and IFSL BlackSquare Capital Fund in the Cayman Islands. For those looking into CIFF:

>Hedge fund boss in £337m divorce sets up new charity after stopping

>The billionaire hedge fund boss Sir Chris Hohn has quietly set up a new charity, having decided to stop funding his estranged wife's Children's Investment Fund Foundation.

>During his divorce proceedings in July, Mr Hohn told the Family Division of the High Court that he had decided he no longer wanted to give money to the CIFF a decision borne out by figures filed today showing his hedge fund gave the charity just £4.8m last year. The previous year it gave £14.2m. Mr Hohn told the court he habitually gave 98 per cent of the money he could reasonably afford to the foundation.

>His new charity, The CH Foundation (UK), is aimed at helping alleviate poverty and the effects of human trafficking and organised crime in the Indian subcontinent. It also aims to promote health and education in Jamaica, where Mr Hohn's car mechanic father was born.

TAVISTOCK INSTITUTE

Some background coincidences, maybe they mean something, maybe they mean nothing

.
>The Tavistock Institute in London was set up as a splinter organization from the Tavistock Clinic via funding from the Rockerfellers.
>It had original Frankfurt School leaders as founders
>It's ostensible remit was psychoanalysis as it relates to ORGANISATIONAL BEHAVIOUR and GROUP BEHAVIOUR.
>The Tavistock Institute has been associated with conspiracy theories for decades. Chiefly, that the Institute promotes degeneracy to destroy society and control World culture (John Coleman - Aquarian Conspiracy)
>There are clear linkages to say that the Tavistock Institute set up the ADL (http://www.larouchepub.com/eiw/public/1996/eirv23n18-19960426/eirv23n18-19960426_038-how_tavistock_helped_the_adl_mak.pdf)

The Big Lie of the Therapeutic State

>"There will be, in the next generation or so, a pharmacological method of making people love their servitude, and producing dictatorship without tears, so to speak, producing a kind of painless concentration camp for entire societies, so that people will in fact have their liberties taken away from them, but will rather enjoy it, because they will be distracted from any desire to rebel by propaganda or brainwashing, or brainwashing enhanced by pharmacological methods. And this seems to be the final revolution." -- Aldous Huxley, Tavistock Group, California Medical School, 1961

CLAUDIO ORSINO

>The second Clinton/State Department scheme uncovered by NLPC involves Clinton Foundation donor Claudio Osorio, who now sits in a federal penitentiary, serving a 12-year term for fraud. In 2013, he was convicted of bilking 10 investors out of \$40 million and the federal government out of \$10 million.

>In 2010, both Clintons pushed for a \$10 million loan from the Overseas Private Investment Corporation (OPIC) to a company owned by Osorio called InnoVida. The loan was supposedly for building houses in earthquake-ravaged Haiti, but Osorio instead used the money to fund a lavish lifestyle and to buy off politicians.

>The loan was rushed through and Osorio was never required to provide an audited financial statement. Documents uncovered by NLPC show that Bill Clinton lined up a well-connected law firm to represent Osorio with OPIC, and Hillary Clinton went to bat for the project within the State Department. OPIC is technically an independent agency but submits its budget through the State Department.

>InnoVida also hired Clinton insider Jonathan Mantz to lobby for the loan, paying his firm \$300,000 in 2009 and 2010. Mantz was Hillary's 2008 finance director and currently is a key figure in Priorities USA, a pro-Hillary super PAC.

>Whereas Osorio s Ponzi-like scams have generated headlines, and even an American G
reed episode on CNBC, the Clintons' direct involvement in the OPIC loan had not b
een previously reported. It was discovered by NLPC Chairman Ken Boehm and Tom An
derson, director of NLPC s Government Integrity Project, while sifting through doc
uments at state and federal courthouses in Miami.

GONZALO TIRADO

>Mr. Tirado was president of and ran Venezuelan operations for the famously corr
upt Stanford Bank, which was headquartered in Antigua and was named for its Amer
ican founder, Allen Stanford. He and Mr. Stanford came to be extremely close and
were like father and son, one well-placed source told me.

>Mr. Stanford s name may ring a bell as he was sentenced to prison for 110 years f
or committing an \$8 billion Ponzi scheme. In 2006, the Hugo Chavez government wa
s asked to investigate Mr. Tirado by scandal-plagued, pro-Wall Street New York C
ongressman Gregory W. Meeks, a member of the House Committee on Financial Servic
es and a major recipient of cash and perks from jailbird Allen Stanford. Mr. Tir
ado was charged with tax evasion and theft, The Hill newspaper reported.

>Tirado soon fled for Miami to avoid prosecution and petitioned the State Depart
ment, through Mr. Mantz, for political asylum. It s not clear if he won asylum and h
e doesn t seem to merit it as he had no record of political opposition to the Chav
ez government but it is clear that he was allowed to remain in the U.S. and live a
life of luxury.

>Incredibly, the Obama administration not only failed to help the Chavez governm
ent investigate Mr. Tirado, but it also indicted a legendary former DEA agent na
med Tom Raffanello, a one-time head of the DEA s Miami office and the agency s chief
of congressional affairs during Bill Clinton s first term as president.

Mr. Raffanello s subsequent prosecution, which ended in abysmal failure, almost su
rely was prompted and abetted by Mr. Tirado, a secret FBI informant. the Justice
Department indicted a decorated former DEA agent Raffanello, who had tried to b
low the whistle on Tirado. The case against Raffanello was so weak, and so obvio
usly political, that the judge unilaterally acquitted him even before the jury r
eached a verdict. Until now, Raffanello has refrained from public comment but he

spoke to Silverstein and had plenty to say. Unsurprisingly, the vindicated Mr. Raffanello had few kind words for Mr. Tirado or Ms. Clinton during a recent interview.

> Tirado believed in buying influence, Mr. Raffanello said of the crooked financier. He wouldn't give away 10 cents that he didn't think he'd get back a dollar on. That was his entire philosophy.

>As for Ms. Clinton, he said that during her years in the Obama administration the prevailing wisdom in Miami at the time, among people in high profile civil and criminal defense circles, was that giving money to the Clinton Foundation was very helpful. She was secretary of state and a potential future president. I'm sure that's the same thinking now.

RAJIV K FERNANDO

A name that I came across months ago was Rajiv K. Fernando. Rajiv K. This implicates Cheryl Mills was the main reason he was able to get the position. Also, seems like media suspicion was talked about in some of these emails.

ALLTEL

Been looking into the clinton foundation website on the ol' wayback machine and the very first instances of the domain for their .org brings up ALLTEL in october 2000.

I wondered why the name ALLTEL seemed familiar to me then I remembered:
>Charles Wilbourne Miller: 63, was found dead of a gunshot wound to the head on November 17, 1998 in a shallow pit about 300 yards from his ranch house near Little Rock. Police found a .410 gauge shotgun near Miller s body and a Ruger .357-caliber revolver submerged in water. Investigators concluded the Ruger was the weapon used by Miller to kill himself. Yet, two rounds in the handgun s cylinder had been spent.

>He had long served as executive vice president and member of the board of directors for a company called Alltel and was deeply involved in his own software engineering company until the day he died. Alltel is the successor to Jackson Stephens Systematics, the company that provided the software for the White House s Big Brother data base system and that was behind the administration s plan to develop the secret computer Clipper chip to bug every phone, fax and email transmission in Am

erica.

>The Clintons, PROMIS, PRISM, Systematics, Inc. (later Altell):

Systematics - since purchased by Alltel - an Arkansas financial and technical firm headed by billionaire Jackson Stephens, has often been reported as the primary developer of Promis for financial intelligence use. Systematics through its various evolutions had been a primary supplier of software used in inter-bank and international money transfers for many years. Attorneys who have been connected to Systematics and Promis include Webster Hubbell, Hillary Clinton and the late Vince Foster.

PROMIS background:

>In the 1980's Inslaw, Inc developed a software program called PROMIS (Prosecutor's Management Information System) the Fed's took the software and modified and added backdoors to it.

>But the real power of PROMIS, according to Hamilton, is that with a staggering 570,000 lines of computer code, PROMIS can integrate innumerable databases without requiring any reprogramming. In essence, PROMIS can turn blind data into information. And anyone in government will tell you that information, when wielded with finesse, begets power. Converted to use by intelligence agencies, as has been alleged in interviews by ex-CIA and Israeli Mossad agents, PROMIS can be a powerful tracking device capable of monitoring intelligence operations, agents and targets, instead of legal cases.

> Richard L. Fricker, Wired magazine, 1993, "The INSLAW Octopus"

>Bin Laden's reported possession of Promis software was clearly reported in a Ju

ne 15, 2001 story by Washington Times reporter Jerry Seper. That story went unnoticed by the major media. In it Seper wrote, "The software delivered to the Russian handlers and later sent to bin Laden, according to sources, is believed to be an upgraded version of a program known as Promis - developed in the 1980s by a Washington firm, Inslaw, Inc., to give attorneys the ability to keep tabs on their caseloads. It would give bin Laden the ability to monitor U.S. efforts to track him down, federal law-enforcement officials say. It also gives him access to databases on specific targets of his choosing and the ability to monitor electronic-banking transactions, easing money-laundering operations for himself or others, according to sources."

Obama's uncle worked the very job Pia Farrenkopf worked prior to her obtaining that position.

>Pia led a life isolated from her family due to her commitment to her job. She had moved to Pontiac, Michigan from Little Rock, around 2006, and continued to work for Alltel under yet a new name: Fidelity National Information Services.

>At Alltel, Pia installed core banking systems across the globe. It wasn't unusual for family and friends to go months or longer without speaking to her. In fact, Pia's family and friends felt her job was such an important clue to her death that they reported to the press about an argument Pia had with her former boss.

TERRY MCAULIFFE

>Virginia governor Terry McAuliffe signed a controversial order into law which restored voting rights to more than 200,000 convicted felons in Virginia. At the time we noted McAuliffe's close relationship with Hillary, and opposition comments that his action "doesn't speak of mercy. Rather, it speaks of political oppor

tunism," and African American support in the state. All of which is by way of background as CNN reports today that McAuliffe is now being probed over questionable donations made to his campaign (from a Chinese businessman, Wang Wenliang) during his time as a board member of The Clinton Global Initiative. We have three simple words: quid pro quo?

>Wang also has been a donor to the Clinton foundation, pledging \$2 million.

TALOS PROPERTIES

The earlier mentioned Talos Properties with the obvious mass cash injection was originally formed with a man who immediately resigned the position named Adrian Joseph Morris Levy. This seemed odd since Simon Trevor Lloyd didn't appear to have any qualms with being director of over three dozen companies. Why have someone else spin it up?

<http://www.endole.co.uk/profile/8317388/adrian-joseph-morris-levy>

Mr Adrian Joseph Morris Levy aged 46, is a director in 997 companies and a secretary in 3 companies. Adrian has resigned from 998 of these appointments.

It appears Adrian offers a service where he spins up shell companies to hand-off. Doing so in London isn't to any tax benefit, though. This is purely about obfuscation of finances. Sort of like London's version of Mossack Fonseca.

MELINDA WALKER?

I may have found something.

Melinda Walker, a massage therapist in Santa Fe. The name "Melinda" appears in Epstein's little black book in the Massage - New Mexico section at the very end, page 91 of the PDF.

That HAS to be her. Think she'd know anything incriminating against Epstein or the CF?

Her business information is readily available on Groupon of all places. Think she'd be worth a contact? A 'masseur' might know more about this than many journalists could dig up.

How many other Melindas are anywhere near Zorro Ranch, and this one happens to be a professional massage therapist.

From PsychologyToday:

"Years in Practice: 20+ Years"

https://therapists.psychologytoday.com/rms/name/Melinda_L._Walker_MA,LPCC,CRS,BC_PC_Santa+Fe_New+Mexico_56571

Look at her specialties. This has Epstein and his twisted band of pedos written all over it. Likely she focused on this after bearing witness to JEp's scandals, and move to psychology as well as form of coping herself, and helping others through it.

It's all just wayyyy too coincidental.

Earlier, a >1 post by this ID tried to throw me off the trail, but that only confirms that this Melinda might know something, I'm just too pussy and normie to actually call, since there are no payphones where I live.

HILLARY S CONNECTION TO THE PANAMA PAPERS

<https://offshoreleaks.icij.org/search?utf8=%E2%9C%93&q=Clinton+Foudation&c=&j=&e=&commit=Search>

<http://nypost.com/2016/04/17/the-clintons-connection-to-the-panama-papers/>
>When the recently leaked Panama Papers exposed the existence of thousands of offshore bank accounts of the politically high and mighty, Hillary Clinton quickly decry them as outrageous tax havens for the super-rich.

>But it turns out that the Democratic presidential front-runner and her husband have multiple connections with people named in the papers including staffers and major donors, McClatchy Newspapers revealed Saturday night.

>Among those named in the papers as using the Panama-based law firm Mossack Fonseca to set up offshore entities are Gabrielle Fialkoff, who served as Clinton's finance director during her first campaign for the Senate in New York, according to a report published online at mcclatchydc.com.

>Fialkoff is also a senior adviser to Mayor de Blasio and director of the city's Office of Strategic Partnership.

>Another name from the papers is billionaire Frank Giustra, a Canadian mining magnate and longtime crony of Bill Clinton who has donated \$100 million to the Clinton Foundation.

>Yet another name from the paper is The Chagoury Group, an international developer based in West Africa that has pledged \$1 billion in projects to the Clinton Global Initiative.

>Additional names include Chinese billionaire Ng Lap Seng, who was at the center of a Democratic fund-raising scandal during the Clinton administration, and Marc Rich, the notorious international fugitive pardoned by Bill Clinton in his final hours as president in 2001, McClatchy reported.

>McClatchy Newspapers and some 350 other reporters under the umbrella of the International Consortium of Investigative Journalists have been pouring over a massive dump of more than 11.5 million Mossack Fonseca documents, revealing their first findings earlier this month.

PRIVATE FUNDRAISER, INFRASTRUCTURE BANK, AND THE CGI

>Leaked Audio: Hillary Clinton Calls at Private Fundraiser for Infrastructure Bank to Resemble Clinton Global Initiative

<http://freebeacon.com/politics/leaked-audio-hillary-clinton-calls-at-private-fundraiser-for-infrastructure-bank-to-resemble-clinton-global-initiative/>

>Hillary Clinton told donors at a private fundraiser in New York last Thursday that she plans as president to create a national infrastructure bank modeled on the Clinton Global Initiative, according to a recording of her remarks obtained by the Washington Free Beacon.

>This was the first time that Clinton, who has long supported the formation of a government-controlled bank to invest in national infrastructure projects, cited the Clinton Global Initiative the flagship arm of her family's controversial foundation as an investment model for her proposed bank.

>Clinton said CGI's public-private partnership with labor unions has created tens of thousands of jobs, and argued that a federal infrastructure bank could take on this type of project.

> Think of what we can do on a national scale, said Clinton.

>Clinton's plan for a national infrastructure bank dovetails with the financial interests of some of her most prominent supporters. Her comments could also give ammunition to critics who say that the Clintons' philanthropic operations, including CGI, have been plagued with conflicts of interest and financial mismanagement.

> I want to see if we can create what is called an infrastructure bank, said Clinton. It's like a revolving loan fund so we can take it out of to a great extent the annual fight over appropriations. If we can get it funded with a combination of public and private funds, we can do this.

>Clinton cited as an example a \$15 billion project she said the Clinton Global Initiative is running with labor union pension funds to train people for clean energy work.

THE FBI MIGHT ALREADY BE INVESTIGATING THE FOUNDATION

<http://www.mediaite.com/opinion/report-fbi-email-probe-now-investigating-potential-clinton-foundation-corruption/>

THIS IS FROM JANUARY ALSO BTW

>Report: FBI Email Probe Now Investigating Potential Clinton Foundation Corruption

>The FBI is reportedly investigating the intersection of Clinton Foundation donations and State Department decisions during Clinton's tenure as Secretary of State violated corruption laws.

>Three sources from the intelligence community confirmed the probe's expansion to Fox's Catherine Herridge. The agents are investigating the possible intersection of Clinton Foundation donations, the dispensation of State Department contracts and whether regular processes were followed, one source told Fox.

>Another intelligence source told Fox News that there was strong internal pressure from within the FBI to investigate the possibility of corruption. Many previous public corruption cases have been made and successfully prosecuted with much le

ss evidence than what is emerging in this investigation, the source said.

>While Fox's report doesn't make clear exactly which intersections are being investigated, the details of the case bear a striking resemblance to allegations put forward in the 2014 book Clinton Cash. In the book, conservative author Peter Schweizer noted that foreign government donations to the nonprofit Clinton Foundation often coincided with positive State Department decisions in favor of those governments. Clinton herself has strongly denied that Clinton Foundation business had any effect on her decision-making as Secretary of State.

MORMONS AND SOROS

>Last year, Lee joined Sen. Jeff Flake in voting against Sens. Jeff Sessions and Ted Cruz, helping to pass a Democratic amendment, which would essentially codify the idea that Muslims living in foreign nations have a global right to immigrate to the United States.

>Both Lee and Flake come from devout Mormon families. Many have pointed out how the Mormon church seems to have aligned itself with big business interests in efforts to open America's borders. In 2010, church and business leaders signed the Utah Compact.

>As The Salt Lake Tribune reported last year, Ali Noorani, the executive director of the Soros-funded National Immigration Forum, has described the Utah Compact as the gift that keeps on giving.

FETHULLAH GULEN, FBI RAIDS AND THE CLINTONS

Ever heard of Fethullah Gulen? The leader of a muslim movement in Turkey. He's living in a CIA-funded compound in Turkey, funds terrorist attacks in Turkey, has

been extradited by Erdogan, oh and he's got a whole bunch of charter schools in the US - THAT THE FBI HAVE RAIDED

><http://www.ibtimes.co.uk/fbi-raids-us-charter-school-linked-turkish-islamic-gulen-movement-1429343>

>Gulen is a charismatic and reclusive man who has lived in self-imposed exile in Pennsylvania since 1999. The official reason for his exile is given as "medical", but Gulen was actually fleeing charges of plotting to overthrow the government in Turkey. Over the years, he has built an impressive network of more than 1,000 schools in 140 countries, from South Africa to the United States.

Here's just one example (I'll get to the Clinton part)

>The FBI has raided a charter school in Louisiana which allegedly has ties to the controversial movement of Fethullah Gulen, a Turkish cleric living in self-imposed exile in the US. During the visit at the Kenilworth Science and Technology Charter school in Baton Rouge, federal agents seized several boxes from the campus but they refused to reveal the reasons behind the raid.

>It is not the first time that the FBI has put the spotlight on the charter schools, which are funded by American taxpayers. In 2011, the agency was investigating whether employees of charter schools linked to the movement were kicking back part of the salary to Hizmet, a Muslim movement funded by Gulen in Turkey.

<http://www.hurriyetdailynews.com/fbi-raids-19-schools-associated-with-gulen.aspx?NewsCatID=358&nID=67788&pageID=238>

>U.S. federal agents have raided 19 charter schools, including three in Ohio, where an FBI criminal investigation in Cleveland has led to search warrants in Indiana and Illinois over the past week, Ohio-based Beacon Journal has reported.

Concept Schools, a charter school operator headquartered near Chicago, manages 19 charter schools in Ohio, second only to Texas with 44 such schools. There are nearly 140 charter schools, spread across 26 states, reportedly associated with Turkish cleric Fethullah Gülen, an Islamic cleric exiled from Turkey, living in Pennsylvania.

Concept Schools, which emphasizes math and science, has been investigated previously by the U.S. Department of Labor for its use of foreign workers. Ohio audits found that public money for the schools had been used improperly for visas, according to the report.

<http://mobile.nytimes.com/2011/06/07/education/07charter.html>

And where the Clintons get involved:

<http://www.city-journal.org/html/who-fethullah-g%C3%BClen-13504.html>

>Gülen lives in the United States, and he has received praise and support from high-level figures in the American government. Bill Clinton and James Baker have delivered encomiums to his contributions to world peace, for instance, and President Obama has made an admiring visit to the Gülen-inspired Pinnacle School in Washington, D.C. Former CIA officer Graham Fuller also former vice chairman of the National Intelligence Council and the author of The Future of Political Islam vouched for Gülen personally in his green-card application process, as did former CIA officer George Fidas and former ambassador to Turkey Morton Abramowitz.

<http://www.theblaze.com/contributions/how-a-turkish-clerics-network-has-penetrated-the-clinton-campaign-and-american-education/>

<https://www.turkishminute.com/2016/03/30/pro-govt-daily-claims-gulen-bribed-obama-clinton-members-us-congress/>

>Justice and Development Party (AK Party) government mouthpiece Star daily has claimed that Turkish-Islamic scholar Fethullah Gülen bribed US politicians including US President Barack Obama and Democrat Party presidential candidate Hillary Clinton as well as 200 members of the US Congress to gain political favors from the US government.

Gülen who has been vilified by the AK Party government and President Recep Tayyip Erdogan is claimed to have countless court cases opened against him by US authorities.

>The Star daily claimed in its major story on Wednesday that Gülen bribed President Obama, Hillary Clinton, Rick Perry, and Jeb Bush alongside 200 members of the US Congress to slow down judicial proceedings.

>Star, which is owned by Ethem Sancak, a businessman close to Erdogan, also claimed that Gülen is trying to topple the government from the US, where he resides, via the Parallel Structure, a phrase coined by Erdogan to refer to the Gülen movement

Basic background:

Operation Gladio B is a classified ongoing expansion of Operation Gladio. The original Gladio was established just after the end of World War II by a small number of senior officials within OSS/CIA, MI6 and NATO. This was a top secret network of fascist "stay-behind" cells trained to carry out acts of terrorism in the event of a Soviet invasion. This was exposed in the 1980's after they were used to carry out a string of false flag attacks, mostly in Italy, which were initially blamed on communist groups. As the cold war ended, this strategy of tension was diversified to include Gladio B, which substitutes Muslims for fascists and neo-nazis. It was exposed by FBI whistleblower, Sibel Edmonds, who revealed "Operation Gladio B" as an FBI codename adopted in 1997 for ongoing relations between US intelligence, the Pentagon and Al Qaeda.[1] Daniel Ellsberg has stated that Edmonds possesses information "far more explosive than the Pentagon Papers".[2] She has stated that 9-11 was a Gladio/B Operation[2] and summarizes the objective of Gladio B as:

"projecting U.S. power in the former Soviet sphere of influence to access previously untapped strategic energy and mineral reserves for U.S. and European companies; pushing back Russian and Chinese power; and expanding the scope of lucrative criminal activities, particularly illegal arms and drugs trafficking."[3]

TLDR: Gladio is NATO. Gladio A first established in Turkey using the Babas (spelling? they are Turkish gangsters) to destabilize the caucasus because geopolitical players (think Brezinski) have long thought that area was a strategic key to being the biggest kid on the block. This eventually got someone outed and they found it was better to use islamic fundamentalists, AKA Mujahideen and Al Qaeda

I'm no expert on this, I think it had it's roots in Italy after WWII and some other countries but I don't think that's important for us. Basically the theory goes that almost all "terror" attacks that occur around the world trace back to Gladio B, the B was adopted when they started using islam. Organizations like Al Qaeda (literally means the database) and ISIS are Gladio B controlled. I'm sure there are some useful idiots that actually believe, but we're talking about who's really pulling the strings.

I learned about this mostly from Sibel Edmonds (nationally famous 9/11 whistleblower) and James Corbett from CorbettReport. Here are videos if you want to learn more:

<https://www.youtube.com/watch?v=o3repopmOJ8>

<https://www.youtube.com/watch?v=3q0qau8f0w8>

<https://www.youtube.com/watch?v=AARtO88G5Ag>

I gotta stress that this is not /x/-tier garbage. This can be proven by breaking down the geopolitical actors, motives, etc

Now to Gulen:

<http://www.boilingfrogspost.com/2015/02/10/bfp-exclusive-william-engdahl-on-operation-gladio-fethullah-gulen-one-world-government/>

"Our first knowledge about Gülen is, his struggle against communism via a foundation (which was a NATO agenda indeed). So could we say that Gülen and his CIA relationship started long ago?

WE: Yes, all evidence suggests that NATO Turkish Gladio networks picked up Gülen as a potentially useful asset years ago. As their agenda changed with the collapse of the Soviet Union, their role for Gülen changed as well and doors were opened for him to play that role.

So in a true sense we can say that the Gülen Cemaat is the nothing more than the projection of an idea from Langley Virginia CIA headquarters, an idea from essentially stupid people there who believed they could use him and they could abuse religion as a cover to advance their design for global control, what David Rockefeller calls One World Government.

Unlike the CIA's Mujahideen Jihadists like Hekmatyar in Afghanistan or Naser Oric in Bosnia, the CIA decided to give Fethullah Gülen a radically different image. No blood-curdling, head-severing, human-heart-eating Jihadist. No, Fethullah Gülen was presented to the world as a man of peace, love and brotherhood, even managing to grab a photo op with Pope John Paul II, which Gülen featured prominently on his website. The Gülen organization in the US hired one of Washington's highest-paid Public Relations image experts, George W. Bush's former campaign director, Karen Hughes, to massage his moderate Islam image."

I recommend reading full article above for clues as well as this video: <https://www.youtube.com/watch?v=nxpuotIMlY0>

Again, I'm no expert, I'm more hoping to connect a dot for someone more knowledgeable than me. Last thing I'll say is that Gulen has a HUGE network of shady Islamic charter schools throughout the US that gets no attention. I can't put my finger on why, maybe something I read in the past, but I think this may be important to the interests of this investigation:

"For the last two years I have been pounding on Imam Fethullah Gulen's web of organizations and his charter schools empire in the US. For years I have been marveling about the consistent media blackout on the Turkish Imam Fethullah Gulen's past and present nefarious activities and highly suspicious partnerships with various US government agencies and elected officials. And of course for almost two years I have been writing and discussing Gulen with you over here at Boiling Frogs Post. Now the New York Times appears to be catching up; at least with a fraction of this notorious Imam's multi-billion dollar network of organizations and businesses. Yesterday, the Times ran a fairly detailed and long exposé on Gulen's dubious and highly secretive penetration of US school systems via his rapidly growing charter school operations; "

ELISA CARRIO AND PABLO BRESSI

one deputy called Elisa Carrio denounced that the police chief of Buenos Aires Province is really deep into drug trafficking. A day after she presented charges she received a death threat and is now under protection of the police

<http://www.lanacion.com.ar/1915396-carrio-vinculo-al-jefe-de-la-policia-bonaerense-con-una-banda-de-narcotraficantes>

"Le vengo advirtiéndole a la gobernadora desde hace cinco meses. Ya no puedo decirlo públicamente. Hay un problema muy grave de seguridad", afirmó Carrió. Y fue más allá: "Se están matando. Están generando un clima de inseguridad".

I've been warning the governor for 5 months. I cannot not tell the public. There's a big security issue", Carrio said. And she went beyond: " They are killing. They are generating a climate of insecurity

<http://www.perfil.com/politica/Carrio-amenazada-de-muerte-tras-vincular-a-la-bonaerense-con-el-narco-20160707-0058.html>

So TL;DR

The police chief "Pablo Bressi" was before in charge of the anti narcotic division

on and yet foreign drug cartels and the human trafficking they brought started popping like no tomorrow

After the governor elections the peronists lost and the new administration from the party Cambiemos (Merkel/Obama/Hillary puppets) assumed control over the province promoted him to his current position

Deputy Carrio and his team are getting more evidence to present charges against him soon

But just now on tv:

Felipe Sola who is also a deputy and was governor of BS AS province in between 2002-7 said that when he was asked who he thinks should be the police chief, that he spoke against Bressi and that it was the United State Embassy by petition of the DEA who appointed him. Maria Eugenia Vidal, the governor had ignored the fact Sola had told her very clearly to the governor Maria Eugenia Vidal that DEA's agenda and our government's agenda are opposites

Note: Both Carrio and Sola are part of the same political party "Cambiemos"

CLINTONS AND UBS

Have our anon detectives posted links of Clinton-UBS relationship?

>In March 2009, after meeting with Swiss Foreign Minister Micheline Calmy-Rey, then Secretary of State Hillary Clinton intervened with the U.S. Internal Revenue Service (IRS) on behalf of Switzerland's most powerful banking institution, UBS. The IRS, which at that time was seeking the identity of wealthy Americans who had stashed some \$20 billion in 52,000 tax evading UBS accounts, then agreed that the Swiss bank need only turn over information on 4,450 accounts. Afterwards, UBS increased its previous \$60,000 in donations to the Clinton Foundation ten-fold. By the end of 2014, UBS donations to the Clinton Foundation totaled \$600,000. UBS also "paid former President Bill Clinton \$1.5 million to participate in a series of question-and-answer sessions with UBS Wealth Management Chief Executive Bob McCann, making UBS his biggest single corporate source of speech income disclosed since he left the White House."

>Those facts, of themselves, raise disturbing questions. Did a bank that still ranks as "the world's biggest wealth manager" and has at its disposal a bevy of economists and law firms have a legitimate reason for paying Bill Clinton \$1.5 million in speaking fees? Or was the \$1.5 million and the tenfold increase in Clinton Foundation donations a reward for the former secretary of State's intervention? If the latter, that reward would have, under federal law (18 U.S.C. § 201(c)(1)(A)), amounted to an illicit bribe.

HSBC AND IRON MOUNTAIN

Iron Mountain fire deemed arson

Although an earlier investigation led by an economic crime and money-laundering unit had eliminated criminal hypotheses concerning the fire in May 2014, it has been noted that the firms most affected by the fire were multinationals, large Argentine companies and financial entities. Among them was HSBC Argentina.

HSBC Argentina has been accused of tax fraud, tax evasion and money-laundering in a scheme that includes thousands of Argentine citizens transferring funds of up to that US\$3 billion to HSBC's Geneva branch.

Iron Mountain itself has also been under investigation for money-laundering activities.

The police report, now in the hands of prosecutor Marcela Sánchez, opens up the door to further investigations to determine who may have been responsible for the fire and accordingly, to determine their responsibility in the deaths of the 10 firefighters that perished.

MORE HSBC - HSBC GENERAL

HSBC staff explained handing Caring the huge sum of cash by quoting a statement by him that he planned to deposit the cash with another Swiss bank, and did not want either bank to be aware of the other. They wrote: RC goes to great lengths to maintain discretion.

The files show Caring, a major donor to British politics, transferring \$1 million to the Clinton Foundation, a nonprofit set up by the former U.S. President Bill Clinton with the stated mission to strengthen the capacity of people in the United States and throughout the world to meet the challenges of global interdependence.

The donation to the Clinton Foundation was requested in December 2005. The previous month, Caring funded a champagne and caviar extravaganza at Catherine the Great's Winter Palace in St Petersburg, Russia, flying in 450 guests to be entertained by Sir Elton John and Tina Turner and addressed by Bill Clinton. The event raised more than £11 million for a children's charity.

Also making an appearance in the HSBC documents is Canadian mining mogul Frank Giustra, whose name was listed on an account holding more than \$10 million in 2006-07.

<http://freebeacon.com/blog/hsbc-leak-clinton/>

Well would you look at that HSBC the bank that laundered two billion for drug cartels also gave 81 million to the Clinton foundation.

>They include Frank Giustra, a Canadian mining magnate and one of the foundation's biggest financial backers, and Richard Caring, the British retail magnate who, the bank's internal records show, used his tax-free Geneva account to transfer \$1m into the New York-based foundation

>Giustra's Swiss HSBC account, created in 2002, contained up to \$10m in the 2006-2007 period. Lawyers for the mining magnate said that he held the account for investment purposes, and that it was in compliance with Canadian laws that required disclosure of foreign assets

>Another Clinton foundation donor who had a HSBC account in the tax haven is Jeffrey Epstein, the hedge fund manager and convicted sex offender who once flew the former president on his private jet for charity events in Africa
Epstein donated to the foundation through HSBC! The judge who did not prosecute HSBC was appointed by Bill Clinton

A little on Comey:

James Comey used to be on the board of HSBC. HSBC laundered money for 7 accounts in their Geneva Bank Division for Clinton Foundation. HSBC was found to have laundered money for Mexican Drug Cartel's and was going to be charged billions of dollars in a fine but Eric Holder got them off in 2012 while HRC was SecState. Bill has given 6 fig speeches to HSBC before too....

JP MORGAN

[cue discussion about how the elites are getting away with it]

>That validates what the group think has been about multiple competing elite groups, that also work together.

It reminds me of what JP Morgan did.

>DEFINITION of 'Morganization'

>Monopolization techniques used by J.P. Morgan in the nineteenth century. J.P. Morgan used his reputation to lure European financiers into America by taking over an industry and stabilizing it through monopoly. Morgan would then turn the industry into a single, stable, profitable entity that was much more palatable to European bankers.

>BREAKING DOWN 'Morganization'

>Morgan "morganized" the railroad industry first, taking over small underfinanced companies. He then took over the steel, electricity and banking industries the same way. The solid, steady growth that resulted was successful in transforming the U.S. from a debtor nation to one that was able to lend money to others.

><http://www.investopedia.com/terms/m/morganization.asp#ixzz4Eu93sE00>

So the idea is, that they are moving to "Morganize" the extremely disorganized Middle Eastern power group, which I imagine extends into much of Africa more than we know. Their plan is to absorb some of the groups and pit others against each other, this is likely the reason for China going into Africa.

Not to mention what him and Edison did to Tesla.

DAVOS/WORLD ECONOMIC FORUM

Jerome Corsi's book just came out, and it mentions a group called Davos. Looking them up returns this:

<https://www.weforum.org/events/world-economic-forum-annual-meeting-2016/>

>Chapter 3: Reinventing Davos

>"The [Clinton] foundation... accepted millions from seven foreign governments while Hillary Clinton served as secretary of state." - Washington Post

>Among the various similar versions of the story of how Bill Clinton got the idea to create the Clinton Global Initiative, the version with the most credibility was told by journalist Alec MacGillis in the 'New Republic.' His article, "Scandal at Clinton Inc: How Doug Band drove a wedge through a political dynasty," was highly critical of the Clinton foundation and, in particular, of Doug Band.

>MacGillis appears to have gotten the story from Paul Begala, the longtime Clinton loyalist who transitioned from being a key strategist in Clinton's 1992 run for the White House to serving as cohost of CNN's heavily partisan political program Crossfire, along with James Carville, another top Clinton strategist from the 1992 presidential campaign.

>"As Begala tells it," MacGillis narrated, "the idea came to Band at the front of grand ideas, Davos." The reference to Davos is to the World Economic Forum, the high-level meeting of the global business elite.

THE BONNER GROUP INC - THIS IS EXTREMELY IMPORTANT

Some background/connects

Led by Mary Pat Bonner, the Bonner Group is overtly a fundraising business which is almost unique among other fundraisers in that it takes commission on the donations, typically 12.5%, which is considered unethical by Association of Fundraising Professionals because it "encourages abuse and places self-gain over philanthropy".

"Ms. Bonner's fees have been a perennial source of controversy in the Democracy Alliance, a club of wealthy progressive donors, each obligated to contribute money to a select roster of liberal research and advocacy organizations. [...] She continues to attend the alliance's private donor conferences, however, as an unpaid donor adviser to Marcy Carsey, a prominent Hollywood producer. Current and former executives at liberal nonprofits complain about a perception that hiring Ms. Bonner would improve their chances of being included in the Alliance's investment portfolio.

I don't know what her role in the D.A. is at this point, nor do I know who she actually is a donor adviser to, nor do I know what organizations she represents within the group of organizations who we are supporting, Mr. Ryan said. I think it's outrageous.

Taken from the Media Matters IRS 990 linked in the OP. Media Matters reported 1.4 Million in compensation to BONNER GROUP INC for the purpose of Fundraising.

BONNER GROUP Raised 11.8 Million total for Media Matters for FY2013, with 10.4 Million paid to Media Matters (Minus 1.4 Million fee for Bonner Group). Media Matters reported 11.2 Million in total Revenue in FY2013, almost all of their revenue was provided by the Bonner Group.

If Media Matters is reporting ANY other expenses for Fundraising, it's most likely fraudulent, because they're reporting most of it came through the Bonner Group. This is fishy, and I've only spent about 30 minutes looking at this.

It may be worth the time to investigate the other Non-Profits in the Democracy Alliance and see what they're paying in contracting services. This may be one technique they use for funneling funds between organizations, disguised as 'services'

Bonner Group has been flagged before by Watchdogs. There may be something here.

More on the Bonner Group...I'm finding almost no traces of them anywhere. This is the most official record I've been able to locate off of West Virginia's Business Records.

Found something else in Media Matter's 990. "THE ORGANIZATION HAS A MERRILL LYNCH ACCOUNT FOR WHICH DONATED SECURITIES ARE TRANSFERRED AND SOLD IMMEDIATELY"

\$967,875 was donated via Publicly Traded Securities. This, in addition to The Bonner Group providing all of their funding...muddies the waters quite a bit. Unless receiving Donated Securities and selling them immediately is standard practice with charities

I've been looking into The Bonner Group. Run by Mary Pat Bonner, the entirety of the Clinton Machine is funded through the Bonner Group. Every Single Organization listed on 455 Massachusetts Avenue in Washington DC

obtains almost 100% of their revenues through the Bonner Group. Check out their IRS 990's, it's there hiding in plain sight. Since they're using a Professional Fundraiser, there is no way for anybody to determine where those funds came from. The Bonner Group has reported links to all organizations linked to the Clinton 's, which has drawn ire from honest Republican AND Democrat organizations. Given the obscurity here, it's very possible large sums of money raised through the Bonner Group are from foreign entities.

<http://www.nytimes.com/2015/02/06/us/in-invisible-world-of-political-donor-advisers-a-highly-visible-player.html>

Bonner advertises a donor Database of 70,000+, and charges a flat fee of 12.5% for all funds raised. According to the NYT, " The Bonner Group is paid almost exclusively on commission, a practice that is legal but frowned upon by some fundraising consultants, who say it leads to fights with clients and other consultants over credit. It is considered unethical by the Association of Fundraising Professionals, partly because it can encourage abuses and, in the charity world, places self-gain over philanthropy."

Oh, and I've saved the best for last. David Brock (Who started Media Matters, The American Independent, American Bridge 21st Century, Correct the Record, and many, many more) Shares a house in the Hamptons with Mary Pat Bonner. <https://i.sli.mg/5Fs0zj.png>

Here's the SCC E-File for The Bonner Group.
The Bonner Group provides fundraising for a lot of organizations in the Democracy Alliance. If anyone wants something to do: Here's my angle on the Bonner Group:
>They fund the Democracy Alliance
>None of their funds or donors are traceable
>They are Pending Registration in the State of Virginia as a "Professional Solicitor"
>Full registration entails submission of financial documents
>each state requires professional solicitors to acquire some type of registration in order to even ASK for donations

>I've searched Virginia and DC, no registration for the Bonner Group to solicit donations.

I suspect that they aren't officially registered to solicit donations in any state, which means that they may be operating illegally.
>or...
Or, they're only soliciting funds from OUTSIDE the country. Since there's a number of organizations in the Democracy Alliance that are funded primarily through the Bonner Group, that would put their "Public Charity" status at risk. We could potentially uncover massive charity fraud/fundraising fraud for a number of pro Clinton 501(c)(3)'s.

Even better...those shell companies in London (clifford street I think)? What if they're funneling dark money into the Bonner Group, to be dispersed, tax free, into the states? That would be very hard to prove, but it's definitely a possibility.
Many angles to this.

Bonner and Brock:
>Bonner, who sources say now shares office space with Brock inside Media Matters, also did not respond to an emailed request for comment.
><http://dailycaller.com/2013/01/27/illegal-guns-david-brock-media-matters/2/#ixzz4EACcb0ZT>
More from that NYT piece:
> Without Mary Pat, we would never be where we are today, said Craig T. Smith, a senior adviser to Ready for Hillary.

Bonner Group is KEY to Hillary's money machine.

>About the 3rd report:

This is more of a guide than a report. There are a SIGNIFICANT amount of leads presented in this report. I haven't had the time yet to dig into any lead, as most of my work has been analyzing IRS 990s (I haven't even begun to discuss that yet). What I'm providing here is the guidance to enable others to investigate these leads.

Tasks for /CFG/

Follow up on leads presented from the Work Permit notes

Dig up dirt on all Basic Business Licenses connected to 455 Massachusetts Ave NW , Washington DC, 20001

Find a way to get more details on the Certificates of Occupancy linked to 455 Mass.

UPDATE: MORE TASKS FOR /CFG/ ORDERED MOST TO LEAST IMPORTANT

I m confident that this will be the straw that breaks the camel s back. The Bonner Group got sloppy and left a trail in the public record. If you want to be a part of history, please help with one of the tasks below.

1. We need to build Bonner Mindmaps for the past 3 years using data from IRS Form 990 s

a. Follow my lead from this report, start with one organization and then follow the money

b. 2012, 2013, and 2014 IRS 990s are available to the public for free. Let s build a Mind Map for each of those years

c. Any organization that paid The Bonner Group is suspect

d. Any organization that receive a Grant from an organization that paid The Bonner Group is suspect

e. To help get you started, this is a short list of organizations I ve found that have worked with The Bonner Group. (there are many more, these are just the ones written on my whiteboard at the moment)

i. Center for American Progress

ii. Center for American Progress Action Fund

iii. Leadership Conference for Human and Civil Rights

iv. People for the American Way Foundation

v. People for the American Way

vi. America Votes

vii. American Foundation for Equal Rights

viii. American Bridge

ix. Media Matters

x. Media Matters Action Network

xi. Ready for Hillary

xii. Priorities USA

xiii. Correct the Record

xiv. American Democracy Legal Fund

xv. American Independent

xvi. Colorado Independent

xvii. Franklin Education Forum

f. As you may have noticed, I m not very good with visuals. Someone should take ownership and format this piece similar to the Clinton Map created a couple weeks back.

2. From my 3rd Report, we still need to get more details on the Certificates of Occupancy linked to 455 Mass.

3. From my 3rd Report, we still need to dig up all leads on the Basic Business Licenses connected to 455 Mass
4. From my 3rd Report, we still need to dig all leads presented from the Work Permit Notes

What's contained here is already enough to incriminate The Bonner Group, which is one of the largest DC Democrat fundraisers.

On image 3 of the last report/gallery link:

>The General Services Administration (GSA) is an independent agency of the United States government, established in 1949 to help manage and support the basic functioning of federal agencies. The GSA supplies products and communications for U.S. government offices, provides transportation and office space to federal employees, and develops government-wide cost-minimizing policies, and other management tasks.

That checks out, they apparently renewed their lease for the entire 3rd floor in 2015.

Looks like they're registered to Taryn Fielder.

>Ms. Fielder is responsible for the legal affairs of ASB, including serving as the principal legal advisor to ASB's management team. After graduating from Harvard Law School in 2002, Ms. Fielder spent two years with Simpson, Thacher & Bartlett LLP in New York City where she practiced corporate and real estate law. In 2004, Ms. Fielder moved to Washington, D.C. to join the Real Estate Group at Hogan & Hartson (now Hogan Lovells) where she practiced for nearly seven years. Ms.

Fielder took a three-month leave of absence from the firm during late 2008 to early 2009 to serve as Deputy General Counsel of the 2009 Presidential Inaugural Committee. In 2011, Ms. Fielder joined DiamondRock Hospitality Company, a publicly-traded REIT, as Assistant General Counsel - a role she held until joining ASB in June of 2013. Ms. Fielder graduated summa cum laude from Eckerd College in St. Petersburg, Florida with majors in Political Science and International Relations & Global Affairs and minors in French and Theater.

This Square 516 is an Operator of Nonresidential Buildings. If they manage the contract for this building, they must know that there's over 10 organizations operating out of the 6th floor on 455 mass. There is only 17 active licenses, so something is going on.

>Square 516s Office Venture LLC is a contractor in the Lessors of Nonresidential Buildings (except Miniwarehouses) industry. Last year, they did not win any contracts. Since 2000, the contractor has performed 2 contracts with a total obligation amount of \$1.43 million, which means Square 516s Office Venture LLC has completed contracts worth relatively the same amount as the median for all governme

You won't find Bonner Group directly. You need to search the 990's of Clinton Aligned non-profits and see if they paid the Bonner Group any fundraising fees. For example, here's the 2014 IRS 990 for American Bridge 21st Century Foundation

See this: <https://i.sli.mg/N4YurY.png>

Can someone explain to me how an organization can report
TOTAL NUMBER OF INDIVIDUALS EMPLOYED IN CALENDAR YEAR 2014: 0 (ZERO)
And at the same time report:
SALARIES, OTHER COMPENSATION, EMPLOYEE BENEFITS: 5,465,894 (5.4 MILLION)
How can you pay 5.4 Million dollars in salaries to 0 employees?!
This is ABSURD:
http://990s.foundationcenter.org/990_pdf_archive/300/300192708/300192708_201412_9900.pdf?_ga=1.194194091.722542549.1468112558
Seriously: <https://i.sli.mg/hhWyFB.png>

And yes, the Center for American Progress Action Fund paid Bonner 12k to do nothing in 2014.
<https://i.sli.mg/fnwcdS.png>
How can they report on one page that they paid 11k in professional fundraising fees...
When they actually paid 70k in professional fundraising fees!
<https://i.sli.mg/iPHNMt.png>

642k to the Board of Directors
70K in fundraising fees
0 to Contractors
So we've got 4 Million bucks in salaries being paid nothing.
And if you think this is odd. This is like the 5th nonprofit I've seen that's pu

lling shit like this.

See for yourself. Someone look up the IRS 990 for the American Conference on Human and Civil Rights.

>Due to FEC loopholes, the Sunlight Foundation s Libby Watson found this year that Correct the Record can openly coordinate with Clinton s campaign, despite rules that typically disallow political campaigns from working directly with PACs.

> SuperPACs aren t supposed to coordinate with candidates. The whole reasoning behind (Supreme Court decision) Citizens United rests on (PACs) being independent, but

t Correct the Record claims it can coordinate, Watson told The Daily Beast. It s not totally clear what their reasoning is, but it seems to be that material posted on the Internet for free like, blogs doesn t count as an independent expenditure. So their defense in this is that the internet is free territory. But Shillary directly engages in activities in real life organized and paid for by Super PACs. Does the FEC know this?

SUSIE TOMPKINS BUELL

<https://i.sli.mg/xXpxDf.png>

<http://muckety.com/Susie-Tompkins-Buell/93860.muckety>

This is from a Daily Mail article. Susie is definitely someone to look into. Her foundation's website has Andrea Dew as the primary contact: <https://i.sli.mg/4MO7wd.png>

Susie owned the Esprit clothing company. It says she "Sold out" in '96 to some guy from Hong Kong. She's made a lot of donations over the years and some probably coincide with favorable trade agreements while Clinton was in office that helped Esprit outsource production while paying almost no taxes. I just can't find any records older than 10 years.

<http://www.sfgate.com/business/article/Susie-Tompkins-sells-Esprit-3118658.php>

And this article:

<http://www.bizjournals.com/sanfrancisco/stories/1997/09/15/story1.html?page=all>
Is deff worth reading. This is one of the women in Hillary's ear. Leveraged buyouts, extracting all the wealth out of a company before throwing it into bankruptcy etc. etc. This woman is a real piece of work that should be exposed.

More on her. Seems the Daily Kos didn't like Susie Tompkins either:

>I saved my personal favorite for last: Susie Tompkins Buell. Tompkins Buell ran the fashion house Esprit de Corp with her husband for over two decades from 1968-1990. Originally founding the company on hippie ideals, Tompkins Buell let greed consume her, ultimately leading to the company's downfall.

>After divorcing her husband in 1990, Tompkins Buell led a leveraged buyout of the company that both gave her control of the company, and netted her \$150 million in profit. However, a combination of the buyout and Tompkins Buell's mismanagement of the company's finances, caused the company to enter into a complete financial collapse:

>But Esprit de Corp. also ultimately came to epitomize the worst side of another decade, the me decade, the 1980s and its junk-bond daddies and S&L pirates and slick-suited sharpies. After helping manage the company with her then-husband, Doug Tompkins, for 22 years, Susie Tompkins led a 1990 leveraged buyout that gained her control of the company, and netted her an estimated \$150 million.

Etc. etc. The full section on her is worth reading:

[http://www.dailykos.com/story/2008/3/27/485037/-](http://www.dailykos.com/story/2008/3/27/485037/)

<https://archive.is/R2LDj>

From the comment section there is this jewel:

>I Used to Work for Esprit

in fact I'm proud to say I was fired after just 3 months. I was hired as a design assistant in then Susie Tompkins junior sportswear department and let me tell you, the corporate frost was visceral! That was one of the unhappiest places I ever worked in my 13-year-long career in the fashion industry. Not only that but they were KEY in the off-shoring movement of American garment manufacturing. Shame, shame, SHAME on you Susie Tompkins Buell!

>"Ms. Tompkins, through her operatives, orchestrated a scheme to strip over \$150 million out of a once-thriving clothing company she owned, via a classic leveraged buyout, leaving in its wake a financially crippled entity so heavily burdened with debt that its survival was doubtful," Esprit's lawyers wrote in court filings.

>But with her takeover of Esprit de Corp. just seven years ago, she joined the ranks of the country's most artful corporate raiders.

>She gained, then nurtured during 20 years, a reputation as the model New Age professional woman: stylish, competent, and independent. Yet her shocking blunders as leader of Esprit de Corp. during the 1990s drove a once-thriving company into insolvency within less than two years.

>Toscani "used to say Susie's ideas were sort of like a fart. It smells bad, but

it goes away quickly," recalls Peter Buckley, former Esprit Europe CEO.
>In mid-1989, the two agreed to allow Goldman-Sachs bankers to determine a price at which Doug would buy Susie's shares.
Her ex-husband gave up \$40m in value in order to keep true and not sell out their principles:
>Esprit was poised to become just another division of just another conglomerate, a notion offensive to everything the two people who had started the company believed in.
>Doug called Susie, they talked, and he agreed to sell to Susie at a lower price than he would have received from the Taiwanese.
>"I made an inside deal with her to keep it inside the family," Doug says. "I took a \$40 million bath to keep it with her. I could have spent that money on our environmental foundations. It has turned out to have been a bad idea, but at the time, I had my children to consider."
Just look at the delusion of these leftist tards:
"It isn't my fault that it was having problems. There was management that I hired, but the problems weren't ones I was responsible for," Susie recalls. "It got to a place where we couldn't control what was going on. We had to hand it over to business types to handle it, and that just wasn't something we were into. I had an understanding about how a company should be handled. You should have a beautiful workplace, you should have benefits for the employees. To live with the way of the new management, to make the company lean and mean that was a big adjustment."
That "adjustment" included her forced buyout and being barred from the Esprit headquarters.

All of these organizations are listed on the 6th Floor of 455 Massachusetts Avenue NW, but it's only MEDIA MATTERS that's shown as the Lease Holder since 2009 on compstak.com. National Democratic Institute is listed here as well, but they've got the 8th floor.

Media Matters pays 1.4 Million to the Bonner Group for Fundraising activities, but they both have known connections to the same exact address. Media Matters owns the lease, and there could be an untold amount of other 'charities' listed at floor 6 of 455 Massachusetts Ave. NW in Washington DC.

It's not a big building either, there's 10 floors with 14 lease comps.

Alright it's getting weirder. There's a 'DC Private Jet Charter Service' saying they operate out of 455 Massachusetts Avenue Northwest, Washington, DC 20001. No floor is specified (weird, all tenants here list their floor/suite number). They aren't registered as a tenant on compstak at <https://property.compstak.com/455-Massachusetts-Avenue-Northwest-Washington/p/17645>

I wouldn't be surprised if they were registered on the 6th floor with the rest of the organizations.

They have a sketchy looking website that throws Disk Quota Errors on the top and bottom of the page, telling me they don't keep the website maintained. <https://www.dc-private-jet-charter-service.com/>

They've got a phone number listed... 2026848626.

It hasn't been around that long and not updated in nearly a year it looks like, I wonder what's up?

This "DC Private Jet Charter Service" has got to be a Shell Company. Check out the Google Reviews...I'm calling BS.

Also, reviews are showing up from 5 years ago, but the copyright on the website states 2016. Yes, they could have updated it, but the website has Disk Quota Errors...they're not keeping it maintained.

DO NOT go to the DC Private Jet Charter Service Website (suspected Shell Company)

The website has since been modified in the past hour to an HTTPS site with a Google Analytics script added to (I think) track IP's.

The biggest companies listed at the address are the CIFF (Children's Investment Fund Foundation - roughly 3 billion pounds net worth), the TCI Fund Management Limited (76 million pounds net worth), the TCI Fund Holdings Limited (78 million pounds net worth), and the TCI Advisory Services LLP (140 million pounds net worth). Other companies also have millions of pounds of net worth, some are only a few pounds of net worth (the shells) and others are in negative net worth, so I assume they're simply having some issues with cash flow.

As I understand it, a shell company is very useful as a sort of buffer for a company with large liabilities to protect itself. The shells operate and do business with the vehicles creating liabilities and then take the fall if something goes wrong, holding company repossess their things that was being leased to the shell and the shell gets sued. What I can't understand is why something like a Children's Investment Fund would need a shell company? Any business / econ / legal advisors out there who can help bring light to this?

Anyone know what Precis is? There are a lot of companies on 9 Clifford Street named "Precis <4 digits> Limited"

Examples:

<http://www.endole.co.uk/company/03601626/precis-1668-limited>

There are many more

They seem to own stock in each other

You know what they have in common?

GENERAL SERVICES ADMINISTRATION

Someone mentioned in the last thread that the GSA rented a floor in a building, but that was not a good lead. There may be a little something here.

I searched through fbo.gov for any solicitations for bidding that might be related to the CF. There's a current bid for a project that outright says that you have to liaise with the Clinton Foundation.

https://www.fbo.gov/?s=opportunity&mode=form&id=2890039e76e2f16ea3917c94401886ac&tab=core&_cvview=0

That's the first of 14 results with the name "Clinton Foundation."

Associated groups with the CFG mentioned in the fbo.gov bids:

Global Fund, CFG (obviously), World Bank, GFATM, GAVI (See: AIDS section), GAIN

>Companies and investors often miss valuable opportunities to engage. While the SDX Protocol does not offer a one-size-fits-all approach to engagement, it does provide meaningful guidance and concrete suggestions from seasoned engagement practitioners. It is offered in service to public company directors and investors to enable them to more effectively make and respond to engagement requests.

Sure makes it sound like this SDX protocol is a set way to give a particular image when actions don't necessarily match with what is said.

TENEO AND HUMA

<http://www.politico.com/story/2013/05/huma-abedin-consultant-state-091503?o=0>

>The new status made her a special government employee, which was tantamount to being a consultant, according to the source, whose information was confirmed by two other staffers familiar with the matter. Multiple sources told POLITICO Abedin did work for other clients, which a friend of Abedin said totaled four, including the State Department, Hillary Clinton, the William Jefferson Clinton Foundation and Teneo, the firm co-founded by former Bill Clinton counselor Doug Band...

>It's similar, in many respects, to the way many Clinton aides were paid for years while she was a senator. They were compensated partly through work on her government staff, and partly through her political action committee. Other loyalists, such as longtime Clinton aide Kelly Craighead and other confidants, later went on to lucrative work with Clinton-allied organizations.

>News broke days ago that the State Department inspector general had opened a criminal investigation into alleged overpayments made to Abedin at State. The Justice Department failed to take up the case, which is now being handled administratively.

><http://www.politico.com/story/2015/09/huma-abedin-teneo-clinton-foundation-email-213965>

In An April 10, 2012 Email, Teneo President Doug Band Asked Abedin To Help Get A Teneo Client Nominated To The President's Global Development Council, Mentioning That She Was A Huge Foundation/CGI Supporter And Close Pal Of WJC, As Well As A Teneo Client.

In the April 10, 2012 exchange, Teneo president Doug Band a close confidant of Bill Clinton asked Abedin to help him get Rodin nominated to The President's Global Development Council. The Rockefeller Foundation at the time was both a Teneo client and Clinton Foundation donor and Band made that point in his email to Abedin. The email subject line read: She is expecting us to help her get appointed to this. Judy Rodin, he wrote to Abedin in the shorthand email. Huge foundation/cgi supporter and close pal of wjc[.] Teneo reps her as well[.] Can you help? Wjc is often used as shorthand for Bill Clinton. And foundation, likely means Clinton Foundation. (Rachael Bade, Emails Show Huma Abedin's Ties To Private Consulting Firm, Politico, 9/23/15)

Abedin reportedly collected \$355,000 as a consultant to Teneo while also receiving \$135,000 in government pay.

She reportedly raked in \$355,000 as a consultant to Teneo, while simultaneously pocketing \$135,000 in government pay. The arrangement raised eyebrows because Abedin failed to disclose the exact nature of her work for Teneo, which represents a long list of foreign clients and has offices in Brussels, Dubai, Dublin, Hong Kong, London, Munich and Zurich.

>Teneo boasts of a vast reach across international arenas, partnering exclusively with the CEOs and senior leaders of many of the world's largest and most complex companies and organizations. In a Clintonian claim of cosmic proportions, Teneo says the firm addresses a range of financial, reputational and transformational challenges and opportunities by combining the disciplines of strategic communications, investor relations, investment banking, financial analytics, executive recruiting, digital analytics, corporate governance, government affairs, business intelligence, management consulting and corporate restructuring on an integrated basis.

>Got that? In fact, Teneo is rather shadowy, with only a few known corporate clients. It is best known for its relation with the Clintons and the Clinton Foundation. Journalists so far have seemed unwilling or unable to penetrate much further into Teneo. But that appears to have changed with Mrs. Clinton's formal entry into the presidential race and the dawning realization among media types that the Clinton Foundation, Teneo and the disappearing State Dept. emails really do signal that some sort of gigantic sleazy game is afoot.

>Reporter Ron Brynaert is one example of this new breed of investigative gunslinger. A former executive editor for Raw Story, Brynaert has been digging deep into the Teneo connection and publishing his findings at his blog, [-gate news](#) and on Twitter [LINKS IN ARTICLE POSTED ABOVE]. While the media focus on former Clinton aide Doug Band as the key Teneo founder, Brynaert has explored the extensive Clinton ties of Declan Kelly, the Teneo co-founder and CEO. Based on Brynaert's reporting, Kelly seems to be the real brains behind the operation.

>Teneo is filled with former associates of the Clintons.... The Teneo roster included Justin Cooper, former Clinton aide linked to registration documents for the private email server at the center of Mrs. Clinton's State Department emails controversy. Cooper's bio was scrubbed from Teneo's website, Brynaert reports, but a cache link reveals it once noted, In addition to his role with Teneo, Mr. Cooper serves as Senior Advisor to President William J. Clinton. Mr. Cooper advises President Clinton on a broad range of issues, including finances, business matters, public affairs and politics. Additionally, Mr. Cooper advises and assists in operating the Clinton Foundation, Clinton Global Initiative and the Clinton Family Foundation. Five State Department officials from the Economic Envoy's office also followed Kelly to Teneo, Brynaert reports: Stephen Meahl, Therese O Higgins, Monica Milton, Steven Sullivan and Jacqueline Wilson.

>In another post, Brynaert turns up new details on Mrs. Clinton's longtime aide, Huma Abedin. Brynaert closely examines Teneo's role in a Dec 7, 2012, event in Belfast, Ireland, honoring Secretary of State Clinton. The trip appears to be one of those peculiarly Clintonian mixtures of self-aggrandizement, shmooze and money.

Abedin was along for the ride. By then, Brynaert notes, Abedin was serving in dual capacities as a State Department employee and an adviser to Teneo, roles that later attracted considerable controversy...

BRING IT HOME, JUDICIAL WATCH:

>Thus, at the time of the December 2012 event in Belfast, Brynaert notes, Abedin was simultaneously employed by the State Department, Teneo, the Clinton Foundation and Hillary Clinton in a personal capacity. Citing possible misconduct and misrepresentation, Judicial Watch has asked a federal judge to reopen a Freedom of Information lawsuit that sought records related to Abedin's multiple roles at the State Department and with Teneo.

<http://www.politico.com/story/2016/04/teneo-final-221807>

>When Hillary Clinton became secretary of state she personally sought out a man named Declan Kelly to be her economic envoy to Northern Ireland, giving her 41-year-old former fundraiser a special status outside normal diplomatic channels.

> Yeah! Is he now official? Can I call him? Can I ask him to start? she wrote in an Aug. 28, 2009 email to her chief of staff, Cheryl Mills.

>By some measures, Kelly was a bargain for the government. The Ireland-born businessman refused a salary, hired five staffers on his own dime and pushed for U.S. companies to invest in the once-troubled region, a diplomatic priority for Clinton.

>But while serving as Clinton's special envoy, reaching out to global corporations for those investments, he was also working for two of them as a private consultant earning about \$2.4 million from Dow Chemical, a longtime client of his and one of the firms that participated in Clinton's Ireland initiative.

>It was also during this time period that Kelly and Doug Band, a close aide to former President Bill Clinton, were preparing to launch a global consulting business that would soon become a well-known and controversial success story. Their new venture, Teneo Holdings, would go on to employ numerous Hillary Clinton associates, including her closest confidante, Huma Abedin, and, for a time, Bill Clinton as honorary chairman, giving clients rare access to the couple and their network of world leaders.

"Gives Chief Executives the ability to see around corners and lead their organizations deftly"

Sounds like SAP/NSA access

>This sounds a lot like Clinton's "correct the record" PAC:

Misinformation reposted across social media undermines traditional reputational control. For instance, the recent havoc in the wake of fraudulent tweets that caused market movements representing billions of dollars. On the upside, studies indicate that the trust in and public perception of a CEO improve when he or she is active on social media. Facebook has surpassed 1 billion active users, more than 500 million are active on Twitter, and China's leading microblogging site, Weibo, has more than 500 million accounts.

The explosion of social media and the ubiquity of other digital communications channels mean that CEOs must embrace big data as a paradigm to increase productivity and efficiency. Exponentially expanding sets of both structured and unstructured data can now be correlated across multiple silos. These innovations have enabled profitable new business solutions in every industry, and leaders are combining human ingenuity with data-driven insights to chart a new future. Simply put, big data is increasingly vital to maintaining a leadership position and ignoring it raises the risk of falling behind the competition.

Teneo guides our clients through these technological shifts, providing counsel to monitor and protect their reputations from potential threats and helping them take advantage of the opportunities presented by radical technical innovation.

DELAWARE, THE CORPORATE TAX HAVEN

<http://www.nytimes.com/2012/07/01/business/how-delaware-thrives-as-a-corporate-tax-haven.html>

Big corporations, small-time businesses, rogues, scoundrels and worse all have turned up at Delaware addresses in hopes of minimizing taxes, skirting regulations, plying friendly courts or, when needed, covering their tracks. Federal authorities worry that, in addition to the legitimate businesses flocking here, drug traffickers, embezzlers and money launderers are increasingly heading to Delaware, too. It's easy to set up shell companies here, no questions asked.

Shells are the No. 1 vehicle for laundering illicit money and criminal proceeds, said Lanny A. Breuer, assistant attorney general for the criminal division of the Justice Department. It's an enormous criminal justice problem. It's ridiculously easy for a criminal to set up a shell corporation and use the banking system, and we have to stop it.

In 2013 a law was passed that charitable organizations do not need to pledge their opposition to prostitution and child trafficking in order to receive government grants. <http://www.scotusblog.com/2013/06/details-aid-v-alliance-for-open-society-international/>

This was introduced by an arm of the open society foundation (owned by George Soros). The open society foundation has donated millions to Clinton.

To summarize, Soros used one of his companies to provide a free pass to the Clinton foundation and others-which make their money off sex slaves. Meaning, thanks to the 2013 law, if we can prove Clinton got her charity money through human trafficking, there is no legal reasoning to prosecute her. These people are sick.

Oh and that 2013 law? It went to the Supreme Court and Scalia voted against it-but it still passed, 6-2.

From the archive:

"Hugo Coveliers to Hugo Magazine 'De Bende & co.', pg. 133-134.

>Essentially says "oh there's no dossier on child molesting politicians, and there's no video... oh, well there's a dossier, but it doesn't matter. Oh those videos? nah, they aren't important... but we will turn them over to an investigator... Oh that investigator is afraid to testify about them? See, not so bad after all!"

Beyond Dutroux, Pilgrims, the 1001, and Le Circle were mentioned as possible sex victims.

Some investigative journalists were mentioned who worked on these scandals. It may be worth emailing them. From context, I think they are french. While I parle un petit francais, I'm certainly not fluent. If a Frenchman or french speaker could ask them about their investigation into child-sex and politicians that would be great. We could maybe get some names from them, then see if they have relations to the Clintons.

Van Rossem met a guy searching for "exclusive" porn at a sex shop. Later found a snuff ring. Turned over his investigations.... But may or may not have had sex with underage girls himself. Hard to say..

Highlights:

- >Snuff is 100% real and sold to a few clients at up to \$5000 per video
- >\$75,000 to kill a child yourself
- >Belgian law basically prevents the royal family from being prosecuted, apparently.
- >animals raping people
- >torture in all the ways you could imagine
- >Abducting an orphan at about 10 Brit pounds per kid
- >rape dungeon ignored by Belgian BOB because competence is for chumps.

Uh-oh what's this I found about the United States Agency for International Development (USAID) being used to give grants to Clinton Foundation donors? USAID sure doesn't sound fishy and shouldn't be looked into. I'm sure this SCOTUS case "Alliance for Open Society International, Inc. v. United States Agency for International Development" ruling that grant recipients have a policy explicitly opposing sex trafficking was a violation of the first amendment isn't in the least bit odd or out of place. Poor Scalia, living with a den of vipers.

Relevance of image is \$13 million dollar recipient of USAID grants and huge CF donor Muhammad Yunus, managing director of Grameen Bank warning Hillary and Bill of an incoming Bangladesh investigation into the bank.

TL;DR: The leader of Bangladesh probed Grameen Bank partially because she thought it was an attempt at political control by the Clintons in Bangladesh, evidenced by her accusation that Yunus won the Nobel Prize due to lobbying by the Clinton Global Initiative. Grameen Bank and all its offshoots could potentially be Clinton political control operations.

>In an order late on Wednesday, Judge Ketanji Brown Jackson told the U.S. Agency for International Development (USAID) to hand over to the Republican National Committee (RNC) whatever records it could as part of an RNC's open-records lawsuit on July 11.

>After that, USAID will need to consult with the State Department about hundreds of other pages of documents, which could be released at some point in the future.

...

>Before the U.S. District Court for the District of Columbia, USAID has claimed that it has discovered approximately 3,300 pages of records that it might be able to hand over to the Republican Party organization. But roughly 2,600 of those reportedly need to be cleared with the State Department before they can be released.

>USAID covert operation in cuba with anti castro propaganda
>As a cold war policy tool, the agency was, at times, used as a front for C.I.A. operations and operatives. Among the most infamous examples was the Office of Public Safety, a U.S.A.I.D. police training program in the Southern Cone that also trained torturers.

>Pando has confirmed that the American government in the form of the US Agency for International Development (USAID) played a major role in funding opposition groups prior to the revolution. Moreover, a large percentage of the rest of the funding to those same groups came from a US billionaire who has previously worked closely with US government agencies to further his own business interests.

JEFFRIES LLC, CLINTON FOUNDATION, AND KUWAIT

On 5/6/14 Jeffries LLC gave \$225K to the Clinton Foundation

Just 3 months later, Jeffries LLC was Sole financial advisor to Kinder Morgan Energy Partners, L.P. and Kinder Morgan Management, LLC in their \$60 billion sale to Kinder Morgan, Inc.

Kinder Morgan Energy and Kinder Morgan Management are both privately owned by their general partner, Kinder Morgan Inc. So it looks like it was a 60 billion dollar purchase of what they already technically owned.

I looked more into KM Energy and back in 2007 this was said about them

The fifty percent leakage in unit holder investment goes to prominent general partners a Wall Street House that has furnished two Secretaries of the Treasury in recent years, a Washington leveraged buyout fund that rewards politicians, and a large insurance company that apparently has used an off-the-books offshore fund to pay bonuses to its executives. A former chairman of the Securities and Exchange Commission, whom we have often admired for his defense of individual investors, serves as a paid advisor to two of the general partners.

The last part, "The latest declaration of an increase in quarterly distribution to \$0.88 a unit from \$0.85 amounts to an additional \$7 million a quarter to limited partners and an equal \$7 million to the general partner who has put up essentially no capital. When we allocate projected cash flow (Ebitda) in proportion to the debt ratio we have equity Ebitda of \$917 million for the next twelve months compared to a projected distribution of \$1499 million. The excess of \$582 million is that portion of the distribution we consider financed by debt and not sustainable by prudent standards."

They bought the company for \$60 billion and get to keep half of it, all while not putting down actual capital since they are buying their own company technically.

To me, it looks like Jeffries LLC paid the Clinton Foundation \$225k. In return they were allowed to "advise" in this extremely shady tax loophole without the government intervening.

Kinder Morgan being able to put 0 physical dollars down and make \$30 billion immediately should be illegal. The government shouldn't allow that to begin with. Having Jeffries LLC pay 225k to the CF and get a cut of that \$30 billion is undeniable corruption.

Kinder Morgan is the largest independent transporter of petroleum products in North America, and it looks like the government let them create money out of thin air. This is absolute corruption.

The article from 2007 mentions prominent general partners of Kinder Morgan and links them to the Secretaries of the Treasury. Looking back at the past secretaries of the treasury, some of the names are:

Jack Lew COO Citigroup

Henry Paulson CEO Goldman Sachs

Timothy Geithner President of the Federal Reserve Bank of New York

John W. Snow Managed the Chrysler bailouts

Robert M. Kimmitt According to a classified wikileaks, he met with Kuwait Prime and Foreign Minister on 10/30/08 and even discusses the Iran Nuclear deal.

CRIPPLECHAN/8CHAN FINDINGS

<https://i.sli.mg/NO36b1.png>

Guys, I dugged into this mind app that an anon posted (pic related). There s a lot of interesting stuff, like Tavi for instance, but instead I focused on Clinton, Bill especially, since he must have some dirt

Oh boy there's a lot of things that can be sufficient enough to redpill normies. Most of the stuff I will post here is straight from wikipedia no bully It means that all is common knowledge, albeit the puzzle pieces are spread over a large web of CIA directors, President Advisory etc..

So, beside the money laundering, CIA drug operations, conflict of interests, Whitewater, Lewinsky et al, I found strange patterns surrounding Clintons & espionage

Like for instance the Mossad/Lewinsky MEGA operation, or the allegations that he was recruited by the CIA as a young Rhodes scholar :

>Dr Roger Morris, author of an astonishing new book called Partners in Power, claims that, in the late 1960s, Mr Clinton worked as a source for the Central Intelligence Agency.

>According to the book, the bearded, dishevelled Rhodes scholar was recruited by the CIA while at Oxford - along with several other young Americans with political aspirations - to keep tabs on fellow students involved in protest activities against the Vietnam War.

>Morris says that the young Clinton indulged in some low-level spying in Norway in 1969, visiting the Oslo Peace Institute and submitting a CIA informant's report on American peace activists who had taken refuge in Scandinavia to avoid the draft.

So I digged some more dirt into wikipedia and I stumbled upon a deep rabbit hole Samuel Richard "Sandy" Berger

-Deputy national security advisor - 1993 - 1997

-Assistant to the President for National Security Affairs - 1997 - 2001

https://en.wikipedia.org/wiki/Samuel_R._Berger#Chinese_nuclear_espionage

>In 1999, Berger was criticized for failing to promptly inform President Clinton of his knowledge that the People's Republic of China had managed to acquire the designs of a number of U.S. nuclear warheads.

>Berger was originally briefed of the espionage by the Department of Energy (DOE) in April 1996, but did not inform the president until July 1997

>A number of Republicans, including then presidential hopeful Lamar Alexander, called for Berger's resignation. They accused him of ignoring the allegations of Chinese espionage. "For his unwillingness to act on this serious matter,

>Mr. Berger should resign", Alexander said. "If he does not, he should be relieved of his duties by President Clinton."

>President Clinton rejected the calls: "The record is that we acted aggressively," Clinton said. "Mr. Berger acted appropriately."

https://en.wikipedia.org/wiki/Samuel_R._Berger#Unauthorized_removal_and_destruction_of_classified_material

>On July 19, 2004, it was revealed that the U.S. Department of Justice was investigating Berger for unauthorized removal of classified documents in October 2003 from a National Archives reading room prior to testifying before the 9/11 Commission.

>The documents were five classified copies of a single report commissioned from Richard Clarke covering internal assessments of the Clinton Administration's handling of the unsuccessful 2000 millennium attack plots.

>Berger took one copy in September 2003 and four copies in October 2003 allegedly by stuffing the documents into his socks and pants

>Berger subsequently lied to investigators when questioned about the removal of the documents.

>DING DING DING FIRST WARNING

Clinton's National Security Advisor in 1996, knew that China had acquired the designs of US nuclear warheads he was just extremely "careless" and didn't inform the president about it.

Notice a recurrence here with recent Hillary / Comey "careless" quid pro quo and also the removal of classified materials ?

Robert James Woolsey Jr.

-Director of CIA, 1993 1995

https://en.wikipedia.org/wiki/R._James_Woolsey#Aldrich_Ames

>Woolsey was CIA director when Aldrich Ames was arrested for treason and spying against the United States.

>The CIA was criticized for not focusing on Ames sooner, given the obvious increase in Ames' standard of living and there was a "huge uproar" in Congress when Woolsey decided that no one in the CIA would be dismissed or demoted at the agency.

>Woolsey declared: "Some have clamored for heads to roll in order that we could say that heads have rolled Sorry, that's not my way."

>Woolsey was forced to resign.

>He is currently a Senior Vice President at Booz Allen Hamilton for Global Strategic Security (since July 15, 2002)

>Booz Allen Hamilton, since 2002

Second warning,

The Director of CIA under Clinton administration, knew that a KGB mole spied for decades (the second-largest number of CIA agents compromised) and did nothing

That same CIA director, then became Senior Vice President of Booz Allen Hamilton since 2002, which means he also knew about Snowden (since Snowden worked at the CIA before working at Booz Allen Hamilton).

Also, he is

-A Board Member and Vice-Chairman of The Jamestown Foundation

>The Jamestown Foundation is a Washington, D.C.-based institute for research and

analysis, founded in 1984.

>as a platform to support Soviet defectors [] dedicated to supporting Soviet dissidents, enabled the defectors from the Eastern Bloc to earn extra money by lecturing and writing.

Bezmenov.absolutely.subversive.jpg

>Jamestown's board of directors has included Dr. Zbigniew Brzezinski

>Jamestown's current board includes Brookings Institution Senior Fellow Bruce Riedel (keep that in mind).

Remember Samuel Richard "Sandy" Berger? that guy who let China spies acquire nuclear warheads, well, he's also :

-Advisory Board member for the Partnership for a Secure America

-Chairman of Stonebridge International merged in 2009 with The Albright Group, a similar firm founded by former Secretary of State Madeleine Albright, to form Albright Stonebridge Group

-He also served on the International Advisory Council of the Brookings Doha Center.

also

-Berger was born to a Jewish family

William Anthony Kirsopp Lake

-Executive Director of the United Nations Children's Fund (UNICEF)

-National Security Advisor under U.S. President Bill Clinton from 1993 to 1997

-nominated to become the Director of the Central Intelligence Agency, but his nomination was withdrawn due to Republican opposition

He's also

-Advisory Board member for the Partnership for a Secure America (same as Samuel Richard "Sandy" Berger)

-ultimately converted to Judaism in 2005.

Bruce O. Riedel

-Special Assistant to the President, and Senior Director for Near East Affairs on the National Security Council (1997 2001)

-Deputy Assistant Secretary of Defense for Near East and South Asian Affairs, Office of the Secretary of Defense (1995 1997)

-National Intelligence Officer for Near East and South Asian Affairs at the National Intelligence Council (1993 95)

-Director for Gulf and South Asia Affairs, National Security Council (1991 1993)

also

-senior fellow in the Saban Center for Middle East Policy at the Brookings Institution

There's certainly a lot more people involved into this, but as you can see with only 4 people we have :

-two different National Security Advisors, William Anthony Kirsopp Lake & Samuel Richard "Sandy" Berger

who are also Advisory Board members of the Partnership for a Secure America

-We have one CIA director who became Vice chairman of a platform dedicated to support KGB defectors, a platform also linked to the Brookings Institution, who is also linked to Saban Center

-We have a Deputy Assistant Secretary of Defense who also works with the Saban Center for Middle East Policy

-We have Madeleine "the price is worth it" Albright

>Madeleine Albright is a co-investor with Jacob Rothschild, 4th Baron Rothschild and George Soros, in a \$350 million investment vehicle called Helios Towers Africa, which intends to buy or build thousands of mobile phone towers in Africa

>She also serves as an Honorary Chair for the World Justice Project to lead a global, multidisciplinary effort to strengthen the Rule of Law for the development of communities of opportunity and equity

I stopped my research here, but I'm sure there is a lot more to find

This is not really related (or is it ?) to the Clinton foundation, but I found i

t interesting enough to post it here, you guys might want to dig more into this if you find it useful.

CIA directors and other Intel agencies are working in unison, with ramifications in Rockefeller / Rothschilds / Fabian societies.

How does it add up with Comey FBI Director congress hearing about a shadow gov ? I don't know, you tell me.

Have fun.

>"The Bush-Clinton Katrina Fund, which may have collected the third most at \$110 million, has been quick at raising money but slow in deciding what to do with it. Not until December 7, over three months after Katrina hit the Gulf, did it apply for tax-exempt status with the IRS and announce how it will distribute the bulk of its donations. The former Presidents' Fund said that it will give \$40 million to charitable funds formed by the governors of Louisiana, Mississippi and Alabama, \$30 million for colleges and schools in the three states, and \$20 million for a faith-based partnership, which will decide how to distribute it. It is surprising that it took so long to allocate these funds since most went to grantee organizations that are serving as intermediaries in deciding which organizations or people will be the final recipients of these donations. Also, as of December 7, the former Presidents' Fund has not publicly announced on its Internet site or in its press releases who will serve on its full governing board. Donors need to know this to make an informed giving decision."

<http://www.foxnews.com/story/2006/08/29/following-money-donated-in-aftermath-hurricane-katrina.html>
KASICH: And what happened with that money?

STAMP: That was the problem. Is that they went around the country raising the money and they didn't really tell people what they were going to do with it. I had a problem then that you should never give to a charity that's vague or deceptive in what they're raising money for. It's like investing in a for-profit company without knowing what they are going to do with it.

Today, just three weeks later just three weeks ago, I'm sorry, William Gray and Pastor T.D. Jakes from Texas and the Religious Advisory Committee has resigned from the Clinton-Bush Katrina relief fund because they are not even sure that the charities and churches they are giving to exist.

>Even more telling, Pentagon documents obtained by Bamford for his Rolling Stone story revealed that Rendon had been given access to the NSA's top-secret surveillance data to carry out its work on behalf of the Pentagon. TRG, the DoD document's said, is authorized to research and analyze information classified up to Top Secret/SCI/SI/TK/G/HCS.

> SCI means Sensitive Compartmented Information, data classified higher than Top Secret, while SI designates Special Intelligence, that is, highly secret communications intercepted by the NSA. TK refers to Talent/Keyhole, code names for imagery from reconnaissance aircraft and spy satellites, while G stands for Gamma, encompassing communications intercepts from extremely sensitive sources, and HCS means Humint Control System information from a very sensitive human source.

>In Bamford's words: Taken together, the acronyms indicate that Rendon enjoys access to the most secret information from all three forms of intelligence collection: eavesdropping, imaging satellites and human spies. Seems like Hillary got the top secret docs from someone involved, look into The Rendon Group and Highlands Forum.

THE JACOBS FAMILY

So these monsters likes to buy up property and influence in San Diego.

Aside from that, they own Qualcomm.

>They own this thing:

<http://www.ranchovalencia.com/>

They HAVE to be losing money on this because it's placed in the middle of private property in the neighborhood.

HOWEVER, they did use it as their fund-raising arm. For the Ronald McDonald House, the Obamas, silent auctions for themselves, you name it. Every other night these guys had events in the middle of a neighborhood.

The Jacobs are involved with the Friends of the San Dieguito River Valley, who mention the Sierra Club.

<http://www.fsdrv.org/index.html>

They got in trouble a few times because they wanted to put a walking path all the way from the Jenny Craig Horse Farm to the Lake Hodges dam and were refused because some girl also died out there and it was deemed unsafe. They also wanted to remove all cars from the area around the San Diego Zoo because they could suggest that, I guess.

These guys also have a private residence in La Jolla, which they let the Obamas themselves show up at. I can't remember if it was ever in the local news, but they used to disperse their emails about all these cute happenings in San Diego.

They just buy up property, waste time for 5 years, and then do nothing with it or go off annoying the city.

They do earn legitimate BILLIONS with legitimate businesses, but their deep ties to the Obamas is disgusting.

IIRC Irwin Jacobs has made varied and substantial donations to the Donahue Foundation in excess of what appears to be 50m over several years.

You look at the grant page and they have given out maybe 200k this year. Looks like a lot of spread. Anyone know anything about this group?

<http://www.donahuefoundation.org/grants.html>

they are based in San Diego which explains a lot of the San diego groups on there probably mostly innocuous

Irwin Jacobs personal philanthropy to Donahue Foundation was in excess of looking

I looked into billionaire Irwin Jacobs on that list of CF donors of 25k+
Not only did he give over 2 million to the Obama campaign, but Irwin Jacobs met with Michelle in a little publicised "fundraiser" that's purpose was unspecified. It looks like Obama is sending Michelle off to speak to contributors under the guise of fundraising.

Jacobs owns Qualcomm, the massive telecommunications company. Qualcomm also hides its political spending.
After a lawsuit, they were forced to disclose giving \$1 million to the Committee for a Responsible Federal Budget and \$1.8 million to trade associations, including \$385,000 to the U.S. Chamber of Commerce.

From 2002 through 2012, Qualcomm provided things of value to foreign officials to try to influence these decision makers to favor and/or promote Qualcomm-developed technology in an evolving international telecommunications market, thereby providing Qualcomm with a business advantage, said the SEC.

We need to assume Michelle is just as on board with this as Obama and Hillary are. Her fundraising travels are very likely a ploy for something bigger. We need to look deeper into her

>Hillary is often confused.
The above is from court records.

>So where does Huma fit into this profile? There is a precept within Sharia called, maruna that advocates lying and false impersonation as a valid doctrine of faith. This doctrine is widely accepted as a means of sowing division and confusion by The Muslim Brotherhood. Hence, Huma's very odd marriage to a Jewish man, in complete contradiction to the values instilled by her Sharia Law mother. Perhaps he was the unwitting shill, the man who followed his lust instead of his values and morality. He was easy. And perhaps the vow Huma has for Hillary, knowing that her innate confused mind will ultimately lay the table for a Huma dictatorship. As she is really the man in control.

>Is the abdication of the confused Hillary simply a precursor to the potential rule of Abedin as her most trusted and loyal advisor. Is Hillary the real pawn and the betrayal a play waiting to happen? Is Abedin raising her child to be the new messiah within the lineage of Muhammad? Is that her coronation? IS that what gives her and her mother the ability to reign within Saudi Arabia despite their Muslim Brotherhood connection

IRELAND

>Irish Aid is a government sponsored charity that has given millions to the Clintons

>They have ties in all the African countries that the CF is tied into

>They spend large amounts on aids medicine like the Clintons are fond of

>Also spend money supporting political groups against Israel just like the State Department was revealed to do

>Millions are missing in donations pledged and money is going to corrupt African shit holes

>CF might not even be a legal charity in Ireland to give to

NORWAY

<http://dailycaller.com/2016/07/05/donations-from-govt-to-clinton-foundation-sparks-scandal-in-norway/>

>The donation took place last year after Brende and Prime Minister Erna Solberg promised a contribution following a meeting with former President Bill Clinton. They had a very energetic meeting apparently.

The two foreign ministers to have been in charge sonar Norway started giving money to the Clintons are Borge Brende and Espen Barth Eide. Wide resigned a few years back and since has landed himself a spot on the Board for the centre of Humanitarian Dialogue and a job as the UN special adviser on Cyprus. These could be linked to the CF but I haven't found out yet. Brende is currently the foreign minister and has a job as Managing Director at the world economic forum. Also poss

ibly linked to the CF. The Norwegian Agency for Development Cooperation is also giving money to the CF so if anyone needs something to do, they could look into that.

>https://en.wikipedia.org/wiki/Centre_for_Humanitarian_Dialogue

>The Centre for Humanitarian Dialogue, otherwise known as the Henry Dunant Centre for Humanitarian Dialogue, or HD, is a private diplomacy organisation based in SWITZERLAND that assists in mediation between conflicting parties to prevent or end armed conflicts.[1][2]

Seems like they do a GREAT JOB at their goal.

>It also conducts research and analysis on mediation and peacemaking in support of its operational work to improve international efforts to secure and sustain peace. To do so, HD opens channels of communication and mediates between parties in conflict, as well as facilitates dialogue and provides support to the broader mediation and peacebuilding community.[4] HD will facilitate dialogue in both confidential settings as well as public ones.

Wonder how much they gag on qatari and saudi cock for peacemaking.

>It is headquartered in Geneva,[5] which is also the location of its MIDDLE EAST and NORTH AFRICA programme. HD has regional offices in Africa and Asia.

Well isn't that unironic, since both of those places have become beacons of peace, stability, and civilization in the past decade.

The Qatari sheikha that Clinton met through Clair Blair founded an organization that approached the US government around the same time they met to do the exact same thing.

Something is fishy in Norway. People haven't talked about the Norway connection much, but they have contributed an inordinate amount to the CF. Why?

<http://www.thelocal.no/20160704/norways-funding-of-clinton-foundation-under-scrutiny>

<http://www.newsinenglish.no/2016/05/30/norway-buying-itself-influence/>

<https://i.sli.mg/qhgE1g.png>

- Norwegian press says: Donations to the Clinton Foundation by the GON (Government of Norway) were against the law

- The CF has wanted to structure its sources from the GON in a way that the received amount appeared to be significantly smaller than it really is

- The reason for this was that the GON has a law limiting the amount of outgoing donations

- They have used the well-known "smurfing" technique to achieve this - they have cut the amount into several smaller pieces

- More on this on thelocal.no and Dagbladet

First quick translation (will read more, but thought I'd post this as it summarizes it I think).

Dagbladet article summary (snippets from article).

Regarding the foundation to Bill, Hillary and Chelsea Clinton wanting to replace diesel-aggregate with wind and solar power.

Norwegian foreign-minister Borge Brende had a strong wish to give money to this project. The wish was so strong that he according to an internal Norad-report (Norwegian Agency for Development Cooperation) elected to ignore his own policy.

The money was promised to the project when Borge Brende and Erna Solberg (prime-

minister) met Bill Clinton 29. June 2015.
Norway, Saudi-Arabia and Australia is the three countries that according to the Clinton-foundation contributes most money.

In the period 2007 to 2015 did Norway contribute 584 million kroner to the Clinton-foundation according to Norad. The next three years have Norway promised further 92 million kroner.

>584 million kroner = ~67,8 million USD when I checked today value

>92 million kroner = ~10.7 million USD

>The point where Borge Brende was breaking policy is that Norway have declared what countries we are going to help, and the Clinton-foundation project is outside this scope.

The Clinton-foundation was asked that the money given by Norway wasn't channeled to those three countries because those countries haven't been cleared for receiving aid by the OECD.

List of meeting between Norwegian parliament members and Clinton-family members.

Meeting between Hillary Clinton and foreign-minister Borge Brende is not included in list.

NORTH KOREA

On Steve Bing and the North Korea trip:

>The White House is trying to give the impression that ailing NK dictator Kim Jong-il, who suffers from terminal pancreatic cancer, was willing to release the reporters merely for the privilege of having a photo opt with former president Bill Clinton--no messages, no deals, no promises--just a sudden thaw in an otherwise frosty relationship.

>Anyone familiar with the past and current history of North Korean tactics knows this release-without-conditions was a total charade with a pre-agreed upon script. It was at once a propaganda coup for Kim Jong-il, coming across as the benevolent grantor of clemency, and a publicity stunt for media hungry Bill Clinton and Al Gore.

>But the reality is that no such private mission to NK is even possible. You can't even file a flight plan into NK without a special government waiver granted by the White House. Slowly additional truths have leaked out about the role of the National Security Advisor in coordinating this mission. Hillary Clinton, who as head of the State Department, would have been the normal one to vet this trip, but she was shunted aside so as to avoid the charge of making this a family affair.

>To further the private mission claim, Dow Chemical and wealthy Hollywood movie producer Steve Bing were tapped to provide the transportation. Naturally, a deep insider newspaper like the Washington Post had the lion's share of the partial truths while still maintaining the myth that this was totally private.

<http://renew.com/general87/behin.htm>

Steve Bing doesn't seem particularly sketchy, thought this whole NK trip certainly was.

MEXICO

We could start with the War on Drugs in Mexico, there is a treasure trove of leads.

was defined by former President George W. Bush as a new security cooperation initiative between Mexico and the United States to combat drug trafficking and organized crime.

In March 2009, President Obama signed \$300 million more into law for Merida Initiative funding as part of the 2009 Omnibus Spending bill.

The release of 15% of these funds depends on a State Department report regarding 4 Human Rights requirements conditioned by the U.S. congress for Mexico to fulfill. These include improving the transparency and accountability of federal, sta

te and municipal police; ensuring that civilian authorities are investigating and prosecuting members of police and military forces who have been credibly alleged to have committed human rights violations; engaging in consultation with Mexican human rights organizations; and enforcing the prohibition of testimony obtained through torture.

The funds released will go to military aircraft and towards drug interdiction equipment and training; these resources are intended for Mexican military and federal police forces. Members of the Mexican Congress have complained about the lack of transparency related to the how these funds have been dispersed up to this point.

Current minister of foreign affairs of Qatar, Mohammed bin Abdulrahman bin Jassim Al-Thani, used to be chairman of the board of directors for Aspire - Katara Investment Company from 2011 to 2012. Aspire - Katara Investment Company is organization behind Doha GOALS which advertises it as the "world's premier platform for world leaders to create initiatives for global progress through sport".

DOHA GOALS was launched in 2012 with the help of Richard Attias, who just happens to be also the co-founder of the Global Clinton Initiative.

It seems to me that there was a huge coverup involving the board and Tom Corbett , as well as potential child trafficking from the charity itself. This could link back to both Jeffrey Epstein's doings and the Clintons, as the Clintons have close ties with Penn State and the football program.

GREG ABBOTT

>Abbott: Texas to Block Syrian Refugee Resettlement

<https://www.texastribune.org/2015/11/16/texas-block-syrian-refugee-resettlement-abbott-say/>

>Texas Gov. Greg Abbott takes flak for pandering to fringe

<http://www.chron.com/news/houston-texas/texas/article/Abbott-takes-flack-for-pandering-to-fringe-6403558.php>

>Texas Gov. Greg Abbott already took fire for his perceived pandering to a radical fringe when he called up the Texas troops to keep an eye on the feds in Jade Helm. Now fresh allegations are flowing.

>An editorial in the Dallas Morning News alleges, "Abbott sided with conspiracy theorists to kill mental health bill." The charge is based on reporting by the Texas Tribune, which suggested the governor was again giving substantial government sway to conspicuous perspectives.

>The bill, Senate Bill 359, would have allowed doctors or hospitals to detain mentally ill patients deemed dangerous to release until law enforcement arrives to take charge of the subject. Otherwise, hospitals are faced with the decision of admitting a patient, who may seem mentally ill though not medically sick, or releasing them.

The guy is already on the liberal/leftist blacklist, but clearly he did something else to annoy people.

THIS WARRANTS MORE DIGGING.

<http://www.theblaze.com/stories/2014/11/05/after-making-a-big-campaign-promise-to-gun-owners-texas-new-governor-elect-just-made-it-clear-he-intends-to-keep-it/>

>Abbott said three of his biggest priorities during his time as Texas governor will be additional job growth, border security and improving Texas schools
Abbott also signed into the law the Texas open carry legislation.

The big thing to note is the "IMPROVING TEXAS SCHOOLS." Texas is the hub for the Gulen charter schools. Fethullah Gulen is a terrorist, Erdogan has called for his extradition to Turkey. He is funding Islamist charter schools all over the country, particularly in Texas. The money from these charter schools are going to dubious causes. Gulen is a known friend of the Clintons and donates to the foundation.

Remember that yesterday Seth Rich, an advocate for fair elections and anti-voter fraud, was shot dead in Northern DC. There was no robbery. There are no suspects.

Last week TX Governor Greg Abbott was badly burned from his knees down in an "accident" while on vacation in Wyoming. Let's take a closer look at Greg Abbott:

First, there's this website: <https://www.gregabbott.com/hillarys-fight-against-fair-elections/>

Then there's this jab he took directly at Clinton: <http://politistick.com/texas-governor-greg-abbott-delivers-hillary-a-blunt-message-regarding-her-gun-confiscation-hopes/>

>On Friday, anti-rights Democrat leftist Hillary Clinton thought that gun confiscation, which goes against everything America was founded upon, should be worth considering. Apparently Rodham Clinton isn't aware that America's Second Amendment has a very clear "shall not be infringed" provision when it comes to gun rights, as our brilliant Founding Fathers knew that some tyrant would eventually come along who didn't respect human freedom and voters may be duped into voting for him or her.

.

>And while progressive leftists seem to have taken an oath to Karl Marx's Communist Manifesto, rather than the U.S. Constitution, Texas Governor Greg Abbott, a Republican, has a three word answer for tyrants like Hillary Clinton, and it's only three words, NOT IN TEXAS.

Then there was the twitter battle the two had, which Breitbart reports nicely on so I won't quote: <http://www.breitbart.com/big-government/2015/11/04/hillary-sparcs-with-texas-governor-over-houstons-refusal-to-allow-men-in-ladies-rooms/>

Clinton took a jab at Abbott during a campaign speech in Houston: <http://trailblazersblog.dallasnews.com/2015/11/hillary-clinton-jabs-at-gov-greg-abbott-during-campaign-stop-in-dallas.html/>

POPE FRANCIS

Pope Francis & Soros work together for a common goal

>While the IRS revoked the non-profit status of the George Soros-subsidized Catholics in Alliance for the Common Good (CACG) in October 2013 for failing to file a form 990 for three consecutive years, the organization recently re-emerged with a progressive voter guide for the November presidential elections. For A Revolution of Tenderness: A 2016 Election Pope Francis Voter Guide, CACG collaborated with other progressive groups including the Soros-supported Faith in Public Life Catholic Program, the Leadership Conference of Women Religious, Pax Christi International, and others to produce a voter guide that claims to show how we apply the teachings of our Church to the problems of our day with a heart of mercy.

>Like the organization's previous presidential voting guides, the new guide provides encouragement to Catholics wishing to support candidates who promote progressive positions sometimes at the expense of the non-negotiable teachings of the Church on life and marriage. Claiming that their long list of social ills are all related, the 2016 guide, like the 2012 guide before it, stacks the deck in favor of pro-choice politicians who promise to protect the poor, the environment, and LGBT rights but not the rights on the unborn or of the family.

SIDWELL FRIENDS SCHOOL

According to the transcripts of the White House's first Ramadan Dinner in 1996. Hillary Clinton states that she learned everything about Islam from 14 year-old Chelsea Clinton who got such knowledge from her Islamic Studies class in Sidwell Friends School.

Almost every major figure of the last century, including Bill Nye the Science Guy, has a familial relationship to this creme of the creme school.
<http://clinton.presidentiallibraries.us/files/original/5973a3bdd4de58d449aa2edd6ee54bcc.pdf>

Oh boy, that's a CIA/spy training school if I ever saw one. In looking for info on the school, I found this:

<http://hotair.com/archives/2015/04/07/former-dia-chief-highly-likely-hillarys-e->

mails-got-hacked-by-friends-and-foes-alike/

The article itself is nothing terribly new, but the excerpt at the end is pretty funny:

>One day, according to Payne, he was walking through the second-floor private kitchen when an agent walked in behind him waiting to escort Chelsea to Sidwell Friends, the private school she attended in northwest Washington. Chelsea was on the phone.

> Oh, I've got to go, she told her friend. The pigs are here.

>The agent turned crimson, Payne recalls. Ms. Clinton, I want to tell you something. My job is to stand between you, your family, and a bullet. Do you understand?

>She replied: Well, that's what my mother and father call you.

1992 AND LSC?

Here's an oldie, but maybe it has some people we overlooked. The Spectator wrote an expose on Hillary in 1992 that might prove useful now.

><http://spectator.org/articles/64729/lady-macbeth-little-rock>

>By the morning of June 5, four top Clinton campaign aides David Wilhelm, George Stephanopoulos, Eli Segal, and Stanley Greenberg had had enough of Susan Thomas and Harold Ickes, two ultra-liberal campaign aides who had fastened themselves to Hillary. According to a Clinton insider, the four had concluded that Susan Thomas is running this campaign with Harold Ickes through Hillary, and gave Bill Clinton this ultimatum: Either [Thomas] goes, or we're all going and she can run the campaign. Ever the Conciliator-in-Chief, Clinton managed to avert a mass resignation by the top echelon of his campaign staff. They papered all this over for the time being, but it won't last, says the insider.

>When the spunky, young Hillary Rodham left Park Ridge, Illinois, for college in 1965, she was by all accounts a Goldwater conservative. Four years later, as Wellesley's first-ever student commencement speaker, she took her leave of the school in a valedictory cloud of disjointed sixties rhetoric. What happened to Hillary at Wellesley? What happens to everybody at Wellesley, says her close college friend, Eleanor "Eldie" Acheson (granddaughter of Truman Secretary of State Dean Acheson). They become right-thinking.

Names to research.

>Susan Thomas

>Harold Ickes

>Eleanor "Eldie" Acheson

She also stated really weird things about children's rights.

>But Hillary's advocacy of massive and immediate expansion of federal child-care programs was relative tinkering compared to the radical redefinition of the relationship between state and family that she called for as a champion of the children's rights movement. In Children Under the Law (a 1974 essay reprinted by the Harvard Educational Review in 1982) she proposed three measures for obtaining children's rights: (1) the immediate abolition of the legal status of minority and the reversal of the legal presumption of the incompetence of minors in favor of a presumption of competence; (2) the extension to children of all procedural rights guaranteed to adults; (3) the rejection of the legal presumption of the identity of interests between parents and their children, and permission for competent children to assert those independent interests in the courts. (In effect, when parents and their teenage kids don't agree on who's the boss, a judge steps in.)

>I prefer that intervention into an ongoing family be limited to decisions that could have long-term and possible irreparable effects if they were not resolved. Decisions about motherhood and abortion, schooling, cosmetic surgery, treatment

of venereal disease, or employment, and others where the decision or lack of one will significantly affect the child's future should not be made unilaterally by parents. Children should have a right to be permitted to decide their own future if they are competent.

We might want to look into the LSC. It was a shady charity she headed back in the 1970s.

>In 1978, Hillary Rodham was appointed Chairman of the Board of the Legal Services Corporation (LSC) by Jimmy Carter. Established by Congress as a federally funded, independent, private, non-profit, and non-political corporation to provide legal assistance to the poor in non-criminal cases, the LSC degenerated under Rodham into what the late Warren Brookes called a \$300 million liberal political action committee, rife with illegality. During her chairmanship and later tenure on the board, the LSC published a political training manual showing how community organizations and public interest groups can win political power and resources, a sequel to the earlier Tactical Investigations of People's Struggles. They even made a contribution to a mayoral campaign in Georgia, rationalizing it as a project to educate clients about their rights in the legislative process.

>In January 1980, the LSC funneled taxpayer money into something called the Proposition 9 Task Force, a campaign to coordinate the efforts of thirty LSC grant recipient groups and 500 attorneys in California to defeat Proposition 9, a ballot initiative to cut state income taxes in half. The LSC is explicitly barred by its charter from providing this type of assistance to defeat a state ballot initiative, and in a September 19, 1983 report, the Comptroller General of the United States (GAO) nailed the Rodham LSC to the wall.

HAROLD ICKES

Reposting info found on Harold Ickes and asking if anyone else knows more and can point me in right direction.

"Ickes joined the Clinton White House on January 4, 1994, and would serve for three years as Deputy White House Chief of Staff for Political Affairs and Policy.

Ickes would later surface at the center of the so-called "Teamstergate" scandal -- a complex money-laundering scheme in which several high-level Democrat leaders and union bosses who were directly implicated in the case mysteriously escaped prosecution. Among those major players were Service Employees International Union (SEIU) head Andrew Stern; American Federation of State, County and Municipal Employees (AFSCME) chief Gerald McEntee; Terry McAuliffe, who then headed the Clinton-Gore reelection campaign; and Harold Ickes himself."

"Insiders have long noted Ickes' special loyalty toward Hillary Clinton. The Boston Globe called him "a special favorite of the president's wife." In the Clinton White House, Ickes quickly gravitated to Hillary's end of the operation. He served initially as "health care czar," charged with rescuing the First Lady's floundering Health Security Act. Mrs. Clinton later placed Ickes in charge of a special unit within the White House Counsel's office, dedicated to suppressing Clinton scandals. It operated, in effect, as a Counsel's office within the Counsel's office. In his book The Seduction of Hillary Rodham, David Brock refers to Ickes' special unit as the "Shadow Counsel's Office." Its operatives included Mark Fabiani, Chris Lehane and Jane Sherburne. Ickes reported directly to Hillary Clinton on all matters related to the work of this special unit.

Because so many of his duties involved damage control during Clinton scandals, Ickes wryly referred to his role as "Director of Sanitation." "Whenever there was something that [Bill Clinton] thought required ruthlessness or vengeance or sha

rp elbows and sharp knees or, frankly, skulduggery, he would give it to Harold," former Clinton advisor Dick Morris told Vanity Fair in September 1997."

"Ickes also headed the Clintons fundraising apparatus, collecting record-breaking quantities of soft money -- much of it through such means as labor racketeering ; soliciting payoffs from U.S. businessmen seeking inside access to overseas trade missions; and -- as Edward Timperlake and William C. Triplett II document in their book Year of the Rat: How Bill Clinton and Al Gore Compromised U.S. Security for Chinese Cash -- cutting deals with Chinese intelligence agents eager to loosen up U.S. export controls on military technology.

By 1996, federal investigators had begun zeroing in on Ickes' involvement in numerous Clinton scandals, including Filegate (the illegal commandeering of more than a thousand secret FBI background files on potential Clinton foes) and Chinagate (the selling of military secrets to Red China in exchange for campaign contributions). Thus Ickes was becoming a liability to the Clinton White House; two months after Bill Clinton's November 1996 reelection, the President fired him."

"Following Mrs. Clinton's successful election, Ickes played a central role in creating the Democrat Shadow Party. After passage of the McCain-Feingold Act of March 27, 2002, Ickes helped put Shadow Party architect George Soros together with activists Andrew Stern, Ellen R. Malcolm, Steven Rosenthal, Gina Glantz, Cecile Richards, and other leftwing Democrats who were seeking ways to circumvent McCain-Feingold's soft-money ban. Working closely with Soros, Ickes personally helped launch six of the seven organizations that formed the Shadow Party's core during the 2004 election, including America Coming Together, America Votes, the Center for American Progress, Joint Victory Campaign 2004, the Media Fund, and the Thunder Road Group."

Ickes lobbied for Supreme grp. shortly before it got busted for defrauding the Pentagon. 434 mil fine. Swiss/UAE/Bahrain food supplier to military.

ONEVOICE

Somewhat interesting:

<http://www.washingtontimes.com/news/2016/jul/12/obama-admin-sent-taxpayer-money-out-netanyahu/>

>Some \$350,000 was sent to OneVoice, ostensibly to support the group's efforts to back Israeli-Palestinian peace settlement negotiations. But OneVoice used the money to build a voter database, train activists and hire a political consulting firm with ties to President Obama's campaign -- all of which set the stage for an anti-Netanyahu campaign, the Senate Permanent Subcommittee on Investigations said in a bipartisan staff report.

Still following up on this, looked at their financials and we found the New Venture Fund. Kinda starts to hurt when you notice that tax money is just going into slush funds and grants for these people in tax-exempt organizations.

TIMSHEL ORGANIZATION

Guys, has anyone heard of this "Timshel" organization? I found mention of it in this article about Eric Schmidt's "Groundwork".
<http://www.govexec.com/technology/2016/05/eric-schmidt-backed-startup-working-pull-hillary-clinton-white-house/128056/>

> He explained that the Groundwork and its parent company, Chicago-based Timshel which according to its website is named for a Hebrew word meaning you may and is devoted to helping humanity solve our most difficult social, civic, and humanitarian challenges are all one project, with the same backers, whom he declined to name.

>Schmidt the executive chairman of Google parent-company Alphabet to ensure that Clinton has the engineering talent needed to win the election.
